JEWISH VOCATIONAL SERVICE 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and December 31, 2011

1. Description of Plan

The following brief description of the Jewish Vocational Service 401(k) Retirement Plan is provided for general information purposes only. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the Plan document for more complete information.

General

The Plan was established January 1, 1999 and was amended and restated on January 1, 2010. All employees of Jewish Vocational Service ("Organization") who have completed 1 year of service, worked 1,000 hours during a consecutive twelve month time period following their date of hire, and have reached age 21 are eligible to participate in the Plan.

Contributions

A participant may authorize contributions up to the annual maximum amount permitted by the Internal Revenue Service through payroll deductions. The Organization makes nondiscretionary matching contributions to the Plan of 50% of the participant's deferral contribution not to exceed a maximum of 2% of the participant's total eligible compensation. In addition, the Organization has elected to make a safe harbor nonelective contribution equal to 3% of the participant's eligible compensation. The Organization may also elect to make a discretionary nonelective contribution to the Plan which is not limited to profits. No such election was made for 2012 or 2011.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are fully vested in the employer safe harbor nonelective contributions when the contribution is made and fully vested in employer nondiscretionary matching contributions gradually over three years of credited service with the Organization.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.24% to 9.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator at the time of the loan. Principal and interest is paid ratably through monthly payroll deductions.

Benefit Payments

Participants may receive a single lump-sum payment or a single lump sum distribution of a portion of their vested account balance upon retirement. Normal retirement age is 65 years. In the event of a participant's death, any remaining balance will be paid to designated beneficiaries.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contribution and, (b) Plan earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

At December 31, 2012 and December 31, 2011, forfeited nonvested accounts totaled \$1,868 and \$2,034, respectively. These accounts will be used to reduce future employer contributions.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Organization.

NOTES TO FINANCIAL STATEMENTS (CONT'D)

December 31, 2012 and December 31, 2011

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year

Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

3. Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

4. Income Tax Status

The Internal Revenue Service has determined and informed the Organization by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009. There are currently no audits for any tax periods in progress.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and December 31, 2011:

	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>

11. Merger
