NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The Parts Associates, Inc. Profit Sharing Plan and Trust (the "Plan") was established by Parts Associates, Inc. (the "Company") on January 2, 1963 and was amended and restated effective January 1, 2010. Below is a summary of the provisions of the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan for eligible employees of the Company who have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended (see termination provision).

Contributions

Participants may make voluntary contributions through payroll deductions, on a pretax basis, up to the maximum amount allowed by law. Unless otherwise directed, employees are automatically enrolled with a 3% deferral once eligibility requirements have been met. Participants direct the investment of their contributions into various investments offered by the Plan. The Company does not match employee contributions. The Company, at its discretion, can make discretionary profit sharing contributions to the Plan which are allocated within Plan provisions. No Company profit sharing contributions were made for the years ended December 31, 2012 and 2011.

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, an allocation of the Company contributions and plan earnings. Participants may also be charged with an allocation of any administrative expenses not paid directly by the Company.

Vesting

A participant has a 100% non-forfeitable vested interest in their portion of contributions and earnings thereon. Subject to certain conditions, Company contributions and earnings credited to a participant's account become 100% vested after three years of service (0% in years one and two, 100% in year three). However, Company contributions and the earnings and appreciation thereon credited to a participant's account become fully vested in the event of a participant's death, termination due to disability or attaining the age of 59½.

Payment of Benefits

Distribution of a participant's interest in his or her account can be made upon termination of employment or the attainment of age 70. Participants who have completed 20 years of service and attained age 55 are eligible to take an in-service distribution from their pre-March 31, 2003 account balance. Distributions can be made in a lump sum payment or quarterly installments over a period up to ten years.

Administrative Expenses

Administrative expenses are paid for by the Company or the Plan, at the Company's discretion.

Note 1. Description of Plan (Continued)

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$11,381 and \$114,677, respectively. During 2012, \$114,677 was allocated among participants eligible to receive a Company contribution in accordance with Plan provisions.

Termination Provision

During December 2012, the Plan Sponsor sold substantially all of the assets of the Company. As of the date of the sale, the employees were terminated and the Plan Sponsor terminated the Plan pending approval from the Internal Revenue Service. As a result of the Plan termination, participants have become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. While the Plan has been terminated, management has determined that there is no significant difference between the accrual basis and the liquidation basis of accounting at December 31, 2012.

The Company has evaluated subsequent events through October 11, 2013, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of the money market fund consist of a short-term investment fund that maintains daily liquidity and has a constant value of \$1.00 and is classified as a Level 1 investment. The shares of mutual funds are valued at quoted market prices in active markets for identical investments, and are classified as Level 1.

The Key Guaranteed Portfolio Fund (the "Fund") is valued at contract value as determined by Great-West Trust Company, LLC ("Great-West"), which approximates fair value, and represents contributions plus interest at a specified rate, less participant withdrawals and fees. The Fund is classified as Level 3, as there are no quoted prices or other observable inputs for pricing. Accordingly, the Plan does not use separate quantitative information to value the contract. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. The investment is classified as Level 3.

Investments in the Fund are reported at contract value as determined by Great-West. All transactions within this contract are executed at contract value including full liquidation of the Fund. Though this qualifies as a benefit-responsive investment, Great-West has indicated that, because of the short duration of guaranteed interest rates (reset every quarter), there is no material difference between contract value and fair value nor a difference between the crediting interest rate and the average earnings yield. At December 31, 2012, the crediting interest rate was reset, therefore, Great-West has determined that the contract value and fair value of the Fund were the same, and no adjustment was recorded at year end.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

As defined by accounting principles generally accepted in the United States of America, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment as well as the adjustment of the fully benefit-responsive investment from fair value to contract value (if applicable). The statements of changes in net assets available for benefits are prepared on a contract value basis.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Fund at December 31, 2012 and 2011 was \$2,645,102 and \$-0-, respectively. The crediting interest rate is based on several factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula.

The average yield of the common/collective trust fund during 2012 based on actual earnings was 1.45%. The average yield of the common/collective trust fund during 2012 based on the interest rate credited to participants was 1.45%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Purchases and sales of securities are recorded on a trade date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3. Unaudited Information

The investment information contained in the statements of net assets available for benefits, the investment income and net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits and the supplemental schedule of assets (held at end of year) were derived from information certified by PNC Bank, N.A., the Plan's trustee as of December 31, 2011 and for the period January 1, 2012 through September 30, 2012, and Great-West Trust Company, LLC, the Plan's trustee from October 1, 2012 through December 31, 2012, as complete and accurate in accordance with ERISA rules and regulations, and was not audited by independent auditors.

The fair market value of individual assets that represent 5% or more of the Plan's net assets is as follows:

	<u>2012</u>	<u>2011</u>
Great-West Key Guaranteed Portfolio Fund	\$2,645,102	**
PNC Government Money Market Fund	**	\$3,655,771

** Not an investment option at the respective year-end

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs in which little or no market exists.

The methods described in Note 2 above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There are no changes in the methodologies used from 2011 to 2012. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	<u>Guaranteed Portfolio Fund</u>
Balance, beginning of year	\$ -
Interest earned	9,090
Purchases	2,642,781
Sales	<u>(6,769)</u>
Balance, end of year	<u><u>\$2,645,102</u></u>

Note 5. Party-in-Interest Transactions

Certain investments were managed by PNC Bank, N.A. PNC Bank, N.A. was the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Federal Income Tax Status

The Plan uses a prototype document which has obtained a determination letter from the Internal Revenue Service ("IRS"), in which the IRS stated that the basic prototype document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended after the prototype was adopted, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, it believes that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2012, the Plan's tax years from 2009 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 7. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
