Notes to the Financial Statements

1. Description of the Plan

The following description of the San Jose Sharks 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) profit sharing plan covering all of the employees of San Jose Sharks, LLC, San Jose Arena Management, LLC, Sharks Sports & Entertainment, LLC, and Sharks Minor Holdings, LLC (collectively, the "Plan Sponsor"), except individuals who are non-resident aliens with no U.S. earned income and collectively bargained employees other than employees who are member of the Service Employees International Union (SEIU), Local 1877 and UNITE Here Local 19, AFL-CIO. Employees of the Plan Sponsor are eligible to participate in the Plan if they are at least 21 years old, have completed one year of service, and have satisfied a service requirement of either 1,000 actual hours worked through the employee's first anniversary date or 1,000 actual hours worked in any Plan year. Participants may begin deferring a portion of their compensation into the Plan on January 1, April 1, July 1, or October 1 following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended ("ERISA"). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions to the Plan

Participants may contribute up to 100% of their eligible annual salary on a pre-tax or Roth deferral basis to the Plan subject to certain anti-discrimination limitations and to an annual restriction of $17,000 for 2012 ($22,500 for those participants age 50 and over).

The plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation, with an automatic annual increase of one percent, and their contributions invested in a target retirement fund until changed by the participant.

For 2012, the Plan required the Plan sponsor to make QACA safe harbor matching contributions in the amount of 100% of the first 1% of deferrals plus 50% of the next 5% of deferrals on behalf of all non-highly compensated employees.

Participant Accounts

All of the Plan's assets are invested, as directed by the participant, as pooled funds, as selected by the Board of Trustees. A participant's account balance in the Plan is derived through an allocation of these funds. Each participant's account is credited with the participant's contribution, Plan sponsor matching contributions, and an allocation of investment earnings and losses pursuant to the participant's selection of investments and timing of purchase. Participant accounts are also charged with an allocation of administrative expenses that are paid by the Plan.

Vesting and Forfeitures

A participant has a 100% non-forfeitable interest at all times in their contributions and related earnings and losses. Participants vest in plan sponsor matching contributions over three years, 33% for the first year of service, 67% for the second year and 100% for the third year. Participants vest in QACA safe harbor matching contributions over two years, 0% for less than two years of service and 100% for two or more years of service. Participants are vested 100% in the event of obtaining normal retirement age (age 65), death or disability. Forfeitures will be used to pay plan expenses and then to reduce any employer contribution. At December 31, 2012 and 2011, forfeitures available to offset future expenses and plan sponsor contributions aggregated $15,168 and $14,692. During 2012 no forfeitures were used to reduce employer contributions.

Payments of Benefits
The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, disability, death, or termination of employment. Participants who qualify for retirement benefits and withdrawals will receive their benefits in the form of a lump sum of cash. The benefit to which a participant is entitled is the benefit that can be provided solely from the participant's vested account balance. Participants who separate from service and have vested account balances of $1,000 or less are subject to an administrative distribution as follows: the plan administrator will distribute the account balance to an individual retirement account if elected by the participant otherwise the plan administrator will distribute the account balance as a lump sum in cash. Hardship withdrawals may be made from pre-tax elective deferrals and Roth deferrals. A participant who has attained age 59 1/2 is eligible to receive a withdrawal of Roth deferrals. If certain requirements are met, such withdrawal of Roth deferrals will not be subject to certain Federal income taxes. Retired participants must begin receiving distributions from the Plan no later than April 1 of the year following the year in which the participant attains age 70½.

Notes Receivable from Participants
The Plan permits participants to receive a loan based upon their vested account balance. Borrowings are limited to the lesser of $50,000 or 50% of the participant's vested account balance. The minimum loan amount is $1,000. A participant may have up to 2 loans at a time. Loans bear an interest rate commensurate with the prevailing interest rate charged on similar commercial loans by persons in the business of lending money. Loans generally must be repaid within five years, longer for qualified residential loans. Loans are segregated investments and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other investments. Accordingly, the interest a participant pays on their loan will be directly credited to their account. In the event a participant defaults on their loan, the plan administrator will offset the outstanding loan against the participant's account balance. The loans are secured by the balance in the participant's account and in the event of default, the unpaid loan principal will be offset against the participant's vested account balance.

