Note 1. Plan Description

The following description of the William H. Sadlier, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, which commenced in 1986 and was amended effective October 1, 2009, is a defined contribution plan covering all eligible employees of William H. Sadlier, Inc. (the "Company" or "Plan Sponsor"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: The Plan covers all salaried employees who become eligible after the subsequent calendar quarter, who have attained the age of 21 and who have completed three months of service. Any employee who was not eligible to participate in the Plan on its effective date will become eligible on the first day of the quarter nearest the time when such employee meets these requirements.

Contributions: The Plan, as amended, allows participants to contribute up to 70% of compensation on a pretax basis as limited by statutory regulations under the Internal Revenue Code of 1986 (the "Code"), as amended. Participants who reach age 50 during the Plan year are allowed to make catch-up contributions subject to annual limitations. In 2012, the maximum catch-up contributions allowable under the Plan amounted to $5,500 and they are adjusted annually. The annual pretax contribution limitation for each participant, adjusted each year for cost-of-living adjustments prescribed under Section 415(d) of the Code, was $17,000 in 2012.

The Plan Sponsor, as presently authorized by its board of directors, makes discretionary elective contributions on behalf of participants in amounts equal to 50% of the participants' contributions, subject to a maximum of 6% of each participant's compensation. These matching contributions are subject to the vesting schedule described below. Compensation includes all wages subject to tax under Section 3101(a) of the Code, without regard to the dollar limitation of Section 3121(1), but not including deferred compensation other than contributions through a salary reduction agreement to a cash or deferred plan under Section 401(k).

Effective January 1, 2008, all eligible employees are automatically enrolled in the Plan at a contribution rate of 3% of compensation, unless specifically opting out of the Plan.

Each Plan year, the Plan Sponsor may also make an additional profit sharing contribution as declared by the Plan Sponsor's board of directors. This amount is allocated to each participant on the basis of actual compensation paid during the period. These amounts are recorded in the Plan Sponsor contribution accounts and are subject to the vesting schedule described below. In 2012 and 2011, the Plan Sponsor's board of directors did not declare an additional profit sharing contribution.

A participant may make a rollover contribution to the Plan of amounts which he or she has received from another qualified plan.

Participants' Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant contributions, earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Upon termination of employment, the vesting in the Plan Sponsor's contribution is as follows: after two years of service, 20% vested; after three years of service, 40% vested; after four years of service, 60% vested; after five years of service, 80% vested; and after six years of service, 100% vested. If a participant leaves the employ of the Company prior to such time, the portion of the accrued benefit which has not vested is forfeited.

Note 1. Plan Description (Continued)

Upon termination of the Plan, the benefits of each participant shall become fully vested and nonforfeitable to the extent of the fund.

Payment of Benefits: Upon reaching retirement, or upon permanent disability, the initial amount to which the participant is entitled shall be paid as soon as practical, but in no event later than 60 days following the close of the Plan year in which he or she reached normal retirement age. If a participant continues employment beyond the normal retirement age of 65, payment may be deferred until he or she terminates employment.

Unless an optional form of benefit is selected pursuant to a qualified election within the 90-day period ending on the day benefit payments would commence, a participant will be paid in the form of a qualified joint and survivor annuity. If the participant is unmarried or chooses to have benefits paid in a form other than a joint and survivor annuity, benefits shall be paid in either a lump sum or in the form of monthly or annual installments over a period not to exceed the life or life expectancy of the participant or in the form of a combination of the above-mentioned options.

Upon a participant's death, all benefits payable shall be paid to a designated beneficiary in substantially equal installments over the life expectancy of the beneficiary commencing no later than one year after the participant's death. If the beneficiary is the participant's surviving spouse, distributions shall begin no later that the date on which the participant would have attained age 70½.

Upon termination of service before retirement, disability or the participant's death, the Plan Administrator shall either distribute the vested portion of such participant's employer contribution account plus his or her participant account or defer distribution until the participant reaches normal retirement age. Nonvested amounts that are forfeited are applied to reduce the amount of future Plan Sponsor contributions to the Plan.

Withdrawals: The Plan provides for hardship withdrawals where participants shall be permitted to withdraw a portion of their participant accounts. The amount of the withdrawals may not exceed the amount required to meet the immediate financial need created by such hardship, and participants must demonstrate that such amount is not reasonably available from other financial sources available to them.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. Employer contributions were reduced by $5,357 and $3,698 from forfeited nonvested accounts during 2012 and 2011, respectively.

Notes Receivable From Participants: The Plan allows participants to borrow from the Plan provided that such a loan, when added to the outstanding balance of all loans to the participant, would not exceed the lesser of $50,000 or 50% of the value of the participant's total vested account balance under the Plan. Each participant shall be permitted to apply for no more than one loan per Plan year with a maximum of three outstanding loans. Loans may be made only from the employee account. No loan shall be made in an amount less than $500. All terms of the loans are defined in the Plan. The loans bear interest equal to the prevailing commercial interest rate and are repayable up to a five-year period.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments to any of 16 investment options.

Administrative Expenses: Custodial fees and expenses, including plan audit fees incurred are charged directly to participant accounts. All other administrative costs are paid by the Plan Sponsor.

Note 2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of Accounting: The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment Valuations and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Payment of Benefits: Benefits are recorded when paid.

Recently Adopted Accounting Pronouncement: In May 2011, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRSs")*. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures.* This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and were adopted by the Plan as of January 1, 2012. The adoption did not have a material impact on the Plan's financial statements.

Recent Accounting Pronouncement: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements.* The amendments in this update cover a wide range of topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for nonpublic entities, except for amendments in this update where there was no transition guidance and which were immediately effective upon issuance. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Subsequent Events: The Plan's management has evaluated subsequent events through September 24, 2013, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes by the Plan in the methodologies used during the years ended December 31, 2012 and 2011.

Mutual Funds (Registered Investment Companies): Valued at the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements (Continued)

State Street Bank and Trust Company has also certified to the completeness and accuracy of $1,286,741 of net appreciation in fair value of mutual fund investments, and $428,907 of dividends and interest ($403,460 from mutual fund investments and $25,447 from notes receivable from participants) for the year ended December 31, 2012.

* Investment is less than 5% of Plan's net assets as of December 31, 2012.

Note 5. Related Party Transactions

Certain Plan investments are shares of trust funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and plan audit services amounted to $16,620 for the year ended December 31, 2012.

Note 6. Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing Federal Credit Union. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

The Plan Sponsor's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements as of December 31, 2012 and 2011, and for the year ended December 31, 2012. Generally, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for years before 2009.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan by action of its board of directors, subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their employer contributions.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of those investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of changes in net assets available for benefits.
