Note 1 - Description of Plan

The following description of the Pacific Woodtech Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Pacific Woodtech Corp., and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Pacific Woodtech Corp. (the "Company") is the Plan's sponsor and serves as Plan administrator. The Plan was initiated on September 3, 2010 at which time the assets of Pacific Woodtech employees were transferred from the Itochu 401(k) plan held by Mass Mutual to the Pacific Woodtech Corp. 401(k) Plan held by Fidelity Management Trust Company.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing six months of service.

Contributions

Participant contributions – Each year, participants may contribute between 1 to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan at the discretion of the Board of Directors. Contributions are invested in the same funds as elected for participant deferrals. For the year ended December 31, 2012, the Company made monthly matching contributions equal to 50 percent of the first 6 percent of the base compensation that a participant contributed to the Plan. No profit sharing contributions were made for the year ended December 31, 2012.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued)

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service, as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. Loans bear reasonable fixed rates of interest based on prevailing interest rates, as determined by the Plan administrator. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan period may be extended to a period not to exceed ten years. Principal and interest is paid ratably through monthly payroll deductions. As of December 31, 2012, the rates of interest on outstanding loans ranged from 3.25% to 9.50% with various maturities through January 2018.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account as a non-rollover distribution or a direct rollover distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Lump-sum distributions will be made for all terminated participants with account balances of less than \$1,000. Terminated participants with account balances between \$1,000 and \$5,000 will have their balances automatically rolled into an Individual Fidelity IRA.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay Plan administrative expenses, with any remaining amount used to reduce future Company contributions. For the Plan year ending December 31, 2012, there were no forfeitures of non-vested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

ASU No. 2011-04 – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The Plan adopted the new disclosure requirements effective January 1, 2012.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document. Deemed distributions totaled \$1,825 for the year ended December 31, 2012. These amounts are included in the benefits paid to participants.

Payment of benefits - Benefits are recorded when paid.

Expenses – Certain administrative expenses are paid by the Company, with remaining administrative expenses being paid by the Plan. In addition, certain transaction fees are paid by the Plan.

Note 2 - Summary of Significant Accounting Policies (continued)

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through October 3, 2013, which is the date the financial statements were available to be issued.

Note 3 - Investments

Net appreciation in fair value of investments	\$ 257,256	

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Registered Investment Companies (Mutual Funds) – Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Note 4 - Fair Value Measurements (continued)

The following table discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2012 and 2011:

Note 5 - Tax Status

The Plan document is a volume submitter defined contribution Plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the Plan administrator has evaluated the tax positions taken by the Plan and does not believe the Plan has any uncertain tax positions that require disclosure or adjustments to the financial statements.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

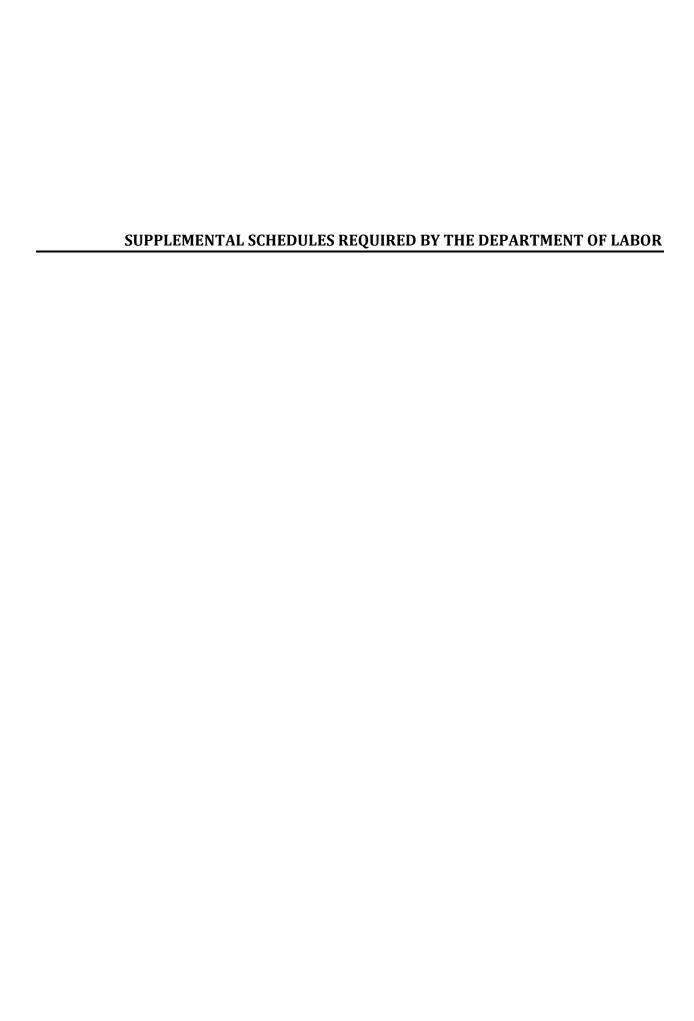

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011.
- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2012.
- Investments reflected on the supplemental schedules of assets (held at end of year).

Note 8 - Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee of the Plan and an affiliate of Fidelity Management Trust Company Investments and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
