Evendale Medical Center 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of the Evendale Medical Center 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Evendale Medical Center (Company) for the benefit of its employees who are age 21 or older and are not members of a collective bargaining agreement with the Company. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). State Street Bank & Trust Company is the trustee of the Plan. ADP Retirement Services serves as the record-keeper of the Plan.

On December 29, 2012, the Board of Managers of the Sponsor voted to begin the process of termination of the Plan as of March 15, 2013. Participants were immediately 100% vested in their accounts as of the termination date and had the option of taking a distribution, or rolling their balance into a new plan or an individual retirement account. Plan management intends for the Plan to be fully terminated by the end of 2013.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 87% of eligible compensation. Employee rollover contributions are also permitted. Effective July 1, 2011, the Company makes matching contributions of 100% of employees' salary deferral amounts up to 3% of employees' compensation. Company profit-sharing contributions are discretionary and are determined as of the end of the Plan year (none in 2012 or 2011). Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

December 31, 2012 and 2011

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Prior to termination, vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Participants vest in Company contributions and earnings and losses thereon as follows:

Years of Service	Vesting Percentage
Less than 1	0%
At least 1, but less than 2	25%
At least 2, but less than 3	50%
At least 3, but less than 4	75%
4 or more	100%

The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions or are applied towards administrative expenses at the discretion of the Company.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his or her account or a joint and survivor annuity. At December 31, 2011, respectively, plan assets include \$1,438 allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid (none at December 31, 2012).

Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$500. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest rates are set at the rate in effect in the month the loan is effective. The interest rate is the prime rate plus two percentage points. Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust, which in 2011 was materially equal to the contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The accompanying financial statements were prepared on the accrual basis of accounting. Given the Plan's termination, accounting principles generally accepted in the United States of America indicate the Plan's basis of accounting should change from the ongoing basis to the liquidation basis. However, the impact of these changes was deemed immaterial and, therefore, has not been reflected in the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The Plan's interests in the collective trust funds are valued based on information reported by the investment advisor using the audited financial statements of the respective funds at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) and profit sharing plan document sponsored by Automatic Data Processing, Inc. (ADP). The Plan has not submitted to the Internal Revenue Service (IRS) for an individual determination letter as the nonstandardized prototype document has received a favorable opinion letter from the IRS. The Plan has been amended since the prototype received the determination letter. However, we believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, we believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Plan paid \$1,586 and \$1,126 of recordkeeping fees during 2012 and 2011, respectively. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of common collective trust funds managed by State Street Bank & Trust, which is the trustee as defined by the Plan agreement. Therefore, these transactions qualify as party-in-interest transactions.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measures must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full-term of the assets or liabilities.
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in

Evendale Medical Center 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2012 and 2011

Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan held no Level 3 securities.

Note 6: Reconciliation of Financial Statements to Form 5500

The statement of net assets available for benefits differs from the Form 5500 due to the impact of adjustment for fair value to contract value for fully benefit responsive contracts.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

The current economic situation continues to present retirement plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
