1. Description of Plan

The following description of Calico Brands, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted effective August 1, 1999 by Calico Brands, Inc. ("Company") for the benefit of the Company's employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 70% of pretax annual compensation, as defined in the Plan limited to the maximum amount allowed by law for the Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefits or contribution plans. The Company may make matching contributions, and discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching contributions plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited services, or after reaching normal retirement age, as specified by the Plan agreement.

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of $500 up to the lesser of (1) 50 percent of their account balance or (2) $50,000 reduced by their highest unpaid loan

1. Description of Plan (Continued)

balance outstanding (principal and interest) under the Plan during the preceding twelve-month period. The loans are secured by the balance in the participants' accounts and bear interest at a rate equal to the prime rate plus one point. The prime rate is determined based upon the prime rate of interest that is published in the Wall Street Journal on the 14th day of each month. Loans are repayable through payroll deductions. Loan terms are limited to a maximum of 5 years or longer for the purchase of a primary residence.

Payment of Benefits

Upon termination of service due to death, disability, or retirement from the Company, participants may receive the vested interest of their accounts in the form of a single sum of cash payment or installments over a period not to exceed the participant life expectancy. In-service withdrawals are also available.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $10 and $10 respectively. These accounts will be used to reduce future employer contributions. Also, in 2012 employer contributions were reduced by $7,300 from forfeited nonvested accounts.

Plan Administration

The Plan is administered by the Company. The plan administrator controls and manages the operation and administration of the Plan.

Reliance Trust Company ("Reliance") is the trustee of the Plan and Automatic Data Processing, Inc. ("ADP") is the record keeper.

Eligibility

The Plan covers substantially all full-time employees of the Company who have completed three months of service and are age twenty-one or older.

Investments Options

Participants may direct both employee and employer contributions to be invested amongst various investment options as made available and

determined by the plan administrator which are more fully described in the plan literature.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through August 28, 2013, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

These financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

www.meirandmeir.com

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for its investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for applicable investments.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Company (see Note 6).

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the Plan year, or at the time of purchase during the Plan year, and the related fair value on the day investment are sold with respect to realized appreciation (depreciation), or on the last day of the year with respect to unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which requires additional disclosures about fair value measurements categorized within Level 3 of the fair value hierarchy. The additional disclosures include quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, the valuation processes used by the Plan, and the Plan's policy for determining when transfers into or out of Level 3 are deemed to have occurred. This update is effective for reporting periods beginning after December 15, 2011. Early adoption is generally prohibited. The adoption of this guidance had no material impact on the financial statements.

3. Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available.

Level 1 Fair Value Measurements

Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that

3. Fair Value Measurement (Continued)

are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 Fair Value Measurements

The fair value of the investment in the collective trust is valued at the Net Asset Value ("NAV") of the units provided by the trust's trustee. The NAV is based on the market values of the underlying assets within the trust. Short term investments are valued at amortized cost which approximates fair value. The fair value of traditional guaranteed investment contracts is based on the present value of future cash flows using the current discount rate. The fair value of synthetic guaranteed investment contracts includes the value of the underlying securities and the value of the wrapper contracts. The fair value of wrapper contracts is the present value of the difference between the current wrapper fee and the contracted wrapper fee. The investment in the collective trust can be redeemed at NAV as of the measurement date. As of December 31, 2012 and 2011 there were no unfunded commitments related to the collective trust.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements Using:

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $520,547. All appreciation is attributed to mutual funds.

5. Investments in Collective Trust

In February 2011 the Plan commenced offering the Wells Fargo Stable Return Fund ("Trust"), a collective trust that invests in Guaranteed Investment Contracts ("Investment Contracts") and short term investments.

The Trust values its investments at contract value (cost plus accrued interest) because the Trust's contracts are fully benefit-responsive and the Trust has been established for the collective investment of one or more qualified employer-sponsored defined contribution plans. Contract value is the relevant measurement attribute for that portion of the net assets that are fully benefit-responsive because that is the amount participants in the Trust would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plan. The fair value of the Plan investment in the Trust at December 31, 2012 and 2011 was $1,737,055 and $1,613,904.

All investment contracts are reset at least quarterly, and have a zero percent minimum crediting interest rate.

The existence of certain conditions can limit the Trust ability to transact at contract value with participants in the Trust. Examples of such conditions include, but are not limited to, material amendments to the Trust structure or administration, changes to the participating plans, competing investment options, complete or partial termination of the Trust, tax disqualification of the Trust, withdrawal of a plan sponsor, changes in laws or accounting requirements applicable to the Trust or participating plans, and communication to the plan participants designed to influence a participant not to invest in the Trust. As of December 31, 2012 the Trust's trustee believes the occurrence of an event that would limit the ability of the Trust to transact at contract value with participants in the Trust is not probable.

As of December 31,	**2012**	2011
Average Yields:		
Based on actual earnings	**0.94%**	1.56%
Based on interest rate credited to participants	**1.95%**	2.35%

6. Related Party Transactions

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. These expenses constitute exempt party-in interest transactions under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Excess Contributions

Contributions received from participants for 2012 are net of payments of $23,001 made in 2013 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2012.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2012 and 2011:

As of December 31,	**2012**	2011

9. Reconciliation of Financial Statements to Form 5500 (Continued)

For the years ended December 31, 2012 and 2011 Form 5500 was prepared on the cash basis of accounting modified for changes in fair value of plan investments. Consequently, contributions to be received were not reflected on Form 5500.

Certain balances included on Schedule H Part I and II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

10. Tax Status

The Plan currently operates under a prototype plan offered by ADP. The Plan has been amended since the adoption of the prototype plan; however, the plan administrator and legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan is required to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2012 and 2011, the financial instruments, which potentially subject the Plan to a concentration of credit risk, consisted principally of cash, investments, and notes receivable from participants.

12. Trustee's Certifications

The investment balance and related investment information included in the financial statements, accompanying notes and supplemental schedules are derived from statements which have been certified by Reliance as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
