1. Description of Plan

The following description of the NTR Metals USA 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan available to qualifying employees of NTR Metals USA, LLC, NTR Metals Group, LLC and NTR Metals (Americas), LLC (collectively, the “Company”). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

All employees, excluding members of a collective bargaining unit and non-resident aliens, who have completed one month of service and attained the age of 18 are eligible to participate in the Plan.

Contributions

Participants may elect to contribute a percentage of their eligible compensation, as defined by the Plan, subject to certain Internal Revenue Service (“IRS”) limitations. All employees are automatically enrolled at 3% when they become eligible unless a positive election is made declining participation in the plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Such contributions and any earnings thereon are nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution or benefit plans.

The Company, at its discretion, may contribute on behalf of each participant a matching contribution equal to a percentage of the participant’s elective deferrals. The Company may also make discretionary non-elective contributions. The amount contributed will be allocated proportionately based on the participants compensation compared to the total compensation in the group (Group A: Owners, Group B: Non-owners). Beginning January 1, 2012, the Company began making matching contributions of 50% of participants’ deferrals, up to a limit of \$500. No matching contributions were made for the year ended December 31, 2011. No discretionary non-elective contributions were made by the Company for the years ending December 31, 2012 or 2011.

Participant Accounts

Each participant’s account is credited with the participant’s voluntary contributions and any Company contributions. Earnings are credited to each participant account based on the performance of the underlying investments. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus any earnings thereon. Participants become 100% vested in discretionary Company matching and non-elective contributions plus any earnings thereon ratably over five years of service. Participants are credited with a year of service for each plan year in which they earn 1,000 hours of service.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

1. Description of Plan (continued)

Payment of Benefits

Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive their vested benefit in either a lump-sum distribution or a direct rollover distribution. Participants who are still employed by the Company but have reached age 59 ½ may withdraw all or any part of their vested balance, subject to Plan provisions.

Forfeitures

Forfeitures by non-vested participants may be used to reduce employer contributions. As of December 31, 2012 and 2011, no unallocated forfeitures were available for future use.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Risks and Uncertainties

The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Benefit Payments

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

2. Summary of Significant Accounting Policies (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable.

Subsequent Events

Subsequent events have been evaluated through the date of the independent auditor's report, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

3. Investments

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are summarized as follows:

	2012		2011
Retirement Living at 2045	\$ 346,339	\$	172,039
Retirement Living at 2040	317,466		245,813
Retirement Living at 2035	363,671		208,815
Retirement Living at 2030	228,243		97,874
Retirement Living at 2025	139,574 *		92,133
Lifestyle Aggressive	356,165		215,656
Lifecycle Growth	300,564		166,351
John Hancock Stable Value	140,340 *		94,254

* Fund balance did not represent 5% or more of the fair value of net assets available for benefits. Information has been included for comparative purposes.

4. Information Certified by the Plan's Custodian (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information as of December 31, 2012 and 2011, included in the accompanying financial statements and supplemental schedule has been certified by the custodian as complete and accurate:

As of December 31,	2012		2011
Pooled separate accounts, at fair value	\$ 3,229,166	\$	1,796,627

The following investment income information for the year ended December 31, 2012 has been certified as complete and accurate by the custodian:

For the year ended December 31,	2012
Net appreciation in fair value of pooled separate accounts	\$ 303,958

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

4. Information Certified by the Plan's Custodian (unaudited) (continued)

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to the information certified to by the Plan custodian except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 inputs).

The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	--

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

5. Fair Value Measurements (continued)

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2012 and 2011.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Fixed income (1)	-	197,926	-	197,926
Asset allocations (2)	-	2,474,893	-	2,474,893
Large cap value (3)	-	99,402	-	99,402

Global/international (6)	-	82,485	-	82,485
Total investments at fair value	-	3,229,166	-	3,229,166

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

- (2) Asset allocation funds invest primarily in a combination of funds that invest in U.S. stocks, international stocks, U.S. bonds and other fixed-income investments using asset allocation strategies based on a conservative, moderate or target date allocation methodology.
- (3) Large cap value funds invest primarily in common stock and other equity securities of large size U.S. companies that pay or are expected to pay dividends.
- (4) Large cap growth funds invest primarily in common stock of large size U.S. companies with the potential for growth.
- (5) Small/mid/specialty funds invest primarily in common stock of small or midsize U.S. companies or the common stock of specialized U.S. companies.
- (6) Global/international funds invest primarily in common stocks of issuers in Europe and the Pacific Basin.

6. Tax Status

The Plan uses a volume submitter plan document sponsored by Paragon TPA Group, Inc. ("Paragon"). Paragon received an opinion letter from the Internal Revenue Service (IRS) dated October 24, 2008, which states that the volume submitter document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.
