NOTE 1 - DESCRIPTION OF PLAN

The following description of the JST Corporation 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of JST Corporation ("the Company") who have attained the age of 21 and completed three months of service, as defined, with the exception of employees who are members of a collective bargaining agreement or are employed by an affiliated company not located in the United States. Eligible employees enter the Plan on the first day of the month after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute up to 100% of their annual compensation on a pretax basis to the Plan. The Plan also allows participants who have attained age 50 to make catch-up contributions in accordance with Code Section 414(v). Participants may also contribute amounts representing distributions from other qualified retirement plans. Effective April 21, 2009, the Plan was restated to allow for a discretionary match policy. The Company elected to make a matching contribution for 2012 equal to 100% of elective deferrals that do not exceed 3% of deferred compensation. The Company may also elect to contribute an additional discretionary profit sharing contribution to the Plan. There were no profit sharing contributions made for 2012.

Investments: Participants direct the investment of their accounts into various investment options offered by the Plan. Participants are allowed to change the investment of their accounts on a daily basis.

Participant Accounts: Each participant's account is credited with the participant's own contribution and an allocation of the Company's contributions and the Plan's earnings. Allocations are based on participant earnings, contributions, or account balances, as defined. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's vested account.

Retirement: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Vesting: Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in employer contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service and vests at the rate of 20% per year beginning with the participant's second year of credited service.

Forfeitures: Any forfeitures for a given period are segregated into a separate account and are made available to pay plan expenses and then to reduce employer contributions. At December 31, 2012 and 2011, $47,939 and $33,856 of forfeitures were available to pay plan expenses or reduce employer contributions.

Payment of Benefits: Participants are entitled to a distribution of all vested amounts upon termination of employment with the Company in the form of a lump-sum distribution. Participants who terminate service with a vested balance of less than or equal to $5,000 will have their benefits paid as a lump-sum distribution. A participant may elect to receive in-service withdrawals from his or her vested account balance upon certain circumstances including certain cases of financial hardship and the participant's attainment of age 59½.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their 401(k) accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their 401(k) vested account balance. Loan terms are five years except for loans made for the purchase of a primary residence, which may be repaid over a period up to 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined at the time the loan is requested. Principal and interest are repaid through payroll deductions.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with generally accepted accounting principles.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested, and the available assets will be allocated to participants in accordance with the Plan's provisions.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company, the custodian of the Plan. This information has not been audited by independent accountants.

NOTE 5 - INVESTMENTS

The following table presents the fair values of investments that represent 5% or more of the net assets available for benefits at December 31:

	2012	2011
John Hancock Life Insurance Company Pooled Separate Accounts		
Lifecycle 2025 Fund	$ 1,248,210	$ 1,101,460

Money Market Fund	770,823	499,605*

*Less than 5% of net assets; amounts are shown for comparative purposes only.

During 2012, the Plan's investment in pooled separate accounts (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $1,628,051.

NOTE 6 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

(Continued)

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The pooled separate accounts have been categorized in the disclosures that follow as blended long term, blended moderate term, blended short term, aggressive growth, growth, growth and income, conservative and income, based upon the investment composition and strategies of the individual pooled separate accounts. In each of these categories, the majority of the respective underlying assets are invested in a particular type of securities implied by the pooled separate accounts' name. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by they Plan are summarized below.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain fees are paid by the Company for administration of the Plan. Participant loan maintenance fees are paid through the Plan by the individual participants. Notes receivable from participants also reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan invests in shares of pooled separate accounts managed by John Hancock Life Insurance Company (U.S.A) (Hancock). Hancock is the custodian as defined by the Plan and, therefore, these transactions and the Plan's payment of custodian fees to Hancock qualify as party-in-interest transactions.

NOTE 8 - TAX STATUS

The Plan was restated onto a prototype document sponsored by Datair Employee Benefit Systems, Inc., effective April 21, 2009; therefore, the Plan is not required to file for an individual determination letter from the Internal Revenue Service ("IRS"). The prototype document has received a favorable opinion letter from the IRS dated March 31, 2008. Although the Plan has since been amended, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through September 20, 2013, which is the date the financial statements were available to be issued.
