NOTE 1 - PLAN DESCRIPTION

Description of the Plan

The following description of the Quidel Savings and Retirement Plan, a defined contribution plan, (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Quidel Corporation (the "Company" or "Employer"). Employees may enter or change the amount of contributions on any date during the Plan year. There is no service requirement however participants must be 21 years of age to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Plan assets are held by Principal Life Insurance Company and Principal Trust Company ("Principal" or the "Custodians").

Plan Contributions

Participating employees may elect to contribute up to 100% of their compensation on a pretax basis, as defined in the Plan. For the year ended December 31, 2012, contributions were limited to an annual amount of \$17,000 per participant. In addition, participants who are age 50 or older as of the end of the year may be eligible to make additional "catch up" contributions. Such maximum additional contribution was \$5,500 for 2012. Employer matching contributions are limited to 50% of the first 6% of employee contributions. As of December 31, 2012, there were no contributions that exceeded the maximum amount.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with Plan losses. Allocations are based on participant earnings or account balances, as defined. Participants direct the investments in their respective accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and such amounts are non-forfeitable. Vesting in the Company's contribution portion of their accounts is on an incremental basis of 25% for each year of service and is 100% vested after four years of credited services.

Notes Receivable from Participants

The Plan allows loans to participants. The loan must be at least \$1,000 and cannot exceed the lesser of 50% of the participant's vested account or \$50,000. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.75%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. All loans must be repaid over a period not to exceed five years except for the purchase of a participant's principal residence and at termination of employment.

Hardship Withdrawals

Participants may request a hardship withdrawal as defined by the Plan. After a hardship withdrawal, a period of 6 months must lapse before a participant can make additional salary reduction contributions.

NOTE 1 - PLAN DESCRIPTION (Continued)

Payment of Benefits

Upon a participant's disability or normal retirement, as defined in the Plan, and if the vested benefits are \$5,000 or less, the participant will receive a lump-sum distribution. If vested benefits exceed \$5,000, the participant may choose to have benefits disbursed through a lump-sum distribution, an annuity contract, or a combination of both. In the case of death, the participant's entire account balance will be paid to the participant's beneficiary. For termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. As of December 31, 2012 and 2011, \$0 were payable to Plan participants.

Excess Distributions

Vesting percentages in accordance with the Plan document differed from the vesting percentage at the time of termination. As a result, the Plan had excess distributions in 2011 in the amount of \$40,666, which will be refunded to the Plan by the Custodians and are included in the statement of net assets available for benefits and statement of changes in net assets available for benefits.

Forfeitures

Forfeitures of Employer contributions to the Plan shall be applied to reduce future Employer contributions to the Plan or administrative expenses. Forfeited non-vested amounts used to reduce Employer contributions and pay administrative expenses was \$34,383 for the year ended December 31, 2012. At December 31, 2012 and 2011, there was \$706 and \$0 in unallocated forfeitures, respectively.

Administrative Expenses

The Employer provides, at no cost to the Plan, certain administrative, accounting, and legal services and also pays the cost of certain outside services for the Plan. All transaction costs and certain Plan administrative expenses are paid for by the Plan. Administrative expenses incurred by the Plan are covered by the Company in excess of forfeited amounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Custodians to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition

The assets in the Plan are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements*. FASB ASC 820 discusses acceptable valuation techniques and inputs to these techniques. These inputs are assumptions market participants use in pricing investments.

Quidel Savings and Retirement Plan
Notes to Financial Statements
December 31, 2012 and 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments Valuation and Income Recognition (Continued)

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs, which are summarized as follows:

Level 1 – Quoted prices in active markets for assets identical to the securities to be valued. (Examples included securities sold on NYSE and NASDAQ.)

Level 2 – Inputs other than quoted prices that are observable for securities, either directly or indirectly. (Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.)

Level 3 – Unobservable inputs, which contain assumptions by the party valuing those assets. For level 3 inputs, there is no market data or correlations with market assumptions. (Examples would include independent valuations of limited partnership interests, closely held stock, etc.)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds – Valued at the closing price reported in the active market in which the individual investments are traded.