Plan Amendments
The Plan was without amendment during 2012.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the plan sponsor. Benefit payments are recorded when paid. The financials are prepared using the contract value for fully benefit-responsive investment contracts. As of December 31, 2012 and 2011 contract value equaled fair value.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value as determined by the plan custodian (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements. See Note 6 for discussion of fully benefit-responsive investment contracts reported at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from the participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 1, 2013, the date the financial statements were available to be issued.

3. Certification of Assets

Transamerica Life Insurance Company ("Transamerica") serves as the custodian of the Plan's assets. In that capacity, Transamerica holds the Plan's investment assets and executes investment transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the plan administrator has obtained certifications from Transamerica as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that all investment information supplied to the plan is complete and accurate. Other than the fair value of the guaranteed investment contract, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012 and 2011, and interest, dividends and net appreciation in fair value of investments for the year ended December 31, 2012, was obtained or derived from the certified information. The contract value of the guaranteed investment contract was certified by the custodian.

4. Fair Value Measurements - unaudited

Total	$ 16,652,851	$ 777,901	$ 17,430,752

Assets at Fair Value as of December 31, 2011:

	Level 1	Level 2	Total
Pooled Separate Accounts:			
Bond Funds	$ 1,120,127	$ -	$ 1,120,127

Common Collective Trust	-	749,577	749,577
Total	$ 14,412,142	$ 749,577	$ 15,161,719

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the quoted net asset value of shares of the underlying investments held by the plan at year-end.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments – unaudited

The following investments equaled or exceeded 5% of the net assets available for benefits of the Plan at December 31, 2012 and 2011:

	2012	2011
Vanguard Target Retirement 2035	$ 1,098,368	$ 988,461
Vanguard Target Retirement 2025	1,375,343	1,159,651
Transamerica AA - Moderate	1,134,742	1,211,609
Transamerica AA - Mod Growth	1,635,108	1,345,857
Vanguard Target Retirement 2020	N/A	1,069,573
Vanguard Target Retirement 2030	942,244	798,445
Vanguard Target Retirement 2040	N/A	869,123
Vanguard Target Retirement 2015	914,087	N/A
Loomis Sales Inv Grade Bond	913,189	N/A

For the year ended December 31, 2012, the Plan's investments (including gains or losses on investments bought and sold, as well as held during the year) appreciated in value by $1,922,995 as follows:

Pooled separate accounts	$ 1,905,955
Stable Value Fund	17,040
	$ 1,922,995

6. Investment Contract with Insurance Company

The Plan invests in a benefit-responsive investment contract with Transamerica Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract is included in the financial statements at contract value as reported to the Plan by Transamerica. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $777,901 and $749,577, respectively. As of December 31, 2012 and 2011 contract value equaled fair value. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Transamerica. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The investment contract does not permit Transamerica to terminate the agreement prior to the scheduled maturity date.

The average yields on the investment contract for the years ended December 31, 2012 and 2011 were:

	2012	2011
Average yields:		
Based on actual earnings	2.00%	2.70%
Based on interest rate credited to participants	2.00%	2.70%

7. Tax Status

The plan sponsor has adopted a volume submitter profit sharing plan with a cash or deferral arrangement that received a favorable opinion letter from the IRS on March 31, 2008, that the Plan is a qualified plan. Although the Plan has been amended since receiving the opinion letter, the Plan sponsor and administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the plan sponsor and administrator believe that the Plan is qualified and its related trust is exempt from tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all partially vested amount balance would become 100% vested.

9. Related Party Transactions

Transamerica Life Insurance Company currently serves as the custodian of the Plan's assets. Accordingly, all investment managed by Transamerica Life Insurance Company and related entities qualify as party-in-interest transactions.

Fees incurred by the plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made payments totaling $2,350 to the third party administrator, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

11. Voluntary Compliance Program

During 2012 it was determined that the plan sponsor was not operating the Plan according to the terms of the plan document. The plan sponsor is taking remedial actions under the Internal Revenue Service (IRS) Voluntary Correction Program regarding this matter. The plan sponsor submitted its request to the IRS on May 2, 2013, and as of the date of this report, is awaiting a final determination.

12. Reconciliation of Financial Statements to Form 5500
