Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Riverwood International Employees Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2011, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Riverwood International Employees Retirement Plan

Notes to the Financial Statements

A. PLAN DESCRIPTION

The following description of the Riverwood International Employees Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more information.

General. The Plan is a noncontributory defined benefit pension plan covering all eligible salaried employees at Graphic Packaging International, Inc. (the "Company") who have 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2007, the Plan was closed to employees hired, rehired, or transferred into an eligible employment class on or after January 1, 2008.

Effective January 1, 2009, the Plan was restated to incorporate all prior amendments.

Funding Policy. The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participants' benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2012 and 2011. In accordance with the requirements of the Pension Protection Act of 2006 the Plan has elected Funding Relief.

Pension Benefits. Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who are at least age 55 and have 10 years of vesting service. Effective January 1, 2007, normal retirement benefits under the Plan are based upon the participant's years of benefit service and average final salary (generally the highest four consecutive years of pensionable earnings in the last 10 years of employment). Early retirement benefits are based upon the participant's earned benefit reduced by 5% for each year prior to normal retirement age or age 62 for participants with at least 25 years of vesting service. For participants hired prior to January 1, 2007, the accrued benefit as of December 31, 2006 applies as a grandfathered minimum benefit.

Participants may elect to receive their benefits in various forms such as a single life annuity or other optional forms of payment under the Plan.

Death and Disability Benefits. If an active participant dies after becoming eligible for a benefit under the Plan but before commencing payment, their surviving spouse will be entitled to a benefit. Eligible participants will continue to accrue vesting and benefit service under the Plan if they meet the criteria to receive benefits under the Company's long term disability program. Disabled participants may elect to commence payment of their benefit under the early retirement or vested retirement benefit provisions of the Plan if they meet the requirements for these benefits. Vesting and benefit service accruals will cease if a disabled participant elects to commence prior to normal retirement.

Vesting. An employee must complete five years of service to become eligible to receive a benefit under the Plan. If an employee does not complete five years of service, they forfeit the right to receive benefits under the Plan. Participants hired on or after January 1, 2007 no longer become immediately vested upon attainment of age 55.

Notes to the Financial Statements (Continued)

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition. Investments in the GPI Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the GPI Master Trust's net income which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in mutual funds and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties. The Plan invests in a Master Trust, which invests in a combination of stocks, bonds, mutual funds, common/collective trusts, foreign currency options and contracts, and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of Benefits. Benefits are recorded when paid.

Administrative Expenses. Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Company.

Recent Accounting Pronouncements. In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2011-04 *Fair Value Measurements (Topic 820) - Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRSs")* ("ASU 2011-04"). ASU 2011-04 amended Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820") to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change the particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. All applicable components of ASU 2011-04 have been adopted and disclosed within the financial statements.

C. INTEREST IN MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the Graphic Packaging International, Inc. Master Trust (the "Master Trust"). The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

At December 31, 2012 and 2011, the assets of the Master Trust were held by the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust was approximately 27% at both December 31, 2012 and 2011.

Notes to the Financial Statements (Continued)

The following table presents the net assets held by the Master Trust at December 31, 2012 and 2011 as certified by the Trustee:

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Common/collective trusts: The Master Trust's interest in the common/collective trusts are valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to

Notes to the Financial Statements (Continued)

temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

103-12 investment entities (the "LLCs"): The Master Trust's interest in the LLCs are stated at fair value. The value is determined by the NAV, based on the underlying investments, as reported by the LLCs on the valuation date.

Foreign currency options: Valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Cash and cash equivalents: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2012 and 2011. There were no level 3 investments as of December 31, 2012 and 2011.

- (1) The fund's investment objective is to provide a market rate of return consistent with the preservation of capital through a shorter maturity, high quality portfolio.
- (2) The fund's investment objective is to approximate as closely as practicable, before expenses, the performance of the Barclays Capital U.S. Treasury Inflation Protection Securities Index by primarily investing in U.S. government treasury securities.
- (3) The fund's investment objective is to approximate as closely as practicable, before expenses, the performance of the S&P 500 index over the long term by primarily investing in common stocks.
- (4) The objective of the Fund is capital appreciation through investments in an international portfolio of equity securities of issuers located in countries of developed markets. The Fund will attempt to achieve its investment objective by striving to exceed the U.S. dollar return of the Morgan Stanley Capital International Europe, Australasia and Far East Index.
- (5) The fund's investment objective is to maximize long-term total return, consistent with prudent investment management. Under normal market conditions, the fund expects to invest at 70% of its total net assets, either directly or indirectly through investments in other commingled investment vehicles, in investment grade debt and fixed income securities rated at the time of purchase at least Baa3 or BBB- by a nationally recognized rating agency such as Moody's, S&P or Fitch, or that are of comparable quality as determined by the relevant advisers. The fund expects that its dollar-weighted average duration, including futures positions, will range within

Notes to the Financial Statements (Continued)

20% plus or minus of the duration of Barclays Capital Aggregate Bond Index. Additionally, the fund expects to maintain a dollar-weighted average credit quality of portfolio holdings of at least AA- or its equivalent.