Pooled separate accounts – Valued at the net asset value of shares held by the Plan at year end.

Guaranteed interest accounts – Valued at the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, termination, or retirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchase and sales of securities are recorded on trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is accrued when earned.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments Valuation and Income Recognition (Continued)

As described in FASB ASC 962, *Plan Accounting – Defined Contribution Pension Plan*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB ASC 962, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. Refer to Note 5 for additional information related to the Plan's fully benefit-responsive investment contracts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INFORMATION CERTIFIED BY THE CUSTODIANS

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA, certain information prepared and certified by the Custodians need not be audited or reported on by an independent public accountant. Pursuant to that regulation, the Plan administrator has instructed the independent public accountants, PKF, not to perform any auditing procedures with respect to information certified by the Custodians. This includes the cost and market values of the investments, the activity therein and the unrealized appreciation and interest and dividend income. The Custodians have certified that this information is complete and accurate as of December 31, 2012 and 2011 and the year ended December 31, 2012.

NOTE 4 - INVESTMENTS

The Plan's investments are held by the Custodians. The following table presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Principal Money Market Separate Account	\$ 2,603,497	\$ 2,974,504

NOTE 4 - INVESTMENTS (Continued)

Net appreciation for the year ended December 31, 2012 is as follows:

Investments at fair value determined by quoted prices in active markets:	
Mutual funds	\$ 301,870
Investments at fair value determined by significant other observable inputs:	
Pooled separate accounts	<u>2,501,465</u>
Total net appreciation in fair value	<u>\$ 2,803,335</u>

NOTE 5 - BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan's Guaranteed Interest Accounts (collectively, the "Funds") provide a fixed return of principal plus interest (based on the coupon rate) for a specified period of time. These investments are recorded at fair market value in the statements of net assets available for benefits with an adjustment to reflect the investments at their contract value. All contracts are fully benefit-responsive and therefore carried at contract value in accordance with FASB ASC 962. Contract value represents contributions to the Funds, plus accrued interest, less participant withdrawals. The fair value of the contract is estimated to be \$1,182,321 and \$1,717,793 as of December 31, 2012 and 2011, respectively. This compares to contract value of \$1,184,896 and \$1,718,118 as of December 31, 2012 and 2011, respectively.

The interest rate credited to the participant's account is reset at least quarterly and in some cases may be reset more frequently. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration and market value relative to contract value. At December 31, 2012 and 2011 the average yield and crediting interest rates ranged from approximately 0.64% to 1.03% and 0.60% to 1.08%, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Guaranteed interest accounts are general-account backed stable value contracts. This investment guarantees principal and provides a stated rate of return. The fair value represents the amount received upon withdrawal or transfer of funds prior to their maturity, which is the contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. Since the investment is based on the provisions of the investment contract, it is classified within level 3 of the valuation hierarchy.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	<u>Guaranteed Interest Accounts</u>
Balance, beginning of year	\$ 1,717,793
Total unrealized gains	(2,248)
Interest credited	21,087
Purchases	296,606
Sales	(850,917)
Balance, end of year	<u>\$ 1,182,321</u>

NOTE 7 - PARTY-IN-INTEREST AND PROHIBITED TRANSACTIONS

Principal manages Plan investments and is also the custodians of Plan assets. Accordingly, these investment management transactions qualify as party-in-interest transactions.

During the year ended December 31, 2012, the Plan had prohibited transactions with "parties-in-interest" as defined under ERISA in the form of delinquent participant contributions. In 2012, the Company failed to timely deposit employee deferrals of \$141 within the timeframe required by DOL regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. These late deposits are considered prohibited transactions and are included in the supplemental schedule, Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions for the year ended December 31, 2012.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - INCOME TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008 that the Plan is qualified and the trust is exempt from Federal income taxes under certain provisions of the Internal Revenue Code (the "Code"). Pursuant to such Code provisions, participating employees are not subject to Federal income taxes on contributions, or on income accruing to their accounts, until they receive distributions from the plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe the Plan is qualified and the related trust is tax-exempt.

Accounting principals generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure within the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.
