HYDRANAUTICS 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following description of the Hydranautics 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Hydranautics and employees of the Company's affiliate, Nitto Denko Technical Corporation (collectively referred to as the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 18 years of age are automatically enrolled in the Plan (with a 5% salary deferral) on the first day of the month following completion of 3 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute an amount up to 90% of eligible pre-tax and post-tax compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2012, the Company provided a safe harbor contribution equal to 100% of the participant's deferral, up to the first 3% of compensation and 50% of the participant's deferral, up to the next 2% of compensation. The Company may also make discretionary profit sharing contributions. For the year ended December 31, 2012, the Company made no discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, safe harbor contributions and allocations of (a) the Company's profit sharing contributions, if any, (b) participant account earnings, and charged with an allocation of administrative expenses, if applicable. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN - (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding \$1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding \$1,000, but not exceeding \$5,000, may be rolled into an Individual Retirement Account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions and the Company's safe harbor contributions, plus actual earnings thereon.

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. As of December 31, 2012 and 2011, the amount of available forfeitures totaled \$2,318 and \$0, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions. Under the provisions of the Plan, participants are only allowed one outstanding loan balance at any given time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

HYDRANAUTICS 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Basis of Accounting - (Continued)

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

HYDRANAUTICS 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

3. FAIR VALUE MEASUREMENTS - (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common collective trusts – stable value fund: Valued at the NAV based upon the market value of its underlying investments. The investment contains synthetic investment contracts, conventional investment contracts and cash equivalents. The guaranteed investment contracts in the underlying investments are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. The wrap contracts in the underlying investments typically reset on a monthly or quarterly basis as negotiated with the wrap issuer. Participant initiated withdrawals for benefit payments and transfers to other investments will be made within 30 days after notification has been received. Withdrawals, other than for benefit payments and participant transfers, are made one year after notification is received. The asset is classified within level 3 of the valuation hierarchy because the asset value is not based on a quoted price in an active market and is valued based on unobservable inputs.

Interest-bearing cash: Interest bearing cash consist of money market investments. The carrying value is believed to be representative of its fair value based on its short term nature and are classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

3. FAIR VALUE MEASUREMENTS - (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

	<u>Common/collective Trusts</u>
Balance, beginning of year	\$ 2,784,707
Purchases	242,168
Sales	(608,303)
Net depreciation in fair value	(7,155)
Interest Income	30,703
Administrative fees	<u>(1,350)</u>
Balance, end of year	<u>\$ 2,440,770</u>

The following table represents the Plan's level 3 investment, the valuation techniques used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

<i>Instrument</i>	<i>Fair Value</i>	<i>Principal Valuation Method</i>	<i>Unobservable Inputs</i>	<i>Range of Significant Unobservable Inputs</i>	<i>Weighted Average</i>
Stable Value Trust Fund	\$2,440,770	Discounted Cash Flow	Various Assumptions	(A)	(A)

(A) Fair value is determined primarily using an income approach. The parameters used for discounting in the calculation were estimated using the perspective of the principal market which consists of similar contracts. Additional assumptions were made regarding participant behavior and product management actions.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds assets in a common/collective trust with Fidelity that invests in a benefit-responsive investment contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

HYDRANAUTICS 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY - (Continued)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

<i>Average yields:</i>	<u>2012</u>	<u>2011</u>
Based on actual earnings	1.69%	1.74%
Based on interest rate credited to participants	1.11%	1.26%

5. INVESTMENTS

For the year ended December 31, 2012, the Plan's investments in registered investment companies (including investments bought, sold and held during the year) appreciated in value by \$1,538,071.

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule as of December 31, 2012 and 2011, and for the year ended December 31, 2012.

	<u>2012</u>	<u>2011</u>
Registered investment companies	\$ 16,320,768	\$ 12,385,478
Common / collective trusts	2,359,025	2,695,807

Interest and Dividends	404,950	*
Interest income on notes receivable from participants	50,305	*

* Information is not required.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Fidelity, the trustee and record-keeper of the Plan. The Plan paid \$8,464 in contract administration fees to Fidelity and \$6,500 in audit fees during 2012. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

HYDRANAUTICS 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

8. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A transaction within the plan year, with respect to any plan asset, involving amount in excess of 5% for Schedule H filers of the current value of plan assets.

*** NO REPORTABLE TRANSACTIONS ***

Department of Labor regulations require that reportable transactions be determined based on the value of the plan assets as of the beginning of the plan year, (unless the Form 5500 is being filed for the initial plan year -- in which case the value of the plan assets as of the end of the plan year is used). Please note that if your plan converted to Fidelity during the plan year, or Fidelity did not recordkeep all of the plan assets as of the beginning of the plan year, Fidelity is unable to determine the actual value of the plan assets as of the beginning of the plan year. Therefore, the beginning of year value reflected on this report would not be correct. You should apply the value of the transactions identified on this report to the actual value of the assets as of the beginning of the plan year to determine whether or not they are reportable (i.e., exceed 5% of the actual value of plan assets as of the beginning of the year).
