1. Plan Description

The following description of the Calscience Engineering & Laboratories, Inc. 401(K) Plan (the Plan) only provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - Calscience Engineering & Laboratories, Inc. (the Company) established the Plan, a defined contribution plan, effective January 1, 1997, to provide savings benefits for all eligible employees.

An employee is eligible for participation once he or she has attained the minimum age of 21 and there is no minimum service requirement.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Employer: The matching contributions equals 40% on the first 5% of the participant's compensation, which is deferred as an elective deferral. Matching contributions shall be determined each payroll period.

Employee: Each year, participants may contribute an amount up to 80% of their compensation for the contribution period, subject to annual dollar limits set by the Internal Revenue Service.

Participant Accounts - Each Participant account is credited with an allocation of the Company's contributions, Plan earnings, and forfeitures of terminated participant non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. With respect to employer contributions, a participant becomes 20% vested after two years of service plus an additional 20% for each additional year of qualified service up to a maximum of 100%.

1. Plan Description – (Continued)

Notes Receivable from Participants - Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to 50% of their vested account balance with a maximum loan of $50,000. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with market rates for similar loans.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments as permitted. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. Summary of Significant Accounting Policies

Basis of Accounting - The Plan's accounting records are maintained on the accrual basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Income Recognition - Interest and dividend income are recorded as earned on the accrual basis.

Investment Valuation - The Plan's investments in common/collective trusts and mutual funds are stated at fair value based on quoted market prices. Participant loans are valued at their outstanding balances, which approximate fair value.

Administrative Expenses - All expenses of the Plan are paid by the Company except for investment transaction fees.

Payment of Benefits - Benefits are recorded when paid.

2. Summary of Significant Accounting Policies – (Continued)

Investment Risks and Uncertainties - The Plan provides for investments in various instruments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company evaluated subsequent events through October 7, 2013, the date these financial statements were available to be issued. No significant events occurred subsequent to the balance sheet date and prior to October 7, 2013, that would have a material impact on the financial statements.

3. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions, amend the Plan at any time, and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

4. Investments

Individual investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011 are as follows:

	2012	2011
SSGA S & P 500 Index Fund	$ 0	$775,619
Invesco Stable Asset	734,941	745,511
SSGA Government Money Market Fund	0	788,159
DWS Core Fixed Income Fund	<5%	292,915
SSGA S & P 500 IDX IX	531,395	0
SSGA Cash Series US Govt L	1,013,258	0
Allianzgi NFJ Small Cap Value	270,214	0

4. Investments – (Continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $342,539 as follows:

Mutual funds	$126,295
Common / collective trusts	216,244
	$342,539

5. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administration and tax counsel believe that the Plan is currently designed and being operated in compliance with the qualification requirements of the IRC, and was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Information Prepared and Certified by Trustee

The following information included in the accompanying statements and supplemental schedule was obtained from data that has been prepared and certified as to its completeness and accuracy by the trustee.

	2012	2011
Investments, at fair value:		
State Street Bank	$4,450,775	$3,840,385
Participant Loans:		
State Street Bank	$ 94,827	$ 67,988
Investment Income:		
State Street Bank	$ 53,163	$ 33,335

7. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820 (formerly FAS 157), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tired into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

- Level 1 – Prices are determined using quoted prices in an active market for identical assets or liabilities as of the measurement date.

7. Fair Value Measurements – (Continued)

- Level 2 – Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

- Level 3 – Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of a period), unobservable inputs may be used. Unobservable inputs reflect the funds own assumptions about the factor market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds - Valued at the net asset value (NAV) of shares held by the plan at year end. The applied inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Common/Collective Trusts – Common Collective Trusts are divided into level 2 and level 3 assets. Level 2 assets are valued at net asset value (NAV). The NAV, as provided by the trustee, is used as a practical expedient to estimate the fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. In level 3, the underlying assets are wrap contracts, traditional guaranteed investment contracts, short term securities, and other types of investments. Judgment for the fair value is based on the best information available in circumstances, including expected cash flows and appropriately risk – adjusted discount rates, available observable and unobservable inputs.

7. Fair Value Measurements – (Continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Common Collective Trust	$ 0	$ 1,114,395	$ 734,941	$1,849,336
Mutual Funds	1,588,181	0	0	1,588,181
	$ 1,588,181	1,114,395	734,941	3,437,517

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Common Collective Trust	$ 0	$ 1,116,508	$ 745,511	$1,862,019
