The net asset value of each of the separate accounts is reported by the fund managers as of the financial statement date based on recent transaction prices, and represents the price at which the Plan would be able to initiate a transaction. NOTES TO FINANCIAL STATEMENTS

X-RITE, INCORPORATED RETIREMENT SAVINGS PLAN

December 31, 2012 and 2011

Note A – Description of Plan

The following description of the X-Rite, Incorporated Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing and 401(k) plan covering substantially all employees of X-Rite, Incorporated and its eligible subsidiaries (Company), the plan sponsor. Eligible employees can become participants in the 401(k) portion of the Plan immediately upon employment and attainment of age 18. Upon participation in the 401(k) portion of the Plan, employees become eligible to receive matching and discretionary contributions from the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 15, 2012, the Company was acquired by Danaher Corporation. Effective December 28, 2012, the Plan was merged into the Danaher Corporation & Subsidiaries Savings Plan (successor plan). Assets of \$46,216,626 were transferred to the successor plan due to the merger.

Contributions

Participants may elect to make contributions to the Plan through payroll deductions from each participant's compensation, as defined, subject to statutory limits. Beginning May 1, 2011, the Plan was amended to add automatic participant deferral contributions equal to 3% of compensation, unless the participant elects otherwise. Effective September 14, 2012, the plan was amended to no longer automatically enroll participants in the Plan. The Plan also allows participants to transfer funds from other employer qualified plans into the Plan.

The Company makes a discretionary matching contribution based on a matching formula approved by its board of directors. For the years ended December 31, 2012 and 2011, matching contributions were equal to 50% of salary deferral contributions that do not exceed 6% of compensation. Matching contributions of \$872,751 and \$836,406 were made for the years ended December 31, 2012 and 2011, respectively. The Company may also make discretionary profit sharing contributions to the Plan. Discretionary contributions of \$52,549 and \$55,992 were made for the years ended December 31, 2012 and 2011, respectively.

NOTES TO FINANCIAL STATEMENTS

X-RITE, INCORPORATED RETIREMENT SAVINGS PLAN

December 31, 2012 and 2011

Note A – Description of Plan (Continued)

Plan Operations

The Company has appointed John Hancock Life Insurance Company (Custodian) to serve as Custodian, an employee of the Company to serve as trustee, and the Company to act as plan administrator. The Custodian is responsible for holding the investment assets of the Plan, executing investment transactions, and making distributions to participants. The plan administrator interprets and communicates the provisions of the Plan, ensures that all government and participant reporting requirements are fulfilled, and approves all distributions from the Plan to participants.

Participant Accounts

Individual accounts are maintained for each participant, with benefits limited to the amount contributed to the participant's account plus or minus any allocation of income, expenses, gains, or losses. Allocations to participant accounts are based on compensation or account balances, as specified by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan allows a participant to self-direct investment transactions associated with separate investment fund options made available by the sponsor.

Vesting

Participants are immediately vested in their salary deferral and employer discretionary contributions plus actual earnings thereon. Participants become fully vested in the company matching contributions and related earnings after three years of service, as defined in the plan document.

Participants who retire at or after age 65 or because of death or disability are automatically 100% vested in their account balances, regardless of years of service.

Loans to Participants

Under certain conditions, a participant may obtain a loan from the Plan. A participant's loan cannot exceed the lesser of \$50,000 or one half of the participant's nonforfeitable interest in the Plan. The loan will bear a reasonable interest rate, be adequately secured, and not exceed a period of five years (ten years if used to acquire a principal residence). Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

X-RITE, INCORPORATED RETIREMENT SAVINGS PLAN

December 31, 2012 and 2011

Note A – Description of Plan (Continued)

Payment of Benefits

On termination of service a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service withdrawals of all or any part of a participant's vested account balance are permitted after attaining age 59½.

Costs and Expenses

Certain custodian fees, trustee fees, transaction fees, and other administrative expenses are paid by the Plan and are based on reasonable and customary rates. Certain other costs and expenses incurred in connection with the operation of the Plan are borne by the Company.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are used to pay expenses of administering the Plan or to reduce Company matching contributions. The balance in the forfeiture account at December 31, 2011 was \$18,976. Forfeitures of \$49,583 and \$10,646 were used to reduce Company matching contributions in 2012 and 2011, respectively.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investments

Investments are reported in the Plan's financial statements at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

X-RITE, INCORPORATED RETIREMENT SAVINGS PLAN

December 31, 2012 and 2011

Note B – Summary of Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Income Recognition

Income from interest and dividends includes capital gains distributions and is recorded as it is earned. Purchases and sales of securities are recorded on a trade date basis. Net appreciation or depreciation of investments is determined using the value at the beginning of the year or purchase price if acquired since that date. Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued.

Note C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

X-RITE, INCORPORATED RETIREMENT SAVINGS PLAN

December 31, 2012 and 2011

Note C – Fair Value Measurements (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets and liabilities in markets that are not active
- other inputs that are observable or can be corroborated by observable market data
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at net asset value (NAV) based on the closing price for underlying securities, reported on the active market on which underlying securities are traded or based on quoted prices of similar assets. The NAV of each of the separate accounts is reported by the fund managers as of the financial statement date based on recent transaction prices, and represents the price at which the Plan would be able to initiate a transaction. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement, and have no unfunded commitments.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1, 2 or 3.

Note D – Investments

The following table presents the fair market values of investments at December 31, 2012 and 2011. Investments that represent 5% or more of the Plan's assets are separately identified.

	2012	2011
Investments at Fair Value:

During the years ended December 31, 2012 and 2011, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$5,375,895 and (\$1,361,689), respectively.

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statements of Assets Available for Benefits.

Note E – Information Certified by Custodian

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2012 and 2011, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

Note F – Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts offered by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the Custodian, as defined by the Plan, for the years ended December 31, 2012 and 2011. Therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan to parties-in-interest for services rendered to the Plan were \$1,800 and \$1,752 for the years ended December 31, 2012 and 2011, respectively. Such fees were based on reasonable and customary rates.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. As noted above, the Plan was merged into the successor plan effective December 28, 2012.

Note H – Tax Status

The Plan obtained its latest determination letter dated March 26, 2012 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
