Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Eurofins Scientific Inc. Profit Sharing Thrift Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan sponsored by Eurofins Scientific, Inc. and certain affiliates including Eurofins Medinet, LLC, Product Safety Labs, Inc., Eurofins Pharma US Holdings, MWG Biotech, Inc., Eurofins STA Laboratories, Inc., Eurofins Microbiology Laboratories, Inc., Agrosience, ETS, VirAlliance, Eurofins MWG Operon Biotechnologies, Inc., Xenometrics, LLC, Eurofins Analytical Laboratories, Inc., Eurofins Pan Laboratories, Inc. and Eurofins DQCI, LLC (collectively, the "Companies"). The Plan covers substantially all employees except lease employees. Eligible full-time employees can make deferral contributions starting on the first day of the month following the employee's date of hire. Eligible employees are entitled to employer contributions on the first day of the month following the completion of three months of service. Employees who are not expected to work 1,000 or more hours during their first year of employment do not become eligible until they have completed one year of service in which they work over 1,000 hours and are over 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and the applicable current Internal Revenue Code provisions.

Transfers of assets: Effective January 1, 2012 DQCI Services 401(k) Plan was merged with the Plan. As a result, \$2,069,962 of net assets were transferred to the Plan on January 3, 2012. Additionally, effective January 1, 2012 Eurofins AvTech Laboratories, LLC ceased to be an adopting employer of the Plan. As a result, \$467,756 of net assets were transferred to the Lancaster Laboratories, Inc. 401(k) Incentive Savings Plan on January 4, 2012. These events resulted in total net transfers to the Plan of \$1,602,206 reflected on the Statement of Changes in Net Assets Available for Benefits during the year ended December 31, 2012.

Contributions and investment options: Each year, participants may elect to defer up to forty percent (40%) of their annual compensation subject to Internal Revenue Service limitations. The Plan provides an automatic election of 3% of compensation for all eligible employees. Employees may elect a different percentage or elect not to make any elective deferral contributions. Participants may also contribute amounts representing distributions from other qualified benefit plans. Participants direct the investment of their contributions and any employer contributions into various investments offered by the Plan. Participants may currently invest their contributions into a variety of mutual funds, pooled separate accounts and a common trust fund. Participants may change their investment options at any time. For 2012, the Companies matched 100% up to 3% of eligible compensation that a participant contributed to the Plan for participants of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. For participants who are employees of Eurofins MWG Operon Biotechnologies, the Companies matched 100% up to 6% of eligible compensation that a participant contributed to the Plan. The Plan also allows the Companies to make additional discretionary contributions. There were no discretionary contributions for the year ended December 31, 2012.

Participant accounts: Each participant's account is credited with the participant's deferral contribution and an allocation of (a) the Companies' discretionary matching contribution and additional discretionary contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based upon the participant's eligible compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Participants are immediately vested in their deferral contributions plus earnings thereon. Participants who are employees of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. and Eurofins DQCI, LLC, vest in the Companies' discretionary matching and any additional contributions plus earnings thereon based upon years of continuous service with 100% vesting occurring after five years of credited service with 1,000 hours each year. For participants who are employees of Eurofins MWG Operon Biotechnologies, Inc. 100% vesting occurs after three years of credited service. Participants of Eurofins DQCI, Inc. are immediately 100% vested for all contributions. In the event of death, disability, normal retirement age (65), or if the Plan is discontinued, participants become 100% vested in all account balances.

Payment of benefits: Upon termination of service, death, disability, or retirement, participants may receive account distributions in the form of a lump sum payment or distribution in kind as defined by the Plan. Withdrawals by a participant while employed are limited to those requested due to events of financial hardship as defined by the Plan or upon the attainment of age 59 1/2.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts are used to reduce future Companies' contributions and pay administrative expenses. At December 31, 2012 and 2011, forfeitures available totaled approximately \$40,000 and \$56,000, respectively. During the year ended December 31, 2012, forfeitures used to reduce employer contributions and to pay administrative expenses totaled approximately \$118,000 and \$184,000, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance reduced by the highest outstanding note receivable balance during the prior 12-month period. Transactions are treated as a transfer to (from) the investment fund from (to) notes receivable. Terms may vary based on the reason for the note. The notes receivable are secured by the vested balance in the participant's account and bear interest based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2012 bears interest at rates ranging from 3.25% to 10.25% and are due from February 2013 through November 2017.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

The Plan invests in investment contracts with Principal Life Insurance Company (Principal) through a bank common trust. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment in the bank common trust as well as the adjustment of the investment in the bank common trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the plan document.

Benefit payments: Benefit payments are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 10, 2013, which is the date the financial statements were available to be issued. Through that date, no events requiring recognition or disclosure occurred other than those discussed in Note 12.

Note 3. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Companies. No such officer or employee received compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Note 4. Information Certified and Provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedules, that was prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets:

Note 4. Information Certified and Provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Continued)

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company also certified to the completeness and accuracy of \$22,532 of interest income on notes receivable from participants and dividend income of \$60,609 from mutual funds and \$2,123,591, \$712,354 and \$30,812 of net appreciation of pooled separate accounts, mutual funds and the bank common trust fund, respectively (including investments bought, sold and held during the year), for the year ended December 31, 2012.

The following table presents Plan investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
Investments:		
Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company:		
Bank common trust fund, Principal Stable Value Fund (Fair Value)	\$ 2,675,104	\$ 2,312,251
Bank common trust fund, Principal Stable Value Fund (Contract Value)	2,613,672	2,259,709
Pooled separate accounts:		
Principal Bond and Mortgage	1,486,900	1,080,801
Principal Lifetime 2020	1,972,181	1,460,766
Principal Lifetime 2030	2,814,165	2,135,164
Principal Lifetime 2040	2,178,249	1,748,008

Note 5. Fully Benefit-Responsive Contracts

The Principal Stable Value Fund (the "Fund") offers a diversified group of investments with competitive levels of yield consistent with a stable fixed-income methodology and a prudent assumption of investment risk. The Fund provides stability of returns, liquidity to pay plan benefits and a high credit quality by investing in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. These contracts allow for their principal value to remain stable regardless of the volatility of the financial markets.

Investments held by a collective investment trust are required to be reported at fair value. The statements of assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in assets available for benefits is prepared on a contract value basis. As of December 31, 2012, the Fund's contract value was \$2,613,672 with a fair value of \$2,675,104. As of December 31, 2011, the Fund's contract value was \$2,259,709 with a fair value of \$2,312,251. The Plan's interest in the assets of the stable value fund was 0.06% as of December 31, 2012 and 2011.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 5. Fully Benefit-Responsive Contracts (Continued)

The contributions are maintained in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Below is a summary of the average contract yield in the aggregate for all contracts as of December 31, 2012 and 2011:

	2012	2011
Average yield based on interest rates credited to participants	1.27%	1.79%
Weighted average crediting rate of all investment contracts	1.64%	2.14%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply. The Administrative Committee does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Fund may terminate the investment contract with the Plan by providing 12 months advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by federal law, failure to render performance necessary to comply with the terms of the contract, Plan disqualification and failure to adopt the Plan in a reasonable period of time. Upon termination by the Fund, a market value adjustment may apply.

Note 6. Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of termination of the Plan, employees will become fully vested in their accounts.

Note 7. Tax Status

Effective August 29, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by Principal Financial Group. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax except status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for years before 2009.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 8. Related-Party Transactions

Certain Plan investments are shares of pooled separate accounts and the bank common trust fund managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions.

Note 9. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 10. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Pooled separate accounts: Pooled separate accounts (other than the Principal U.S. Property Separate Account) invest primarily in domestic and international stocks, commercial paper, or single mutual funds. The U.S. Property Separate Account invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. The net asset value is used as a practical expedient to determine fair value. Each pooled separate account provides for redemptions by the Plan at reported net asset values per share, with little to no advance notice requirement, therefore these funds are classified within Level 2 of the valuation hierarchy.

Bank common trust fund: The bank common trust fund is reported at fair value based on the underlying investments comprising the trust and is classified within Level 2 of the valuation hierarchy. The net asset value is used as a practical expedient to determine fair value.

Mutual funds: Mutual funds are reported at fair value based on the quoted market price of the fund and are classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	2012			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Mutual funds:				
Large U.S. equity	\$ 2,942,334	\$ 2,942,334	\$ -	\$ -

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

During the year ended December 31, 2012, the Plan did not have any transfers between Level 1, 2 or 3 assets and liabilities.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2012 and 2011:
