NOTE 1 - DESCRIPTION OF PLAN

The following description of the Bacardi U.S.A., Inc. & Affiliates 401(k) Savings and DC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established on October 1, 2004 for the benefit of the employees of Bacardi U.S.A., Inc. and Affiliates (the "Company"). The Plan is a defined contribution plan covering employees of Bacardi U.S.A., Inc., Bacardi-Martini, Inc., Tradall Americas, Inc., Bacardi Global Brands, Inc., and Bacardi Bottling Corporation hired on or after October 1, 2004. There are no age or service requirements for participation in the Plan, however, employees must complete one year of service and be age twenty one or older to participate in the employer matching and profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Eligible employees are allowed to contribute up to 75% of their compensation, as defined in the Plan. The contribution is subject to Internal Revenue Code ("IRC") limitations. The maximum contribution allowed during 2012 was $17,000. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Once an employee reaches one year of service and has attained age 21, the Company will provide a matching contribution of 100% of the first 3% and 50% of the next 2% that an employee contributes to the Plan. In addition, the Company also contributes a nonelective employer contribution equal to 5% of the employee's eligible compensation, as defined, to participants who were hired subsequent to October 1, 2004. A discretionary amount determined by the Company may also be contributed each year. There were no discretionary contributions by the Company for the plan year ended December 31, 2012.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions, b) Plan earnings, and c) forfeitures of employer matching, nonelective and discretionary contributions, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their contributions, the employer match contribution, plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 25% per year starting the second year.

Participant accounts involved with the transfer from The 401(k) Savings Plan for Employees of Bacardi U.S.A., Inc. and Affiliates on September 1, 2010 were fully vested at the time of the transfer.

Forfeitures: Forfeitures may be used to offset future employer contributions to the Plan.

Notes Receivable From Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits: Participant's benefits will be paid in the form of a lump sum payment. A beneficiary may receive a death benefit in the form of either a lump sum payment or installment payments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Trust Company, the custodian of the Plan. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The effect of a change in valuation technique or its application on a fair value estimate is accounted for prospectively as a change in accounting estimate. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day of the valuation as reflected on a national securities exchange.

Stable value funds: The fair values of participation units in the stable value collective trusts are based upon the net asset values of such funds, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the funds (Level 2 inputs). The primary investment objective of the Schwab Stable Value Fund is preservation of capital while also seeking a reasonable stable monthly return and a high degree of liquidity for participant withdrawals. The fund primarily invested in a variety of investment contracts such as conventional guaranteed investments contracts issued by insurance companies and other financial institutions and other investments products (synthetic guaranteed investment contracts and collective trust funds) with similar characteristics. The fund provided for daily redemptions by the Plan at reported net asset value per share. The primary investment objective of the Galliard Retirement Income Fund is to provide safety of principal, adequate liquidity and a competitive yield with low return volatility. The fund primarily invests in the Wells Fargo Synthetic Stable Value Fund. The fund provides for daily redemptions by the Plan at reported net asset value per share.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below as of December 31, 2012 and 2011.

NOTE 6 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Company and certain others. The Plan holds certain investments managed by Charles Schwab Trust Company (Charles Schwab). Charles Schwab is the custodian of the Plan and, therefore, these transactions and the Plan's payment of fees to Charles Schwab qualify as party-in-interest transactions. Participant loans held by the Plan are also considered party-in-interest transactions. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 7 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated May 23, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for the recognition and disclosure through October 9, 2013 which is the date the financial statements were available to be issued.
