Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Holland & Hart Retirement Savings Plan (the "Plan") for the benefit of partners and employees of Holland & Hart LLP (the "Company") is provided for general information purposes only. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established July 1, 1985. The Plan is available to employees and partners of the Company and participating employers (as defined in the Plan document) as of the date of employment or upon admittance to the partnership. Regular employees (as defined in the Plan document) are eligible to make elective deferral contributions and receive matching contributions immediately; discretionary profit-sharing contributions and integrated profit-sharing contributions are also available immediately to regular employees, with the exception of certain partnership-track attorneys. All seasonal or temporary employees (as defined in the Plan document) must complete one year of service to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan allows participants to make pre-tax and Roth contributions.

The Holland & Hart Retirement Savings Plan Committee, which is appointed by the Management Committee of the Company, administers the Plan. Fidelity Management Trust Company ("Fidelity" or "trustee") serves as trustee, manages Plan assets, and maintains the Plan's records. The Plan offers participants a variety of investment options, or individuals may invest in the various investment options through self-directed brokerage accounts.

Contributions

Eligible employees are automatically enrolled upon employment at a 4% deferral percentage, unless another deferral percentage is elected. Eligible employees hired before September 1, 2011 were automatically enrolled upon employment at a 3% deferral percentage, unless another deferral percentage was elected. Participants may make contributions up to 75% of their annual compensation, not to exceed $17,000 as limited by the Internal Revenue Service ("IRS") for 2012. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company makes a discretionary match as approved by the Company's Management Committee. In 2012, the Company's match was 50% of the first 8% of elected deferred compensation and may not exceed 4% of year-to-date eligible compensation. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. The Company match is funded on a payroll basis. The Company contributed $3,411,535 in matching contributions for the year ended December 31, 2012.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Company may make, at its sole discretion, integrated contributions and profit-sharing contributions to the Plan for employees who are employed on the last day of each quarter-end, based on year-to-date compensation, reduced by any previous integrated or profit-sharing contributions for the year. The Company did not make a profit-sharing contribution for the year ended December 31, 2012. The Company did make an integrated contribution based on 6% of compensation up to the Social Security wage base and then 11.7% of the amount over the Social Security wage base up to the annual compensation limit established by the IRS, as defined in the Plan document. The Company made integrated contributions of $7,237,649 in 2012.

Participants' Accounts

Each participant account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings, Plan expenses, and forfeitures. Participants who are subject to limitations on individual contributions, due to their level of pay, share in Company contributions only to the extent of their allowable compensation. Allocations of employer contributions are based upon participant compensation, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their elective deferrals, allocated earnings or losses thereon, and any qualified matching contributions. Any matching contributions made prior to April 1, 2001 are 100% vested.

Any employer matching contributions, profit-sharing contributions, and integrated profit-sharing contributions (including forfeitures) made after April 1, 2001, and the earnings or losses thereon, not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age, retirement due to disability, or if the Plan is terminated.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balances in the participants' accounts and must be repaid within five years. As of July 2012, only one loan will be allowed by a participant to be outstanding. Loans existing prior to July 2012 will not be subject to this change. The loan balances bear interest at rates that range from 3.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through December 2017. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Payments of Benefits

Upon termination of service, death, disability, or retirement, if an employee's vested account balance is equal to or less than $1,000, a lump-sum distribution equal to the employee's vested account balance will occur. If an employee's vested balance is greater than $1,000 and less than $5,000, a lump-sum distribution to an individual retirement account will be made if after notification the employee does not request a distribution. If an employee's vested account balance is greater than $5,000, the employee may delay the lump-sum distribution equal to the value of his or her vested account balance until the age of 65, after which a required distribution will occur unless the participant elects to delay the distribution until his or her required minimum distribution date. Hardship withdrawals are allowed under the Plan. Benefits are recorded when paid. Limited in-service distributions are permitted from certain accounts for participants who have reached age 59½ in the form of a lump-sum cash payment or in partial payments.

Participant Termination and Forfeitures

If, at the time of termination of employment, the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. Forfeitures shall first be used to reduce employer contributions, then for Plan expenses, and finally can be allocated to participants in the same manner as the employer's contributions. The balance of this account at December 31, 2012 and 2011 was $63,859 and $1,430, respectively. For the year ended December 31, 2012, employer contributions were reduced by $202,584 from forfeited accounts.

Valuation of Investments and Income Recognition

Investments are stated at fair value. Investments in mutual funds, bonds, and self-directed brokerage accounts are reported at the last reported sales price at the end of the respective period using quoted market prices. Plan investments in the common/collective trust are valued by trustee based upon the fair value of the investments comprising the trust.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gains or losses (net appreciation or depreciation in fair value of investments) are reflected in the accompanying statement of changes in net assets available for benefits and are determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Note 2 - Fair Value Accounting

Accounting principles generally accepted in the United States of America require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 2 - Fair Value Accounting (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value, measured on a recurring basis as of December 31, 2012 and 2011.

Note 3 - Assets Certified by Fidelity

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2012 and 2011, and the income earned thereon for the year ended December 31, 2012, as reflected in the accompanying financial statements and supplemental schedule, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and supplemental schedule.

Note 3 - Assets Certified by Fidelity (continued)

Note 4 - Plan Tax Status

The Plan obtained its latest determination letter on June 15, 2012, in which the IRS stated that the Plan and related trust were in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the related trust continues to be tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; consequently, the Plan is under audit by the IRS for the 2011 plan year. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 7 - Related Party Transactions

Certain Plan investments are shares of registered investment companies (mutual funds), a common/collective trust, and a money market fund managed by Fidelity. Fidelity is the trustee, as defined by the Plan. In addition, the Plan provides for loans to participants. These transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date financial statements were available for issuance. Subsequent to year-end, the Plan was amended to clarify the definition of spouse and to provide for annual automatic escalation for participants that are automatically enrolled.
