RENAL ADVANTAGE INC. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2012

1. DESCRIPTION OF THE PLAN

The following description of the Renal Advantage Inc. 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. The Plan was originally effective January 7, 2006, but was amended and restated as of September 1, 2011. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan was established as a defined contribution plan for employees of Renal Advantage Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company serves as Plan Administrator. Reliance Trust Company serves as the custodian of the Plan effective September 1, 2011, replacing Fidelity Management Trust Company.

The Plan covers employees who are at least 21 years old and are not covered by a collective bargaining agreement. Employees must also complete 60 consecutive days of service to be eligible for participation. Once employees have met the eligibility requirements, they may enter the plan on the first day of the following month.

Contributions - Participants may contribute up to the lesser of 90% of compensation or the statutory maximum to the Plan through a pretax salary deferral, as defined in the Plan Agreement. The salary deferral percentage can be changed at the discretion of the participant. The Plan provides for a discretionary matching contribution to be made by the Company. For 2012, the Company matched 50% of the first 4% of salary deferral contributions. Participants direct the investment of their contributions and the Company's matching contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's elective deferral contributions and withdrawals, allocations of the Company contributions and Plan earnings. Allocations are based on either the participant's eligible compensation or account balance, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants - Participants may borrow from their account balance a minimum of \$1,000. Terms of the loan are up to five years unless such loan is for the purchase of a participant's primary residence, in which case the repayment period may not extend beyond ten years. The loans are secured by the balance in the participant's account and are repaid ratably through payroll deductions. A participant can have up to two loans outstanding at a time. The loans bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator at the time of the loan.

Hardship distributions - Hardship distributions are permitted if the distribution is due to expenses incurred or necessary under the guidelines described in the Internal Revenue Code ("IRC") Section 213(d).

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of credited service. Participants are 10% vested up to one year of credited service, 40% vested after one year, 70% after two years, and 100% after three years.

1. DESCRIPTION OF THE PLAN (Continued)

Payments of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of his or her vested interest in their account, in either a lump-sum amount or paid directly to an eligible retirement plan specified by the participant in a direct rollover. For termination of service due to other reasons, a participant may elect any of the aforementioned options or roll over the account balance into an IRA or new employer's qualified plan. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Forfeited accounts - At December 31, 2012 and 2011, the forfeited non-vested account balance was \$0 and \$9,406, respectively. These funds were used to pay plan expenses and to reduce employer contributions.

Investment options - Upon enrollment in the Plan, a participant may direct contributions in any investment funds approved by the Company. All investments are participant-directed. Participants should refer to the Company for a description of the investment options and their respective investment objectives.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in net assets available for benefits in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses - Administrative expenses may be paid by the Company or the Plan.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits paid - Benefits are recorded when paid. As of December 31, 2012 and 2011, there were no amounts allocated to withdrawing participants for benefit claims that had been processed and approved for payment, but not yet paid.

Subsequent events - The Plan has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued (See Note 9).

3. TAX STATUS

On September 1, 2011, the Company adopted the Automatic Data Processing MidMarket Defined Contribution Prototype Plan. The document contains an opinion letter issued by the national office of the Internal Revenue Service as evidence that the Plan is qualified under section 401 of the IRC as tax-exempt. Prior to September 1, 2011, the Company adopted the Fidelity Prototype Basic Plan. The Plan had been amended since the adoption of the Fidelity Prototype Basic Plan, but Plan management believes the Plan continued to be designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

4. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian. Investments that represent five percent or more of the Plan's net assets are individually listed.

Investments:	<u>2012</u>	<u>2011</u>

Investment income:	
Net appreciation in fair value of investments	\$ 2,815,642
Interest income	124,541
Dividend income	949,887
Investment income	<u>\$ 3,890,070</u>

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their employer contributions and the assets under the Plan will be distributed to the participants based upon their account balances.

7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820") provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 or 2011.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:
