NOTE A. DESCRIPTION OF PLAN

Heintzmann Corporation (the Company) sponsors the Heintzmann Corporation 401(k) Plan (the Plan). In November 2012, the Plan changed their trustee to AIG Federal Savings Bank. Before that period, the Plan name was "Heintmann Pinnacle Ascender 401(k) Plan" and had OFI Trust Company as a trustee. At that date, the participants' invested funds from the former investment provider, Ascensus Inc., were converted to similar, comparable funds offered by the new investment provider, Variable Annuity Life Insurance Company (VALIC).

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company regardless of age or time of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 15% of pretax annual compensation (salary deferral), which may not exceed a dollar limit, which is set by law. The dollar limit for 2012 is $17,000. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up salary deferral contributions of up to $5,500 for 2012.

The Company has elected to operate the Plan as a safe harbor 401(k) plan and will make a matching contribution of 100% on participant contributions up to 5% of pretax base compensation a participant contributes to the Plan. The Company may make additional contributions to satisfy certain non-discrimination rules.

The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants, which the participants direct themselves.

Participants may be permitted, at the discretion of the plan administrator, to deposit to the Plan amounts representing distributions from other qualified plans and certain IRA's, which will be designated as a rollover and will be placed in a separate account called a "rollover account."

Additional profit sharing amounts may be contributed at the option of the Company's board. Total contributions are subject to certain annual maximum limitations set by law. The Company, for the years December 31, 2012 and 2011, made no additional profit sharing contributions.

Participant Accounts. Each participant's account is credited with the participant's contribution and the Company's matching contribution and allocations of (a) the Company's additional contributions to satisfy nondiscrimination rules and, (b) any profit sharing contributions and, (c) plan earnings and (losses), and may be charged with administrative expenses on certain transactions. The participants' administration expenses from fees on initial loans were $1,650 in 2012. The Company pays all other operating expenses incurred with the Plan. Participants self-direct all contributions into various investment options offered by the Plan's investment providers, Ascensus Inc. or VALIC. Before the change in providers, the Plan formerly offered twelve Oppenheimer mutual fund investment options for participants through Ascensus, Inc. After the change, VALIC offers the participants over thirty investment options from a variety of providers. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions along with all the Company's matching contributions, plus actual earnings thereon.

NOTE A. DESCRIPTION OF PLAN (continued)

Payment of Benefits. On termination of service, which includes death, disability, retirement, or if the participant is still employed after reaching the age of fifty-nine and a half, a participant may elect to receive: a lump-sum amount equal to the value of the participant's vested interest; a partial withdrawal; rollover their vested interest; installment payments; or may purchase an annuity contract. When the participant is terminated and the value in their account does not exceed $5,000, they are required to take a lump-sum distribution on their entire vested interest. Participants may take financial hardship distributions from their pre-tax deferral contributions, if the hardship meets the definition of hardship defined in the Plan. Hardship distributions are subject to a ten percent penalty if made before the participant has attained age fifty-nine and half.

Notes Receivable from Participants. Participants may borrow from their fund accounts. Each participant may have only one outstanding loan at any time. The loan may be between a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty-percent of their account balance, whichever is less. All the Plan's current loans must be repaid within twelve to sixty months, but the Plan's loans can have a term of up to fifteen years if the loan is used to purchase a principal residence. The loans are secured by the balance in the participant's account. During 2012, the loans bore interest rates ranging from 4.25% to 9.25%, which is stated when the loan is authorized, at the prime rate, as specified in the *Wall Street Journal*, plus one percent. Principal and interest are paid ratably through monthly payroll deductions.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review. Subsequent events were evaluated through October 14, 2013, which is the date the financial statements were available to be issued.

Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants. Participant loans are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating Expenses. All operating expenses of maintaining the Plan are paid by the Company.

NOTE C. INFORMATION PREPARED AND CERTIFIED BY TRUSTEES

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees, AIG Federal Savings Bank and OFI Trust Company, in accordance with section 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in mutual funds appreciated in value by $196,727.

NOTE E. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E. FAIR VALUE MEASUREMENTS (continued)

The fair value measurement accounting literature established a fair value hierarchy that prioritizes the inputs to valuation technique used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority,
Level 2 inputs consist of observable inputs other than quoted prices for identical assets,
Level 3 inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan.

Level 1 and 3 Fair Value Measurements

Level 1, the fair value of mutual funds is based on quoted net asset values in active markets on the shares held by the Plan at year-end. Level 3, the guaranteed investment contract with VALIC is not actively traded and significant other observable inputs are not available. It is measured using an income approach based on current yields of similar instruments with comparable durations. The Plan administrator determines the fair value measurement policies in consultation with the Plan's trustee. These policies are reassessed at least annually.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

December 31, 2012	Fair Value	Level 1	Level 3

Money Market/Cash	707,190	707,190
Total mutual funds	$ 2,315,852	$ 2,315,852

NOTE F. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2012, the Plan entered into a benefit-responsive guaranteed investment contract (annuity) with VALIC. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $4,146. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. The annual effective interest rate at December 31, 2012 was 2.25%. The interest rates are declared monthly with interest credited on a daily basis at an annual effective rate.

Certain events limit the Plan's ability to transact at contract value with VALIC. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

NOTE G. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation, at December 31, 2012 and 2011, of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2012	2011
Net assets available for benefits per the financial statements	$ 3,156,034	$ 2,492,747
Net assets available for benefits per Schedule H of Form 5500	$ 3,156,034	$ 2,492,747

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2012 to Schedule H of Form 5500:

Benefits paid to participants, per the financial statements	$ 123,639
Benefits paid to participants, per Schedule H of Form 5500	$ 123,639

NOTE H. RELATED PARTY TRANSACTIONS

Up to November 21, 2012, the Plan investments were provided through Ascensus, Inc., a related company of OFI Trust Company. OFI Trust Company was the trustee as defined by the Plan and, therefore, all investment transactions qualified as party-in-interest transactions. Ascensus, Inc. was paid $1,650 for administrative expenses in 2012. There were no fees paid by the Plan for investment management services during the year ended December 31, 2012.

NOTE I. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants would become 100% vested in their accounts.

NOTE J. TAX STATUS

The Plan is a master or prototype plan provided by Ascensus, Inc. and VALIC, the form of which is the subject of a favorable opinion letter from the Internal Revenue Service. Although the Plan has been amended since receiving the letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more than likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations on years prior to 2010.

NOTE K. RISKS AND UNCERTAINTIES

The Plan's participants self-direct their investments in an annuity and thirteen mutual funds offered by various mutual fund families. The annuity and mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
