HHA Services 401(k) Retirement Savings Plan and Trust

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of HHA Services 401(k) Retirement Savings Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees of HHA Services, Inc. (the "Company"). Employees are automatically enrolled in the Plan upon commencement of employment; however, participation in the Plan is voluntary. Effective October 31, 2012, the Plan was amended to exclude bargaining employees from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employee contributions represent a percentage of each eligible participant's pre-tax earnings as defined in the plan agreement and are subject to the limits imposed by the Internal Revenue Code. Participants are immediately vested in their employee salary and rollover contributions plus actual earnings thereon.

The Plan provides for discretionary employer matching contributions of 50 percent of employee deferrals up to 3 percent of compensation, as defined in the plan agreement. Participants are eligible to begin receiving employer matching contributions after one full year of employment.

In addition, the Company may make additional discretionary contributions for eligible employees as approved by its board of directors. There were no discretionary contributions during 2012 or 2011.

Participant Accounts - Each participant's account is credited with the participant's contribution and the participant's share of the Company's contributions and allocations of plan earnings or losses and administrative expenses, if any. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Participants may also elect to receive payment in the form of various annuity options offered by the Plan. A participant may receive early distributions after age 59½.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals. Plan participants' requests for withdrawal must be in writing on a form provided by the plan administrator. Plan participants must complete and return it before the date of withdrawal.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants are 100 percent vested in contributions made by the Company after three years of service.

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the trustees shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain Plan investments are shares of investments managed by the Principal Life Insurance Company (Principal Life), Union Bond and Trust, and their affiliates. Principal Life and Union Bond and Trust are the custodians as defined in the Plan and therefore, these transactions qualify as party-in-interest transactions.

Additionally, certain administrative expenses of the Plan are paid by the Company which qualify as party-in-interest transactions.

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment, which is stated at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 1, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Principal Life Insurance Company (Principal Life) and Union Bond and Trust (an affiliate of Principal Life) (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodians.

Investments that exceed five percent of the Plan's end of year net assets are as follows:

	2012	2011
Common collective trust - At contract value -		
Principal Stable Value Fund	\$ 856,910	\$ 659,908
Pooled separate accounts - At fair value:

Principal Global Investors Bond and Mortgage Sep Acct	136,645	182,224
SAM Balanced Sep Acct	298,786	-

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

HHA Services 401(k) Retirement Savings Plan and Trust

Notes to Financial Statements December 31, 2012 and 2011

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (2) This class of pooled separate accounts invests mainly in domestic stocks. There were no unfunded commitments or redemption restrictions.
- (3) This class of pooled separate accounts invests mainly in international stocks. There were no unfunded commitments or redemption restrictions.

- (5) This class of pooled separate accounts invests in publicly traded mutual funds. These mutual funds invest in common stock, options, and futures. There were no unfunded commitments or redemption restrictions.
- (6) This class of pooled separate accounts invests in publicly traded mutual funds, which in turn invest in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments or redemption restrictions.
- (7) This class of pooled separate accounts invests mainly in owned commercial real estate and includes mortgage loans which are backed by the associated properties. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2012. During 2011, an investment previously classified as Level 3 was transferred to Level 2 classification as a result of elimination of the withdrawal limitations described in Note 7.
