Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Description of Plan

The following description of the Radar Industries, Inc. Union Retirement Savings 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Plan, which became effective June 1, 1994, is a defined contribution plan that provides benefits to eligible participants as determined according to the provisions of the plan agreement. Employees are eligible to participate in the Plan after attaining the age of 18 and completing three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and qualifies under Internal Revenue Code Sections 401(a) and 401(k).

Contributions - The Plan permits participants to contribute from 1 to 75 percent of their gross compensation pursuant to Internal Revenue Code Section 401(k).

Radar Industries, Inc. (the "Company") is required to provide a matching contribution in an amount equal to 30 percent of the participant's first 15 percent of gross compensation contributed, not to exceed \$750 per year.

The Company may also make annual discretionary contributions in an amount determined by the board of directors. There were no discretionary contributions for the year ended December 31, 2012.

During 2010, 2011, and 2012, the Company did not remit certain employee deferrals and participant loan payments to the Plan in accordance with the Department of Labor's required timeframe. Late contributions related to the 2010 plan year totaling \$8,276 were remitted to the Plan in 2010. The remaining late contribution related to the 2010 plan year totaling \$1,510 have not been remitted to the Plan. Late contributions related to the 2011 plan year totaling \$4,687 and \$4,129 were remitted to the Plan in 2011 and 2012, respectively. The remaining late contributions related to the 2011 plan year totaling \$5,485 have not been remitted to the Plan. Late contributions related to the 2012 plan year totaling \$40,879 were remitted to the Plan in 2012. The remaining late contributions related to the 2012 plan year totaling \$4,166 have not been remitted to the Plan. The Company has not remitted any lost earnings on these late contributions.

Participant Accounts - Each participant's account is credited with the participant's voluntary contributions, the Company's matching and discretionary contributions, and an allocation of plan earnings and expenses. This allocation is based on each participant's account balance. Each participant directs his or her account balance to one or more funds, all of which are maintained by Fidelity Management Trust Company. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Description of Plan (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in discretionary contributions made by the Company 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Payment of Benefits - Generally, upon termination of service, a participant will receive his or her account balance in a lump-sum amount. However, if the participant's account balance is in excess of \$1,000, the participant may choose to receive his or her account balance in monthly installments. In addition, participants with balances in excess of \$1,000 have the option of deferring payments until the age of 70½. In the event of an employee's death, the entire account balance will be paid to the participant's named beneficiary.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through monthly payroll deductions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are invested in investment funds managed by Fidelity Trust Management Company. Fidelity Trust Management Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Company also pays certain administrative fees on behalf of the Plan.

Note 2 - Summary of Significant Accounting Policies

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2013, which is the date the financial statements were available to be issued.

Investment Valuation - The Plan's investments are stated at fair value except for the common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that exceed 5 percent of end of year net assets are as follows:

Common collective trust fund - At contract value -

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Description of Plan

The following description of the Radar Industries, Inc. Union Retirement Savings 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Plan, which became effective June 1, 1994, is a defined contribution plan that provides benefits to eligible participants as determined according to the provisions of the plan agreement. Employees are eligible to participate in the Plan after attaining the age of 18 and completing three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and qualifies under Internal Revenue Code Sections 401(a) and 401(k).

Contributions - The Plan permits participants to contribute from 1 to 75 percent of their gross compensation pursuant to Internal Revenue Code Section 401(k).

Radar Industries, Inc. (the "Company") is required to provide a matching contribution in an amount equal to 30 percent of the participant's first 15 percent of gross compensation contributed, not to exceed \$750 per year.

The Company may also make annual discretionary contributions in an amount determined by the board of directors. There were no discretionary contributions for the year ended December 31, 2012.

During 2010, 2011, and 2012, the Company did not remit certain employee deferrals and participant loan payments to the Plan in accordance with the Department of Labor's required timeframe. Late contributions related to the 2010 plan year totaling \$8,276 were remitted to the Plan in 2010. The remaining late contribution related to the 2010 plan year totaling \$1,510 have not been remitted to the Plan. Late contributions related to the 2011 plan year totaling \$4,687 and \$4,129 were remitted to the Plan in 2011 and 2012, respectively. The remaining late contributions related to the 2011 plan year totaling \$5,485 have not been remitted to the Plan. Late contributions related to the 2012 plan year totaling \$40,879 were remitted to the Plan in 2012. The remaining late contributions related to the 2012 plan year totaling \$4,166 have not been remitted to the Plan. The Company has not remitted any lost earnings on these late contributions.

Participant Accounts - Each participant's account is credited with the participant's voluntary contributions, the Company's matching and discretionary contributions, and an allocation of plan earnings and expenses. This allocation is based on each participant's account balance. Each participant directs his or her account balance to one or more funds, all of which are maintained by Fidelity Management Trust Company. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Description of Plan (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in discretionary contributions made by the Company 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Payment of Benefits - Generally, upon termination of service, a participant will receive his or her account balance in a lump-sum amount. However, if the participant's account balance is in excess of \$1,000, the participant may choose to receive his or her account balance in monthly installments. In addition, participants with balances in excess of \$1,000 have the option of deferring payments until the age of 70½. In the event of an employee's death, the entire account balance will be paid to the participant's named beneficiary.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through monthly payroll deductions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are invested in investment funds managed by Fidelity Trust Management Company. Fidelity Trust Management Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Company also pays certain administrative fees on behalf of the Plan.

Note 2 - Summary of Significant Accounting Policies

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2013, which is the date the financial statements were available to be issued.

Investment Valuation - The Plan's investments are stated at fair value except for the common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Radar Industries, Inc. Union Retirement Savings 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that exceed 5 percent of end of year net assets are as follows:

	2012	2011
Mutual funds - At fair value:		
Fidelity Advisors Leveraged Company Stock Fund	\$ 47,514	\$ 77,523

Common collective trust fund - At contract value -

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.