E. DERIVATIVES

Derivative financial instruments are used to hedge the currency risk component of the Master Trust's foreign investments. Certain of the investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures, forward agreements, and options. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

The Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

The Plan reflects the fair value of all forward contracts as an asset or liability in the Plan's financial statements. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the statements of net assets available for benefits, forward contracts to purchase foreign currency are shown as foreign currency contract payables, and forward contracts to sell foreign currency are shown as foreign currency contract receivables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

F. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service and average final salary, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2011 were:

Discount rate:	8.25% per year
Mortality basis - healthy lives:	RP - 2000 2012 PPA Annuitant and Non-annuitant Mortality (sex distinct)
Normal retirement age:	Age 65

Notes to the Financial Statements (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality rates used to determine the actuarial present value of accumulated plan benefits were changed to RP-2000 2012 PPA Annuitant and Non-Annuitant Mortality Tables from RP-2000 2011 PPA Annuitant and Non-Annuitant Mortality Tables. The effect of this change was to increase the actuarial present value of accumulated plan benefits by \$272,409.

G. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

H. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 5, 2011, that the Plan and related trust qualifies in accordance with the applicable regulations of the Internal Revenue Code ("IRC") as a tax-exempt entity. Although the Plan has been amended since receiving favorable determination, the plan administrator, the plan actuary and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than

Notes to the Financial Statements (Continued)

not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

I. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2012 and 2011, the Plan incurred and accrued trustee and miscellaneous fees of \$129,752 and \$90,574, actuary fees of \$573,214 and \$629,606, and investment management fees of \$478,218 and \$345,195, respectively.

J. PLAN AMENDMENTS

Effective July 1, 2011, if a member is under age 50 or has fewer than five years of vesting service under the Plan, his benefit service will be frozen as of June 30, 2011 and his average final salary and covered compensation will be frozen as of December 31, 2011. Members who are at least age 50 with at least five years of vesting service under the Plan as of July 1, 2011, will continue to accrue benefits under the Plan but the percentage of average final salary for service in excess of 35 years accrued after June 30, 2011 will change from 1.20% to 0.90%.

Effective December 31, 2011, the Plan was amended to allow for the present value of the participants' accrued benefits to be re-determined at such time as the Retirement Committee determines that there has been sufficient change in the actuarial assumptions that it is likely that the present value will be less than \$5,000.

K. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 10, 2013, which is the date the financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under the Subsequent Events topic of the FASB ASC.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Termination with Vested Rights:	30% of the terminating participants are assumed to elect benefits commencing at age 55, 20% at age 60, 25% at age 62 and the remaining 25% at age 65.
Form of Payment:	35% of participants are assumed to elect the 50% joint and survivor annuity form of payment, 20% the 75% joint and survivor annuity form of payment, 10% the 100% joint and survivor form of payment and the remaining 35% the life annuity.
Future Expenses:	Current Year: Expected expenses of \$1,500,000 were added to Target Normal Cost. Prior Year: Expected expenses of \$1,200,000 were added to Target Normal Cost.
Loading or Contingency Reserves:	None.
Valuation Method:	Traditional unit credit cost method for minimum funding; Projected unit credit cost method for maximum funding.
Asset Valuation Method:	Market Value of assets with contributions receivable.
Spouses' Assumption:	80% of participants are assumed to be married. Husbands are assumed to be 3 years older than their wives.
Miscellaneous	No allowance has been made for certain additional liabilities that may arise if some or all of the units of the employer are closed down. The actuarial assumptions anticipate a modest rate of future inflation. The valuation was based on participants of the Plan as of the valuation date and did not take future participants into account. No provision has been made for contingent liabilities with respect to non-vested terminated participants who may be re-employed.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

RIVERWOOD INTERNATIONAL EMPLOYEES RETIREMENT PLAN

EIN: 84-0772929; PN: 092

Schedule SB, Part V – Summary of Plan Provisions

The Schuller Employees Retirement Plan (formerly known as the Manville Employees Retirement Plan) became effective on July 1, 1968. As of January 1, 1992, the Riverwood International Employees Retirement Plan was spun-off from the Schuller Employees Retirement Plan with identical plan provisions. The Plan has been amended and restated as of January 1, 2009 and reflects amendments adopted through December 20, 2011. The following summary describes the main participation, benefit, and contribution provisions of the Plan as interpreted for the valuation.

Definitions

Average Final Salary	The average of the participant's pensionable earnings (limited to \$250,000 per year as indexed by law) using the four highest consecutive plan years in the last ten plan years of employment. Pensionable earnings are generally equal to base pay plus annual bonuses, commissions and overtime pay.
Covered Compensation	Covered compensation is equal to the 35-year average of the Social Security wage bases ending with the calendar year in which Participants attain Social Security retirement age.

Participation in Plan

An Employee becomes a participant after completing one year of service provided he is a salaried employee or a non-union hourly employee at a participating location and provided he is not a Leased Employee. However, the plan was closed to employees hired, rehired, or transferred from union locations after December 31, 2007.

