BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF RETIREMENT PLAN

General

Butler Schein Animal Health 401(k) Retirement Savings Plan (the "Plan") is a 401(k) plan which was formed for the purpose of providing retirement benefits to employees of Butler Animal Health Supply, LLC d.b.a. Butler Schein Animal Health (the "Company"). Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

All employees of the Company become eligible to participate in the Plan upon reaching age 21 and completing three months of service. Participants become eligible to receive employer matching contributions upon completion of one year of service. The plan is subject to the provisions of ERISA.

Contributions

Each year, participants may elect to contribute a portion of their pretax annual compensation, as defined in the Plan. The Company provides a Safe Harbor matching contribution of 100% of the first 3% and 50% of the next 2% of eligible compensation that a participant contributes to the plan. Additional matching amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations pursuant to Section 401(k) of the Internal Revenue Code.

Participants Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan, primarily including common collective trusts and mutual funds with varying fund objectives and degrees of investment risk. In addition, participants have the option of a self-directed brokerage account that allows participants to invest in any publicly traded security.

Vesting

Participants are vested immediately in their elective deferral and Safe Harbor matching contributions, plus actual earnings thereon. Employer discretionary matching contributions are 100% vested after three years of service. Forfeitures, if any, are used to reduce future employer contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Notes Receivable from Participant fund. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator. Interest rates currently range from 5.25% to 7.75%. Principal and interest are paid ratably through payroll deductions.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF RETIREMENT PLAN (CONTINUED)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Amounts

At December 31, 2012 and 2011, unallocated forfeited amounts were \$7,034 and \$5,701, respectively. No forfeited amounts were used to reduce employer contributions during 2012 or 2011.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

The Wells Fargo Stable Value Fund E, a collective trust, invests in fully benefit-responsive investment contracts. There are currently no redemption restrictions on these investments. These investment contracts are recorded at fair value; however, since these contracts are fully benefit responsive, an adjustment is reflected to present these investments at contract value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective trust itself is not actively traded on an exchange.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses of maintaining the plan, including participant recordkeeping and investment management fees, are paid by the Company and excluded from these financial statements. Certain administrative charges are paid by participants, including fees related to loans and distributions.

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through September 19, 2013, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS, (ASU 2011-04). ASU 2011-04 amended ASC 820, Fair Value Measurements. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 5 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topic in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

Common collective trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the report date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as classified on the Statement of Net Assets as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2012 and 2011, respectively.

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$ 6,909,171	n/a	Daily	None

December 31, 2011	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$ 6,508,553	n/a	Daily	None

(a) This category includes a stable value collective fund. The fund seeks to provide investors with a moderate level of stable income without principal volatility by investing in a combination of guaranteed investment contracts (GICs), security backed investment contracts, separate account GICs, cash, and collective investment trusts. The trust investments must have a credit rating of "investment grade" (not lower than Baa3 or BBB-).

NOTE 6: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the nondiscretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7: PLAN TERMINATION

Although the Plan sponsor has not indicated any intent to do so, it has the right to terminate the Plan at any time. In the event the Plan sponsor terminates the Plan, participants are entitled to receive the value of their account, including employer contributions and earnings thereon.

NOTE 8: TAX STATUS

Effective January 1, 2010, the Plan adopted the Volume Submitter Profit Sharing Plan with CODA (a prototype plan) sponsored by Fidelity Management and Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 8: TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF RETIREMENT PLAN

General

Butler Schein Animal Health 401(k) Retirement Savings Plan (the "Plan") is a 401(k) plan which was formed for the purpose of providing retirement benefits to employees of Butler Animal Health Supply, LLC d.b.a. Butler Schein Animal Health (the "Company"). Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

All employees of the Company become eligible to participate in the Plan upon reaching age 21 and completing three months of service. Participants become eligible to receive employer matching contributions upon completion of one year of service. The plan is subject to the provisions of ERISA.

Contributions

Each year, participants may elect to contribute a portion of their pretax annual compensation, as defined in the Plan. The Company provides a Safe Harbor matching contribution of 100% of the first 3% and 50% of the next 2% of eligible compensation that a participant contributes to the plan. Additional matching amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations pursuant to Section 401(k) of the Internal Revenue Code.

Participants Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan, primarily including common collective trusts and mutual funds with varying fund objectives and degrees of investment risk. In addition, participants have the option of a self-directed brokerage account that allows participants to invest in any publicly traded security.

Vesting

Participants are vested immediately in their elective deferral and Safe Harbor matching contributions, plus actual earnings thereon. Employer discretionary matching contributions are 100% vested after three years of service. Forfeitures, if any, are used to reduce future employer contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Notes Receivable from Participant fund. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator. Interest rates currently range from 5.25% to 7.75%. Principal and interest are paid ratably through payroll deductions.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF RETIREMENT PLAN (CONTINUED)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Amounts

At December 31, 2012 and 2011, unallocated forfeited amounts were \$7,034 and \$5,701, respectively. No forfeited amounts were used to reduce employer contributions during 2012 or 2011.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

The Wells Fargo Stable Value Fund E, a collective trust, invests in fully benefit-responsive investment contracts. There are currently no redemption restrictions on these investments. These investment contracts are recorded at fair value; however, since these contracts are fully benefit responsive, an adjustment is reflected to present these investments at contract value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective trust itself is not actively traded on an exchange.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses of maintaining the plan, including participant recordkeeping and investment management fees, are paid by the Company and excluded from these financial statements. Certain administrative charges are paid by participants, including fees related to loans and distributions.

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through September 19, 2013, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS, (ASU 2011-04). ASU 2011-04 amended ASC 820, Fair Value Measurements. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 5 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topic in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

Common collective trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the report date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as classified on the Statement of Net Assets as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2012 and 2011, respectively.

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$ 6,909,171	n/a	Daily	None

December 31, 2011	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust (a)	\$ 6,508,553	n/a	Daily	None

(a) This category includes a stable value collective fund. The fund seeks to provide investors with a moderate level of stable income without principal volatility by investing in a combination of guaranteed investment contracts (GICs), security backed investment contracts, separate account GICs, cash, and collective investment trusts. The trust investments must have a credit rating of "investment grade" (not lower than Baa3 or BBB-).

NOTE 6: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the nondiscretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7: PLAN TERMINATION

Although the Plan sponsor has not indicated any intent to do so, it has the right to terminate the Plan at any time. In the event the Plan sponsor terminates the Plan, participants are entitled to receive the value of their account, including employer contributions and earnings thereon.

NOTE 8: TAX STATUS

Effective January 1, 2010, the Plan adopted the Volume Submitter Profit Sharing Plan with CODA (a prototype plan) sponsored by Fidelity Management and Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8: TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
