1. Plan Description

The following brief description of Ridgeline Management and Facilities 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Ridgeline Management Company and Facilities (the Company). Employees are eligible to participate in the Plan following attainment of the age of 21 and completion of 500 hours of service within the first six months of employment. Employees may enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan became effective on January 1, 2005, and covers all regular employees of the Company.

Contributions

Each year, participants may contribute up to the annual limit set by the Internal Revenue Code (IRC) and may also contribute amounts representing distributions from other qualified defined contribution plans. Participants over the age of 50 may contribute additional pretax catch-up contributions up to the IRC limits. These contributions shall be fully vested at all times.

The Company may make discretionary matching and profit sharing contributions. There were no Company contributions for 2012 and 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company contribution, if any, and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts between several investment alternatives available within the Plan.

Vesting and Payment of Benefits

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100 percent vested in the Company contributions after three years of service. On termination of service, death, disability, or retirement a participant will receive a lump-sum amount equal to the participant's vested interest. Additionally, under certain circumstances of financial hardship a participant is allowed to withdraw funds from the Plan.

Forfeitures

Any amounts that are not fully vested when participants terminate from the Plan are forfeited and used to offset Company contributions. There were no forfeitures for 2012 and 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments consist of an insurance company general account and pooled separate accounts which are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Investment income is stated on the accrual basis. See Note 7 for information on the fair value measurements.

Net appreciation (depreciation) in fair value of investments consists of the net change in unrealized gains or losses during the year and the realized gain or loss on investments sold during the year. Purchases and sales of investments are recorded on a trade-date bases. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company absorbs the cost of administering the Plan, other than custodian fees.

3. Investments

At December 31, investments that represent 5 percent or more of the Plan's net assets are as follows:

	2012	2011
Symetra Life Fixed Account	$ 8,107	$ 7,530
Franklin Small Cap Value Fund	14,967	10,911
Fidelity Contra Fund	13,450	9,962
Dreyfus Appreciation Fund	11,722	9,284
Pioneer Emerging Markets Fund	10,442	7,805
Pioneer High Yield Fund	13,231	9,924
Templeton Developing Markets Fund	10,752	8,133
American Century Value Fund	12,850	9,656
Fidelity Growth Fund	11,654	8,888
Franklin Small Mid-Cap Growth Fund	11,282	8,846
JPMorgan Mid Cap Fund	12,468	9,073

3. Investments, continued

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $16,941 in 2012 and decreased in value by $5,025 in 2011.

4. Information Certified by Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Symetra Life Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following information was obtained from data that has been prepared and certified as complete and accurate by the custodian as of and for the years ended December 31:

	2012	2011
Investments:		
Pooled separate accounts	$ 163,630	$ 125,109
General account	8,107	7,530
Investment gain (loss)	16,941	(5,025)

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in any Company contributions.

6. Tax Status

The Plan has adopted a Volume Submitter Profit Sharing Plan with CODA developed by RSM McGladrey Inc. The Internal Revenue Service (IRS) has issued a letter dated March 31, 2008, which stated that the Volume Submitter Profit Sharing Plan with CODA and related trust were designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan sponsor's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of December 31, 2012 and 2011. Consequently, no provision for income taxes has been included in the accompanying financial statements.

6. Tax Status, continued

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax filings are subject to examination generally for three years after being filed.

7. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

General Account: Valued at contract value which approximates fair value.

7. Fair Value Measurements, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

General account	-	7,530	-	7,530
Total assets at fair value	$ 125,109	$ 7,530	$ -	$ 132,639

8. Party in Interest Transactions

Certain Plan investments are invested in a general account managed by Symetra Life Insurance Company. Symetra Life Insurance Company is the custodian of the Plan and therefore these transactions qualified as party in interest transactions.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Subsequent Events

Management evaluates events and transactions that occur after the statement of net assets available for benefits date as potential subsequent events. Management has performed this evaluation through the date of the independent auditor's report.
