Schedule SB, Part V – Summary of Plan Provisions

Plan Year

January 1 to December 31.

Participation

Hourly-rate employees.

Retirement Benefit

\$10.00 per month times years of service, up to a maximum of 40 years. Effective June 1, 1992, the plan was frozen, and all benefit accruals after that date were eliminated.

Normal Retirement

Normal retirement occurs at age 65.

Early Retirement

Age 62 with 15 years of credited service. This benefit is the normal retirement benefit, reduced by 6% for each year prior to age 65.

Late Retirement

The late retirement benefit is the benefit accrued at the time of actual retirement.

Disability Retirement

Ten years of credited service and total and permanent disablement. The accrued benefit is payable based on service at severance and is payable at age 65. If the participant has completed 15 years of service, a reduced benefit is payable at age 62 or later but is reduced 6% for each year prior to age 65.

Termination Benefits

A participant with five (5) years of continuous service is fully vested in his accrued benefit. The accrued benefit will be payable under the terms for normal or early retirement.

Pre-Retirement Death Benefits

If an active or terminated vested participant dies after vesting, the surviving spouse will receive a benefit equal to 50% of the joint and survivor benefit payable to the participant. Benefits will commence no earlier than when the participant would have attained early retirement eligibility and will be reduced for early commencement.

Forms of Payment

The benefit is payable for the lifetime of the retired participant. The married participant is deemed to have elected a 50% joint and survivor option. This benefit is the actuarial equivalent of the normal retirement benefit.

The following optional forms are also available:

- (a) 10-year Certain and Life
