TRILOGY FINANCIAL SERVICES, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE A: **Description Of Plan** - The following description of the Trilogy Financial Services, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(1) General - The Plan is a defined contribution plan which was adopted by Trilogy Financial Services, Inc. ("the Company") effective January 1, 1999, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed at least six months of service and are age 21 or older.

(2) Contributions - Participants may elect to contribute 100 percent of their annual wages up to a maximum deferral limitation, as prescribed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching and profit sharing contributions at the discretion of the Board of Directors. For the year ended December 31, 2012, the Company made profit sharing contributions of $161,585, which were reduced by $607 of forfeitures applied at the time of funding, and no matching contributions.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(4) Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service.

(5) Notes Receivable From Participants - Participants may borrow against their account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000, but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. The loans are secured by the vested balance in the participant's account. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through bi-weekly payroll deductions.

NOTE A: **Description Of Plan** - (Continued)

(6) Benefit Payments - Upon termination of service due to death, disability, retirement, or for other reasons where vested value is more than $1,000, a participant may elect to receive either a lump-sum distribution equal to the vested portion of his or her account or an annuity over the life of the participant or designated beneficiary, as defined in the Plan document. For termination of service outside of death, disability and retirement where the vested value is no more than $1,000, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship, participants may make withdrawals from the Plan.

(7) Forfeitures - Forfeitures of the employees' non-vested portion of the Company's contributions are used to reduce future employer contributions and administrative fees. For the years ended December 31, 2012 and 2011 available forfeited non-vested accounts totaled $440 and $211, respectively. During the year ended December 31, 2012, there were no forfeitures utilized.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Investment fees and certain transaction fees are paid by the Plan; all other administrative expenses incurred by the Plan are absorbed by the Company.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.

NOTE B: **Summary Of Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis Of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America.

(2) Investment Valuation And Income Recognition - The Plan's investments are stated at fair value at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note L for discussion of fair value measurements.

Purchases and sales of investments are recorded as of the trade date. Dividends are accrued as of the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

NOTE B: **Summary Of Significant Accounting Policies** - (Continued)

(2) Investment Valuation And Income Recognition – (Continued)

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

(3) Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

(4) Payment Of Benefits - Benefits are recorded when paid.

(5) Use Of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE C: **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held a substantial amount of its assets with one institution. In the event of the institution's failure, the Plan is at risk of loss in any of its funds which could fail to the extent of the dollars invested in the funds.

NOTE D: **Information Prepared And Certified By Wilmington Trust Company** - The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian:

	2012	2011
Investments At Fair Value:		
Mutual Funds	$ 5,041,097	$ 4,078,837
Money Market Fund	440	9,053

Total Investments, At Fair Value	$ 5,047,861	$ 4,087,890
Notes Receivable From Participants	$ 245,185	$ 249,578

Wilmington Trust Company certified the completeness and accuracy of $617,964 of net appreciation in fair value of investments in mutual funds, $78 of net appreciation in fair value of investments in the common/collective trust, $7 of interest income on the money market fund, and $11,905 of interest income related to notes receivable from participants for the year ended December 31, 2012.

NOTE E: **Investments** - The following table presents investments that represent 5 percent or more of the Plan's net assets:

* Investments that represent less than 5 percent of the Plan’s net assets.

NOTE F: **Excess Contributions Payable** - ERISA requires the Plan to satisfy certain nondiscrimination provisions. At December 31, 2012 and 2011, there were no excess contributions payable.

NOTE G: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE H: **Withdrawn Participants** - At December 31, 2012 and 2011, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not been paid.

NOTE I: **Party-In-Interest** - Certain investments in mutual funds, the money market fund, and the common/collective trust are managed by Wilmington Trust which is the custodian, as defined by the Plan, therefore, these investments qualify as party-in interest transactions. In addition, notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

NOTE J: **Tax Status** - The Plan is based on Charter Oak Pension Group LLC Volume Submitter Profit Sharing Plan with CODA, which received a determination letter from the Internal Revenue Service (IRS) dated October 29, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code (IRC). The Plan has not yet filed for its own determination letter from the IRS. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE K: **Fidelity Bond** - ERISA requires that the Plan be covered by a fidelity bond. The amount of bond must be equal to the lesser of 10 percent of the funds handled or $500,000. As of January 1, 2012, the bond fell below the required amount. The Company is aware of the occurrence and secured sufficient bonding in August 2012.

NOTE L: **Fair Value Measurements** - FASB ASC 820, *"Fair Value Measurements and Disclosures",* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Money Market Fund: Valued at its amortized cost, which approximates fair value.

NOTE L: **Fair Value Measurements** - (Continued)

Common/Collective Trust: Consists of investment contracts and similar fixed-principal investments and is valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual Funds:

NOTE M: **Net Asset Value Per Share (NAV) -** The following table for December 31, 2012 sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent):

	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common/Collective Trust:				
Annuity (a)	None	Daily	None	None

(a) Annuity - This fund is invested 100% in the MetLife Group Annuity Contract No. 25554, which is comprised of three separate accounts: the MetLife Aggregate Bond Index Separate Account, the Wilmington Short/Intermediate Bond Separate Account, and the Wilmington Broad Market Bond Separate Account. The fund seeks to achieve performance results that are similar to those of the Bank of America/Merrill Lynch One-Year U.S. Treasury Note Index.

NOTE N: **Subsequent Events** - The Plan has evaluated subsequent events through October 1, 2013, the date the financial statements were available to be issued.
