IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1 - Description of the Plan

The following brief description of the IKG Hourly Employees Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan providing retirement, death and disability benefits to all eligible union employees of the IKG Industries division (Nashville, Leeds, Carlisle, Long Island, and Channel View locations) of Harsco Corporation (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

As of December 31, 2006, all accrued benefits and credit for continuous service are frozen for all participants except those in the Channel View location.

In September 2010, the Plan was amended to freeze participation and the accrued pension benefit of collectively bargained employees who are members of the Cement, Lime, Gypsum and Allied Workers, Division of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmith Forgers and Helpers, AFL-CIO-CFL, Local Lodge D546 at the Company's Channel View, Texas facility. The freeze is effective as of the close of business December 31, 2010, and no employee who is hired or rehired by the Company after then shall become a participant in the Plan.

Effective January 1, 2011, credit for past continuous service is frozen as of the close of business on December 31, 2010 and no continuous service earned after that date is taken into account in determining a participant's pension benefit. A basic monthly pension benefit per year of service with a maximum of thirty-five years will be provided and early retirement at age fifty-five with actuarial reduction of benefits is allowed. The accrued pension of any participant who is an employee as of the close of business December 31, 2010 shall be 100% vested and nonforfeitable, regardless of number of years of continuous service.

Although the Company received Board approval as of December 31, 2003 to merge all defined benefit plans maintained by the Company or its subsidiaries in its ERISA controlled group, the Plan has not yet been merged. The merger is planned in order to reduce administrative and funding costs that otherwise will be incurred if these plans continue as separate plans. The merger will be subject to union approval where required.

The Plan has evaluated subsequent events for recognition or disclosure through October 14, 2013, the date the financial statements were available to be issued.

Note 1 - Description of Plan (Continued)

Pension Benefits

Employees with five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age (65) amounting to monthly benefits equal to the benefit unit in effect at the time of termination of employment multiplied by benefit accrual service up to a maximum of 35 to 40 years, depending on the plant. The Plan permits early retirement at ages 55-64 and the completion of 5-10 years of service, depending on the location. Employees may receive their pension benefits in the form of a life annuity for unmarried participants, or, for married participants, the actuarial equivalent of the life annuity is paid in the form of a 50% joint and survivor annuity. If the present value of the pension does not exceed \$1,000, a lump-sum payment is automatic.

The amount of the monthly benefit, as defined in the Plan document, depends upon, among other things, the years of service of the employee and in which division of the Company the employee worked.

Death and Disability Benefits

The Plan provides for death and disability benefits. In the event of death, the amount of benefit the beneficiary will receive will depend upon, among other things, the employee's status as of the date of death and whether the participant was already receiving normal retirement benefits. In the event a participant becomes totally and permanently disabled, the benefit to be received will depend upon, among other things, the employee's status at the time of disability. Depending on the location, disability retirement is available upon permanent incapacitation with no service requirement or after 15 years of continuous service.

Note 2 - Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. See Note 6 for a discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Funding Policy

The Plan is funded annually by the Company with actuarially determined contributions. The contributions are determined using an actuarial cost method which takes into consideration the present value of benefits expected to accrue during the plan year. The Plan has complied with the minimum funding requirements established by ERISA for 2012 and 2011.

Investment Fees

Net investment returns reflect certain fees paid by the investment funds, as well as the underlying investment funds of the Harsco Pension and Profit Sharing Collective Investment Fund ("CIF"), to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus are not separately identifiable as an expense.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative costs, such as for legal, accounting, actuarial, and trustee fees, as well as the Pension Benefit Guaranty Corporation ("PBGC") premium, are paid by the Plan.

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited service and the benefit rate in effect at the time of retirement. The accumulated plan benefits for active employees are based on their service rendered and the benefit rates in effect as of December 31, 2011.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary as of January 1, 2012 and 2011 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

IKG Hourly Employees Pension Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 3 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the valuation and the determination of the present value of accumulated plan benefits as of January 1, 2012 are as follows:

Assumed rate of return on investments *	7.25% compounded annually
Mortality basis	RP2000 Combined Healthy Generational Mortality, sex distinct with no collar adjustment, projected with scale AA for 2012. RP2000 Mortality Table with projection to 2020 for males and females for 2011.
Retirement	50% at age 62 increasing to 100% at age 65.

* Net of 0.25% for assumed expenses

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is as follows as of December 31, 2011 (in thousands):

Vested benefits:	
Participants currently receiving payments	\$5,410
Other participants	<u>3,591</u>
	9,001
Nonvested benefits	<u>28</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$9,029</u>

IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 3 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2011, are presented below (in thousands):

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$8,568</u>
Increase (decrease) during the year attributable to:	
Interest due to the decrease in the discount period	771
Benefits paid	(630)
Assumption changes	<u>320</u>
Net Increase	<u>461</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$9,029</u>

The effects of the assumption changes disclosed above are the result of changes in the assumed rate of return on investments, the mortality table used to calculate the funding target and target normal cost and the expense assumption used to calculate the target normal cost.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by PBGC).

IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 4 - Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 5 - Plan Interest in the Harsco Pension and Profit Sharing Collective Investment Fund

The following investment information disclosed in the accompanying financial statements and supplemental schedules was obtained or derived from information that has been prepared and certified to as complete and accurate by Manufacturers and Traders Trust Company ("M&T"), the trustee of the Plan, and has not been audited by independent auditors.

Financial instruments, which potentially subject the CIF to a concentration of credit risk, consist principally of investments. The CIF limits this risk by diversifying the CIF's investment portfolio. The degree and concentration of credit risk varies depending upon the type and diversity of investments within the portfolio.

Note 6 - Fair Value Measurements

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United State of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 – Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and similar techniques.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31 (in thousands):

2012				
Fair Value Measurement Using:				
Fair Value	Level 1	Level 2	Level 3

2011				
Fair Value Measurement Using:				
Fair Value	Level 1	Level 2	Level 3	
M&T money market fund	\$77	\$-	\$-	

The M&T money market fund is stated at cost, which approximates fair value.

Notes to Financial Statements

December 31, 2012 and 2011

Note 6 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for CIF investments measured at fair value.

Level 1 Fair Value Measurements

Investments in interest-bearing cash are stated at cost, which approximates fair value. The fair values of money market accounts and certain mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks and corporate bonds, notes, and convertible debentures are valued at the closing price reported in the active market on which the individual securities are traded.

Level 2 Fair Value Measurements

The fair values of investments in mutual funds for which quoted net asset values in an active market are not available are valued by the investment advisor based on the current market values of the underlying assets of the mutual fund based on information reported by the investment consistent with audited financial statements of the mutual fund. Further information concerning these mutual funds may be obtained from their separate audited financial statements. Investments in U.S. Treasury notes and collateralized securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Plan assets are allocated among various categories of equities, fixed income, cash and cash equivalents with professional investment managers whose performance is actively monitored. The primary investment objective is long-term growth of assets in order to meet present and future benefit obligations. The Company periodically conducts an asset/liability modeling study and accordingly adjusts investments among and within asset categories to ensure the long-term investment strategy is aligned with the profile of benefit obligations.

There are no unfunded commitments or redemption restrictions on units of the CIF.

For both Plan and CIF investments, there have been no significant changes in the methodologies used during the years ended December 31, 2012 and 2011.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

Note 7 - Information Certified by Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2012 and 2011. Accordingly, M&T, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2012 and 2011, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2012, the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011, and the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2012.

Investments that represent five percent or more of the Plan's net assets available for benefits consist of the following as of December 31 (in thousands):

	<u>2012</u>	<u>2011</u>
Plan interest in the CIF	\$9,612	\$8,710

Note 8 - Tax Status

The Plan obtained its latest determination letter on March 14, 2013, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable regulations of the IRC and believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9 - Related Party Transactions

The Plan's investments are managed by M&T Investment Group, an affiliate of M&T. The Plan invests in certain funds (directly and within the CIF) owned by M&T. M&T is the trustee as defined by the Plan, and therefore, transactions in these funds qualify as party-in-interest transactions. Fees charged to the Plan for the trustee fees amounted to \$9,101 and \$8,531 and for the years ended December 31, 2012 and 2011, respectively. CIF transactions in Harsco Corporation common stock also qualify as party-in-interest transactions. There were no purchases or sales of Harsco Corporation common stock in the CIF during 2012 and 2011. All other transactions which may be considered parties-in-interest transactions relate to normal plan management and administration services, and the related payment of fees.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 10 - Risks and Uncertainties

Investments of the Plan are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the Statement of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
