NOTE 1 – DESCRIPTION OF PLAN

The following description of the Tool Flo 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan, which covers all employees of Tool Flo Manufacturing, Inc. (the Company), was established September 1, 1997, as a 401(k) / profit sharing plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The amended and restated provisions of the Plan became effective on March 1, 2010. This restatement was made to conform the Plan to new tax laws and some provisions may be retroactively effective.

Eligibility – Qualifying employees may enter the Plan on the first day of each month of the Plan year after attaining 18 years of age and completing six months of service.

Contributions – Each year, participants may elect to defer from 1% up to 15% of their eligible earnings, not to exceed the maximum dollar amount allowed by law. Participants age 50 or older during the calendar year may also make catch-up contributions. Participants may increase or decrease their contribution percentage or suspend contributions at any pay date. Rollover contributions are permitted from other eligible retirement plans and certain IRAs.

The Company may make a matching contribution to the Plan, although the Company is not required to make this contribution. The Company may also decide to make a non-elective contribution to the Plan.

Participant Accounts – Each participant's account is credited with the participant's contributions, rollovers, employer contributions, investment earnings or losses, cost of investment management expenses, transactional costs, and service charges. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and rollovers plus actual earnings or losses thereon. Vesting in the employer contribution portion of their accounts plus actual earnings or losses thereon is based on years of service, with participants becoming 100% vested at 6 years of credited vesting service. A participant becomes 100% vested in their full account balance immediately due to death, disability, or attainment of age 65.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment securities offered by the Plan. The Plan currently offers a money market fund, collective trust funds, and mutual funds as investment securities for its participants. Participants may modify investment elections, transfer existing account balances, and obtain information regarding their investments each business day.

Note Receivable From Participants – Loans are made on a uniform and non-discriminatory basis. Participants may borrow from their fund accounts a minimum of $500 and up to one-half of their vested account balance not to exceed $50,000, reduced by the highest outstanding loan balance during the previous 12-month period. The loans are adequately secured by the balance in the participant's account and bear interest at rates that are reasonable. Principal and interest payments are paid ratably through payroll deductions over a term not to exceed five years, unless the loan was obtained to acquire a principal residence, which can extend the term.

Payment of Benefits – Upon termination of service due to termination, death, disability, or retirement, a participant may elect to receive either a single lump-sum payment equal to the value of the participant's vested interest in their account or a direct rollover to a qualified plan or retirement account or annuity. The Plan is allowed to automatically rollover a participant's vested account into a qualified IRA if it is more than $1,000, but less than $5,000, the participant is not age 65, and the participant does not make a distribution election. Account balances less than $1,000 will be paid in a single lump-sum payment.

A participant may receive an in-service distribution upon reaching age 59½. Hardship withdrawals are governed by Internal Revenue Service (IRS) regulations and are only permitted under immediate and heavy financial hardship.

Forfeited Accounts – The non-vested portion of a participant's account balance is forfeited upon termination of employment. Forfeited amounts may first be used to pay Plan expenses and then used to offset employer contributions. At December 31, 2012 and 2011, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation or depreciation of investments held at year-end. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants prior to March 15, 2013 and 2012, respectively.

Benefits Paid to Participants – Benefits are recorded when paid. As of December 31, 2012, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Administrative Expenses – The Plan incurs expenses related to general administration and recordkeeping. Certain expenses and accounting and auditing fees relating to the Plan are paid by the Company. Many of the investment funds under the Plan pay fees and incur expenses that may reduce the returns generated by the investment funds.

Recent Accounting Pronouncements – The Plan has implemented all new accounting pronouncements and does not believe that there are any other new pronouncements that have been issued that may have a material impact on the financial statements.

Subsequent Events – The Plan has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- **Level 2** – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.

- **Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money Market Fund – Valued using pricing models maximizing the use of observable inputs for similar securities.

Collective Trust Funds – Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE 4 – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

Investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, *Note 5*, and the supplemental schedule have been certified as accurate and complete by State Street Bank and Trust Company (trustee) as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, under such election, the Company instructed the Plan's independent auditors not to perform auditing procedures with respect to this information, except for comparing such information to the information included in the financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2012 and 2011, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2012	2011
SSGA Cash Series US Govt L*	**$ 248,660**	$ 221,791

* Indicates a party-in-interest.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by a total of $139,170 as follows:

Collective trust funds	$ 64,055
Mutual funds	75,115
Net appreciation in fair value of investments	$ 139,170

NOTE 6 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee. These transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transaction rules under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. The Company pays directly any other fees related to the Plan's operations.

NOTE 7 – PLAN TERMINATION

While the Company hopes and expects to continue the Plan indefinitely, the Company reserves the right to terminate, discontinue making contributions to, amend, or modify the Plan at any time. Upon termination of the Plan, all participants will become 100% vested in their total account balance. The Company will arrange for distributions upon Plan termination as soon as administratively feasible.

NOTE 8 – TAX STATUS

The Plan adopted a prototype standardized profit sharing plan with a cash or deferred arrangement which received its latest opinion letter from the IRS on March 31, 2008, in which the IRS stated that the form of the prototype plan was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has since been amended. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported in the statement of net asset available for benefits.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, to Form 5500:
