1. DESCRIPTION OF PLAN

The following description of the Los Angeles Truck Centers, LLC 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees who are over 18 years old, have completed three months of service and have been credited with at least 1 hour of service in each month. Employees (participants) may enter the Plan on January 1, April 1, July and October 1, after eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan

The Plan is administered by the Los Angeles Truck Centers, LLC (the "Company"). The assets of the Plan are maintained under the custody of the Plan's independent trustee, ING Life Insurance and Annuity Company (the "Trustee"). Administrative expenses incurred by the Plan, which to date have not been significant to the Plan, are paid by the Company and the Plan.

Contributions

Pursuant to the rules of the Plan, participants may specify the percentage of compensation to be deferred and contributed to the Plan. Unless an election is made to defer a lower amount, the percentage deferred cannot be less than 2% of the participant's compensation and cannot exceed the statutory amount ($17,000 maximum for 2012). The Company provides a matching contribution on the first 6% of gross compensation. The percentage is determined each year by the Company. The Company may also contribute to the Plan an amount, determined in its sole discretion, which will be allocated in proportion to the participants' compensation (profit sharing). Additionally, the Plan has enacted catch-up contribution provisions for participants age 50 and older ($5,500 maximum for 2012).

1. DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested benefits in the participant's account. The loans are secured by the vested benefits in the participant's account and bear interest at the published prime rate at the initiation plus 2%. Loans are required to be repaid within 5 years (up to 10 years for the purchase of a principal residence). Principal and interest are paid ratably through payroll reductions. For the year ended December 31, 2012, $13,037 of participant loans, including accrued interest, were determined to be in default and therefore will be recognized by the participants as distributions.

Participant Accounts

Participant accounts are credited with participant contributions and Company matching contributions, and are credited or charged, respectively, with their prorata share of investment income or losses.

Vesting

Participant contributions and related net earnings are fully vested at all times. Company contributions and related net earnings vest at a rate of 20% per year of service and are fully vested after five years of service. Upon retirement, disability or death, account balances become 100% vested. If a participant's employment terminates before full vesting of the Company's contributions and related earnings is attained, the remaining non-vested balances are forfeited and will be used to pay plan administrative expenses and reduce future Company contributions.

Forfeitures

Forfeitures occurring in any plan year which were directly attributable to employer contributions shall be added to employer contributions by the Company for the plan year. Forfeitures for 2012 were $6,919.

Withdrawals

Participants can withdraw all or a portion of their contributed amounts if they have a financial hardship (as defined by the Plan) or terminate employment with the Company.

1. DESCRIPTION OF PLAN (continued)

Investment Elections

Upon enrollment in the Plan, the participant may direct his or her contributions to any of the investment options through the Trustee. Participants may elect from a variety of investment funds with varying degrees of risk, ranging from common stocks to money market instruments.

Termination of the Plan

Although the Company has not expressed an intention to discontinue the Plan, the Company may do so at any time. In the event of termination, all participants will become fully vested in all contributions and net earnings of the Plan, and the net assets of the Plan will be distributed to the participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in United States of America. Investments are stated at the quoted market prices (fair value) of the respective funds. Investment gains and losses (realized and unrealized) are included in net appreciation in fair value of investments in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Investment Contract

As described in Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 962, *Plan Accounting-Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

As required by FASB ASC 962, the Statement of the Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits reflects the net adjustment of the fully benefit responsive investment contracts from fair value to contract value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Employee contributions to the Plan are recorded in the period the Company makes payroll deductions from Plan participants. Company contributions to the Plan are recorded based upon the required Company matching levels as defined in the Plan Document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Expenses of maintaining the Plan are paid by the Company and the Plan.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information included in the Plan's financial statements and supplementary information that was prepared by the Trustee and furnished to the plan administrator, who has obtained a certification from the Trustee that the information is complete and accurate.

* Investments representing 5% or more of net assets available for benefits at December 31, 2012 and/or 2011.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1990, the Plan entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with ING. Such events include the following: (a) complete or partial Plan termination or merger with another Plan, (b) changes to the Plan's prohibition on completing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2012**	**2011**
Based on actual earnings	3.0%	3.0%
Based on interest rate credited to participants	3.0%	3.0%

5. FAIR VALUE MEASUREMENTS

The Plan follows FASB ASC 820, *Fair Value Measurements and Disclosure*, which provides the framework for measuring fair value, with respect to its financial assets and liabilities. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the accumulation unit value (AUV) of shares held by the Plan at year end.

5. FAIR VALUE MEASUREMENTS (continued)

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the Plan's assets measured at fair value by level as of December 31, 2012 and 2011. As required by FASB ASC 820, assets are classified in their entirety based on the lowest level of output that is significant to the fair value measurement.

	Assets at Fair Value Measurements as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 11,571,382	$ -	$ 11,571,382
Guaranteed investment contract	-	-	2,543,453	2,543,453
Total assets at fair value	$ -	$ 11,571,382	$ 2,543,453	$ 14,114,835

	Assets at Fair Value Measurements as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 9,270,736	$ -	$ 9,270,736
Guaranteed investment contract	-	-	2,412,082	2,412,082
Total assets at fair value	$ -	$ 9,270,736	$ 2,412,082	$ 11,682,818

5. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the years ended December 31, 2012 and 2011:

	Level 3 Assets Year Ended December 31,	
	2012	2011
	Guaranteed Investment Contrat	Guaranteed Investment Contrat
Balance, beginning of year	$ 2,412,082	$ 1,985,251
Unrealized gains relating to investments sill held at the reporting date	63,587	217,014
Purchases, sales, issuances and settlements (net)	67,784	209,817
Balance, end of year	$ 2,543,453	$ 2,412,082

Unrealized gain/ (losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the range of values for those inputs.

Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed	$ 2,543,453	Assumed proceeds	Minimum Rate (in %)	3%
Investment Contract		at discontinuance	Year End Rate (in %)	3%

6. DELINQUENT TRANSMITTALS

The Company failed to remit to the Plan's Trustee employee contributions from the February, 2012 payroll totaling $39,896 within the period prescribed by Department of Labor regulations. The delay in remitting contributions to the Trustee was due to an employee turnover situation in the payroll department at that time, and the Company has made contributions to the affected participants' accounts to compensate those participants.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company ("ING"). ING is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment management fees and operating expenses charged to the Plan for investments are deducted from income earned on investments and are not separately reflected. Consequently, investment management fees and operating expenses paid to parties-in-interest are reflected as a reduction of investment return for such investments. The average weighted variable fund expense at the end of 2012 was 1%.

The Plan also holds a guaranteed investment contract administered by ING. In addition, loans receivable from participants also reflect party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of investments from the financial statements to the Form 5500:

	December 31,	
	2012	2011
Investment with insurance company at fair value, per the financial statements	$ 2,543,453	$ 2,412,082
Adjustment from fair value to contract value for fully benefit-responsive investment contract	(204,332)	(175,334)
Balance, end of year, per Form 5500	$ 2,339,121	$ 2,236,748

9. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

The determination letter only applied to amendments effective through 2013. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the

9. TAX STATUS (continued)

financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. SUBSEQUENT EVENTS

The Plan administrator has evaluated subsequent events through the date the financial statements were available to be issued (October 7, 2013). The Plan administrator is not aware of any subsequent events that require recognition in the financial statements or disclosures.
