Independent Auditor's Report

To the Plan Administrator of
Nexidia Inc. 401K Retirement Plan
Atlanta, Georgia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Nexidia Inc. 401K Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, custodian of the Principal pooled separate accounts and guaranteed interest account, Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the custodian of the mutual funds held by the Plan, and Principal Life Insurance Company, on behalf of Union Bond and Trust, trustee of the Principal Stable Value Fund, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodians and the trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the custodians and the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the custodians and the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) and of delinquent participant contributions as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NEXIDIA, INC.
401K RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Nexidia Inc. 401K Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

- A. *General.* The Plan is a defined contribution retirement plan under Section 401(k) of the Internal Revenue code. The Plan is administered by the Retirement Committee of Nexidia Inc. 401K Retirement Plan. Employees who have reached the age of 21 are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- B. *Contributions.* Participating employees may contribute any amount of their compensation up to the statutory limits. The Company may make discretionary matching contributions at the discretion of the Company’s Board of Directors. For 2012, the Company elected not to make a discretionary contribution.
- C. *Participant Accounts.* Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.
- D. *Payment of Benefits.* Participants may elect several forms of distribution, subject to approval by the plan administrator: lump sum, periodic installments, or combinations thereof. The full value of participant accounts are payable upon normal or postponed retirement, permanent disability, or to beneficiaries upon death of the participant.
- E. *Vesting.* Reduced amounts related to Company discretionary contributions are payable when service of a participant is terminated in less than three years. Such reduced amounts range from none, for less than one year of service, to full benefits for three years or more of service. After a five-year break in service, any non-vested amounts included in a terminated participant’s account are forfeited.
- F. *Forfeitures.* Forfeited balances of terminated participants’ non-vested accounts are used to reduce plan administrative expenses and to reduce future company contributions. During 2012, no forfeitures were available for the Plan to use and forfeiture balance as of December 31, 2012 was nil.
- G. *Notes Receivable from Participants.* Participants may borrow from their accounts in any amount greater than \$1,000 but less than 50% of their vested account balance, not to exceed \$50,000. Loans are secured by the balance in the participant’s account and bear interest at a fixed rate comparable to the rates currently charged by commercial loans under similar circumstances. At December 31, 2012, interest rate on outstanding loans was at 4.25%. Principal and interest is paid ratably through semi-monthly payroll deductions.

2. Summary of Significant Accounting Policies

A. *Basis of Presentation.* The accompanying financial statements have been prepared on the accrual basis of accounting.

B. *Investment Valuation and Income Recognition.* The Plan's investments are stated at fair value. The mutual funds' fair values are the prices that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The value of each Principal pooled separate account is determined at the close of each business day based on the market value of the underlying investment assets.

The Plan's common collective trust (CCT) invests its assets in investment contracts, wrap contracts and a short term investment fund. The methods used to determine their fair value are detailed in Note 6. This CCT is fully benefit responsive. Crediting interest rates for contracts other than conventional investment contracts under this CCT are predominately reset on a monthly basis with a one month look back for the portfolio statistics. The crediting interest rate is based on a formula agreed upon with the issuers and the contract issuers guarantee a minimum 0% crediting rate. Factors that can influence future crediting rates may include but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for investment, duration posture, change in credit ratings, default or bankruptcy by an assets or wrap issuer, the unexpected receipt of principal and interest payments, extraordinary withdrawals, and certain wrap contract terms, including wrap fees.

Guaranteed interest accounts promise to pay fair value for a benefit event (e.g. – termination, death, disability, and retirement). However, there may be a significant market value adjustment for transfers to other investment options from a guaranteed account. Thus, the guaranteed accounts are not considered benefit responsive and are presented at fair market value in the accompanying financial statements.

Income on the Guaranteed Interest Accounts is guaranteed at a specified rate for a specified period of time. For the year ending December 31, 2012, the return for the guaranteed interest accounts ranged from 0.72% to 4.05%.

Realized and unrealized investment gains and losses are included in net appreciation in fair value of investments in the accompanying financial statements. Purchases and sales of securities are recorded on a trade date basis.

C. *Notes Receivable from Participants.* Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

D. *Use of Accounting Estimates.* The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

E. *Payments of Benefits.* Benefits are recorded when paid.

NEXIDIA INC.
401K RETIREMENT PLAN
Notes to Financial Statements

F. *Expenses.* Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

G. *Subsequent Events.* Plan management has evaluated the need for disclosures or adjustments resulting from subsequent events through October 14, 2013, the date the financial statements were available for issuance, and no material events requiring disclosure were identified.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Principal Life Insurance Company, custodian of the Principal pooled separate accounts and guaranteed interest account, Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the custodian of the mutual funds held by the Plan, and Principal Life Insurance Company, on behalf of Union Bond and Trust, trustee of the Principal Stable Value Fund, have certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for plan benefits as of December 31, 2012 and 2011, the related investment activity reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2012, and the schedule of assets (held at end of year).

