INDEPENDENT AUDITOR'S REPORT

June 13, 2013

To the Trustees and Plan Administrator
Universal Acoustic & Emission Technologies, Inc. Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Universal Acoustic & Emission Technologies, Inc. Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with United States generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with United States generally accepted auditing standards. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes #3, #5, and #8, which was certified or provided by Minnesota Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note #1 Description of Plan

The following summary description of the Universal Acoustic & Emission Technologies, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Universal Acoustic & Emission Technologies, Inc. (the "Company"). Employees become eligible to participate in the Plan immediately upon being hired. Employees who have completed a year of eligible service (1,000 hours or more of service), and are employed as of the last day of the year are eligible to receive employer profit sharing contributions. The Plan's Trustees are responsible for oversight of the Plan. The Plan's Trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

The Plan currently offers various pooled separate accounts ("PSAs"), and an insurance investment contract as investment options for participants. Participants may elect to defer up to 100% of their annual compensation, up to the Internal Revenue Code limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan allows for the Company to make matching contributions and a discretionary profit sharing contribution, determined annually. The Company utilizes a matching contribution formula which calculates the matching contribution at 100% of the employees' deferrals up to 3% of the participant's eligible compensation, plus 50% of the employees' deferrals on the next 2% of the participant's eligible compensation. During 2012, the Company elected not to make a profit sharing contribution.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching and profit sharing contributions, Plan earnings, asset appreciation/(depreciation), and charged with administrative expenses. Allocations of Plan earnings and asset appreciation/(depreciation) are based on specific investment options selected by participants. Allocation of profit sharing contributions are based on a percentage of the participant's eligible compensation. The maximum benefit to which a participant is entitled from the Plan is the benefit that can be provided from that participant's vested portion of their account.

Vesting

Participants are immediately vested in their deferral and matching contributions plus actual earnings thereon. Vesting in the Company profit sharing contributions is based on years of continuous service on a graduated basis so that a participant is 100% vested after five years of credited service. Participants who leave the Plan because of death, normal retirement (59 1/2), or disability, as defined in the Plan, are considered 100% vested in the Company's profit sharing contributions.

Benefit Payments

On termination of service due to death, disability, retirement or termination of employment, a Plan participant may elect to receive a lump-sum distribution or partial payments up to the vested interest in their account. Participants may request an inservice withdrawal of the vested balance of their account upon normal retirement age.

Forfeitures

Forfeitures are calculated on the earlier of the last day of the Plan year in which the former participant incurs five consecutive one year breaks in service, or the distribution of the entire vested portion of the participant's account. Forfeitures of Company profit sharing contributions from nonvested participant accounts during the Plan year were \$7,245. The forfeitures are first used to pay for Plan administrative expenses then used to offset future employer contributions. During 2012, forfeitures used to offset Plan expenses totaled \$2,850 and forfeitures used to offset matching contributions totaled \$14,711. As of December 31, 2012, the forfeited nonvested accounts totaled \$4,472.

Note #1 Description of Plan (Cont'd)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. The maximum number of loans outstanding at any one time is limited to one. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates presently range from 4.25% to 5.25%. Principal and interest are paid ratably, at least monthly, over a period not to exceed five years, unless the loan is used to acquire a principal residence in which the term of the loan may be extended over a reasonable period of time longer than five years.

Note #2 Summary of Significant Accounting Policies

Method of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The difference between fair value and contract value is not material to the financial statements as of December 31, 2012 and 2011.

Subsequent Events

The Company has evaluated subsequent events through June 13, 2013, the date on which the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles ("USGAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note #4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Note #2 Summary of Significant Accounting Policies (Cont'd)

Administrative Expenses

Administrative expenses paid for by the Plan consist of custodial fees, compliance expenses, investment administrative fees and loan fees, all other expenses are paid by the Company. Certain administrative functions are performed by employees of the Company. No such employee, nor the Company receives compensation from the Plan.

New Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note #3 Investments (Unaudited)

Note #4 Fair Value Measurements

USGAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under USGAAP are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Pooled Separate Accounts

The fair value of the PSAs are determined using the market approach, which uses observable inputs of the underlying assets. The PSA's fair value is based on a net asset value ("NAV") equivalent which is determined by the insurance company sponsoring such pooled separate accounts, by dividing the PSA's net assets at fair value minus contract asset charges, by its units outstanding at the valuation dates. The underlying assets in the PSAs consist of shares of mutual funds and exchange traded securities, which are valued at the NAVs determined by quoted market prices as of the valuation date, and short term securities, which are unobservable and are priced at amortized cost.

Fixed Income General Account

The group annuity contract offers a general account which has been determined to be fully benefit-responsive. The fair value has been determined by the market approach using the 20 year treasury bill rate as a comparable, which approximates fair value as the contract is not a fund and is backed by Minnesota Life Insurance Company's ("Minnesota Life") general assets (see Note #5).

Note #5 Benefit-Responsive Investment Contract (Unaudited)

The Plan has entered into a benefit-responsive investment contract with Minnesota Life. Minnesota Life maintains the contributions in a general account. The account is credited with earnings based on the interest crediting rates and charged for participant withdrawals and administrative expenses. The unallocated annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note #2, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the unallocated annuity contract because the unallocated annuity contract is fully benefit-responsive. Contract value, as reported to the Plan by Minnesota Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The custodian has certified that the benefit-responsive investment contract is valued at the contract value, which approximates fair value and as such, does not require adjustment to the net assets available for benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5%. Such interest rates are reviewed on a quarterly basis for resetting.

Note #5 Benefit-Responsive Investment Contract (Unaudited) (Cont'd)

A plan sponsor initiated termination of the contract, should that occur, is an event that could limit the ability of the Plan to transact at contract value paid within 90 days. There are no events that allow the issuer to terminate the contract or allow settlement as an amount different from contract value.

The following are the respective average yields:

	<u>2012</u>	<u>2011</u>
Average Yields:		
Based on actual earnings	2.68%	3.43%
Based on interest rate credited to participants	2.69%	3.16%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note #6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note #7 Party-in-Interest Transactions

Transactions involving funds administered by Minnesota Life, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under CFR 408(b) of the ERISA regulations. Administrative fees paid to the trustee amounted to \$10,390 for 2012. Administrative fees paid to the recordkeeper, Securian Financial Services, totaled \$21,347 for 2012 and is included in net depreciation of investments.

Note #8 Information Certified by the Trustee (Unaudited)

The Plan sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under this election, the Plan sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Minnesota Life as complete and accurate, except for comparing such information to the Plan's financial statements and supplemental schedule:

	<u>2012</u>	<u>2011</u>
Investments, at fair value	\$ 14,975,930	\$ 12,723,694
Notes receivable from participants	155,588	207,067

As of the years ended December 31, 2012 and 2011

Note #8 Information Certified by the Trustee (Unaudited) (Cont'd)

Additionally, the Plan's independent auditors did not perform any auditing procedures with respect to the following changes in net assets available for benefits in 2012, except for comparing such information to the Plan's financial statements:

Net appreciation in fair value of investments	\$ 1,593,376
Interest income	42,088
Interest income on notes receivable from participants	8,663
Administrative expenses	10,390

Note #9 Income Tax Status

The Plan uses a non-standardized prototype plan document sponsored by Minnesota Life Insurance Company and adopted by the Plan. The prototype plan has received a favorable tax determination letter dated March 31, 2008, stating that the Plan, as designated, is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Company and Plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

USGAAP require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state, or local tax authorities for years before 2009.

Note #10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