Benefits

Partial Plan Freeze Effective June 30, 2011

If a member is under age 50 or has fewer than five years of vesting service under the Plan as of July 1, 2011, his benefit service will be frozen as of June 30, 2011 and his Average Final Salary and Covered Compensation will be frozen as of December 31, 2011. Members who are at least age 50 with at least five years of vesting service under the Plan as of July 1, 2011, will continue to accrue benefits under the Plan but the percentage of Average Final Salary for service in excess of 35 years accrued after June 30, 2011 will change from 1.20% to 0.90%.

Normal Retirement Pension

Condition for Pension	Age 65.
Amount of Pension	<p>An annual pension computed as the sum of (1), (2), and (3) below, but not less than (4) and not less than (5) below:</p> <p>(1) 0.90% of the participant's Average Final Salary up to Covered Compensation <i>PLUS</i> 1.40% of the participant's Average Final Salary in excess of the Covered Compensation, <i>TIMES</i> Years of benefit service up to 35 years.</p> <p>(2) 1.20% of the participant's Average Final Salary times years of benefit service in excess of 35 years earned through June 30, 2011 <i>PLUS</i></p>

RIVERWOOD INTERNATIONAL EMPLOYEES RETIREMENT PLAN

EIN: 84-0772929; PN: 092

Schedule SB, Part V – Summary of Plan Provisions

0.90% of the participant's Average Final Salary times years of benefit service in excess of 35 years earned after June 30, 2011.

(3) Scheduled benefits shown in Appendix C and D of the Plan document for certain participants.

(4) \$300 multiplied by years of service or \$1,200 if greater.

(5) The accrued benefit as of December 31, 2006.

Early Retirement Pension

Condition for Pension Age 55 and ten years of vesting service.

Amount of Pension Accrued pension reduced by 5% for each year prior to Normal Retirement Date (reduced from age 62 if 25 years of vesting service at retirement).

Vested Termination Pension

Condition for Pension Five years of vesting service (or age 55 for employees hired prior to 1/1/2007)

Amount of Pension Accrued pension deferred to age 65 or reduced pension payable anytime after age 55 (age 50 if participant of Manville Plan). The reduced amount shall be equal to the vested deferred allowance multiplied by the appropriate factor interpolated to two decimal places to take into account the nearest number of full months determined from the following schedule:

Age Allowance Commences	Early Retirement Factor
55	39%
56	42
57	46
58	50
59	55
60	61
61	67
62	74
63	81
64	90

Disability Retirement Pension

Condition for Pension Mentally or physically incapable of employment, eligible for Social Security disability benefits.

Amount of Pension Continue accruing service while on disability assuming pay remains constant during the period on LTD.

Spouse's Benefit

Condition for Pension Death prior to retirement after becoming eligible for vested deferred allowance.

RIVERWOOD INTERNATIONAL EMPLOYEES RETIREMENT PLAN

EIN: 84-0772929; PN: 092

Schedule SB, Part V – Summary of Plan Provisions

Amount of Pension	If participant died after becoming eligible for early retirement, the benefit is calculated as if the participant had retired on date of death with an effective election of a 100% Contingent Annuitant Option, designating the spouse as contingent annuitant. Otherwise the benefit is calculated as if the participant had retired on the later of (i) date of death, or (ii) age 55 (age 50 if participant on December 31, 1988) with an effective election of a 50% Contingent Annuitant Option, designating the spouse as contingent annuitant.
Maximum Benefit	The maximum benefit attributable to Company contributions is determined in accordance with Section 415(b) of the Internal Revenue Code.
Normal Form of Pension	If the participant is married at the time of his retirement, the normal form of pension is a reduced 50% joint and survivor pension with the participant's spouse as beneficiary. If the participant is not married, the normal form of pension is a straight life annuity.
Optional Benefits in Lieu of Regular Benefits	Prior to his retirement, a participant may elect to have his pension adjusted to provide a reduced amount payable to him for his life with a provision that 100%, 75%, 50% or 25% of such reduced pension will be continued after his death during the life of a contingent annuitant. A straight life annuity, 10 years certain and life, and income leveling to age 62 are also available options.
Optional Form Conversion Factors	<p>For Joint and Survivor Options and 10 year certain and life Option:</p> <p>Interest rate: 5% per year</p> <p>Mortality: prescribed by Revenue Ruling 2001-62.</p> <p>For the purpose of calculating lump sum and Level Income Option:</p> <p>Interest rate: Section 417(e)(3)(C) of the Code for the fifth calendar month preceding the applicable Plan Year in which occurs the Annuity Starting Date for the distribution.</p> <p>Mortality: Section 417(e)(3)(B) of the Code as in effect on the first day of the Plan Year in which occurs the Annuity Starting Date for the distribution.</p>

Contributions

¹ An election has been made under PRA 2010 to use the alternative 2 plus 7-year amortization period for the base established in 2010. Under 2 plus 7-year amortization, the required installments for the first 2 years of the amortization period equal interest on the base at the plan's effective interest rate for the plan year of the election. The balance is then amortized over the following 7 years in level installments determined using the discount rates for the plan year of the election. The installment for the base established January 1, 2010 reflects an additional installment acceleration amount.

² The installment for the base established January 1, 2010 reflects an additional installment acceleration amount of \$2,526,607.