4. Investments

The Plan has an investment contract with Principal Life Insurance Company. The investments are invested in pooled separate accounts, mutual funds, a common collective trust, or a guaranteed interest contract, which are managed by Principal Life Insurance Company. Each of these investments is valued at fair value.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled Separate Accounts	\$ 538,341
Mutual Funds	77,455
Common Collective Trust	2,999

5. Common Trust Fund

As of December 31, 2012, the Plan held investments in Principal Stable Value Fund (the "Fund"), a common/collective trust fund. Union Bond & Trust Company is the trustee and the investment manager for the Fund. The Fund is designed for retirement plans exempt from federal income tax and primarily invests in a variety of high quality stable value investment contracts, as well as cash and cash equivalents. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries.

Valuation - The fair value of the conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rates as of yearend.

Individual assets of the synthetic investment contracts include domestic and foreign securities and investment in investment companies or collective investment trusts. When available, the fair value of securities is based on quoted prices of identical assets in active market. When quoted prices are not available, the first priority is to obtain prices from third party pricing methodologies and to confirm they are utilizing observable market information. Their methodologies vary by asset class and include inputs such as estimated cash flows, benchmark yields, reported trades, broker quotes, credit quality, industry events and economic events. For investment companies and collective investment funds, their fair value represents the price at which a transaction can be initiated.

Wrap contracts' fair value are determined using a market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of yearend.

The short term investment fund invests in money market instruments. Its net asset value represents the price at which a transaction could be initiated.

The statement of net assets available for benefits includes the fair value of the underlying assets of the Fund based on the proportionate ownership of the Plan's participants.

The average yield for all fully benefit-responsive investment contracts was 0.88% for 2012. The blended net crediting rate for all fully benefit-responsive investment contracts was 1.64% for 2012.

6. Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement:

- | | |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; |
| Level 2 | Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; |
| Level 3 | Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable. |

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following discussion describes the valuation methodologies used for assets measured at fair value on a recurring basis. The techniques utilized in estimating the fair values of financial instruments are reliant on the assumptions used. Care should be exercised in deriving conclusions based on the fair value information of financial instruments presented below.

Fair value estimates are made as of a specific point in time, based on available market information and judgments about the financial instrument. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. In addition, the disclosed fair values may not be realized in the immediate settlement of the financial instrument. During 2012, one pooled separate account's valuation process has changed. Please refer to the second paragraph under *Pooled Separate Accounts* for details.

Pooled Separate Accounts - Net asset value (NAV) of each of the pooled separate accounts is calculated in a manner consistent with U. S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the pooled separate accounts are invested in publically quoted mutual funds or actively

managed stocks. The fair value of the underlying mutual funds or stock is used to determine the NAV of the pooled separate account, which is not publically quoted. Some of the pooled separate accounts also invest in fixed income securities. The fair value of the underlying securities is based on quoted prices of similar assets and is used to determine the NAV of the pooled separate account.

One pooled separate account invests primarily in commercial real estate and includes mortgage loans, which are backed by the associated properties. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates, and discount rates. In addition, each property is appraised annually by an independent appraiser.

Mutual Funds - The mutual funds are held as individual plan assets. The mutual funds have publicly available prices that are quoted daily in active markets.

Guaranteed Investment Contracts (GICs) – Investment contracts issued by Principal Financial are backed by its General Account. Due to the nature of these contracts, they do not have specific underlying assets assigned.

For defined contribution GICs, most participant transactions are executed using contract value without adjustment. In such event, the contract value approximates the GICs' fair value. However, these contracts do have surrender charges if they are terminated by the contract holder or a plan terminates its interest in such contract within certain time periods. In such event, contract value less surrender charges would be a better approximate for fair value.

Common Collective Trust (CCT) – The Fund is valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the Fund's trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the Fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2012 and 2011. As required by ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

7. Income Taxes

The Plan obtained its latest IRS Opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

9. Related Party Transactions and Party-in-Interest Transactions

Plan investments are managed by Principal Life Insurance Company, the Plan's custodian, and its affiliates. Fees incurred by the Plan for the investment management services are included in the net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than direct payment. Administrative expenses of \$6,102 were paid during 2012 to the Plan's custodian for record keeping services. These transactions are party-in-interest transactions per ERISA.

Certain other administrative expenses of the Plan are absorbed by the plan sponsor and are not reflected in these statements.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2012 and 2011, and the change in net assets for the year ended December 31, 2012 to Schedule H of Form 5500:

	<u>2012</u>	<u>2011</u>
Net assets available for benefits per the financial statements	\$ 5,644,813	\$ 4,815,642
Employer contribution receivable	(28,689)	-
Adjustment from fair value to contract value for stable value fund	<u>8,595</u>	<u>-</u>
Net assets available for benefits per Schedule H of Form 5500	<u><u>\$ 5,624,719</u></u>	<u><u>\$ 4,815,642</u></u>
	<u>2012</u>	
Changes in net assets available for benefits per the financial statements	\$ 829,171

Change in adjustment from fair value to contract value for Stable value fund	<u>8,595</u>	
Net income per Schedule H of Form 5500	<u><u>\$ 809,077</u></u>	

12. Delinquent Remittances

During 2010, the plan sponsor failed to timely deposit amounts contributed by employees. All amounts were remitted to the Plan in 2010, and management has determined the amount of lost earnings due to the participants is \$632 and has deposited the amount into the Plan.
