Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the financial statements and supplemental schedules of the Pollock Retirement Plan (the "Plan") as of December 31, 2012 and 2011, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Basis for Disclaimer of Opinion

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the year ended December 31, 2012 and 2011, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion of these financial statements.

Other Matters

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedules of Assets (Held at End of Year), and Reportable Transactions which is the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulation

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Pollock Retirement Plan (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was formed January 1, 1972 to provide retirement and incidental benefits to covered employees of Pollock Investments, Inc. (the “Company”). The Plan is a defined benefit plan that covered all employees of the Company whose benefits were not subject to collective bargaining. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employees participated in the Plan upon attaining the age of 21 years and completion of six months of eligible service. Participants were fully vested with respect to their contributions and became fully vested in the Company’s contributions after five years of vesting service. No new employees could enter the Plan after July 31, 2005.

Expenses incurred in the administration of the Plan are paid by both the Company and the Plan.

Normal Retirement Benefit

The normal retirement age is 65 years. Normal retirement benefits are payable monthly for life and commence at normal retirement date, subject to formulas and limitations set forth in the Plan. Benefits were frozen effective July 31, 2005. No compensation earned after July 31, 2005 shall be considered in the determination of benefits.

Minimum Benefit

In no event will a participant receive less as a monthly pension than the amount which can be provided by his contributions to the plan, with interest credited at the rate of 4% per annum through 1975, 5% per annum from 1975 through 1987 and 120% of the applicable Federal mid-term rate to date of termination and at Pension Benefit Guaranty Corporation (“PBGC”) rates from date of termination to the participant’s normal retirement date.

Early Retirement Benefit

A participant may elect early retirement after attainment of the age of 55 years and ten years of vesting service. Early retirement benefits are payable for life and are deferred to the normal retirement date at which time they are reduced by the ratio of accrued benefit service to anticipated benefit service. At the participant’s request, a reduced benefit may be paid beginning upon actual retirement. The reduction is 1/15 for each of the first five years and 1/30 for each of the next five years that the starting date of the benefit precedes normal retirement date.

Late Retirement Benefit

The benefit is computed as for normal retirement, considering benefit service and compensation to actual retirement date, with a minimum of the actuarial equivalent of the benefit payable at normal retirement.

Disability Benefit

Participants with ten or more years of vesting service are eligible for disability benefits after termination for reason of disability. Benefits are payable for life, commencing at normal retirement date, if the participant is continuously disabled until that time. The benefit is the normal retirement benefit, considering compensation to the date of disablement and benefit service to the normal retirement date. Benefit service is given for the period of disability. Effective July 31, 2005, any benefit accruals under the disability provisions of the Plan were eliminated.

Deferred Vested Benefit

A participant who terminates for reasons other than death or retirement with five or more years of eligible service is eligible for a benefit, deferred to normal retirement date, determined as for early retirement. At the participant’s request, a benefit reduced in the same manner as for early retirement may be paid after age 55, but prior to normal retirement date.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (Continued)

In-Service Death Benefit

The surviving spouse of an active employee who had completed five years of vesting service on the date of death shall be eligible for an in-service benefit provided the employee had been married to the surviving spouse for at least 12 months immediately preceding the employee's death. The monthly annuity shall be determined as though the employee had terminated employment on the date of his death and elected to receive the qualified 50% survivor pension with payments commencing at the earliest date permissible and with his death occurring the day after commencement.

Death Benefit After Retirement But Before Commencement of Payments

If a participant dies after early retirement but prior to commencement of payments, then, provided the participant was continuously married for at least one year immediately preceding his death, his surviving spouse will receive a pension for life. The benefit is 50% of the pension the employee would have received had he taken early retirement on the date of his death with the 50% joint and survivor option.

Death Benefit After Normal Retirement, Disability Retirement or After Commencement of Early Retirement

Unless an employee with spousal consent makes an election to the contrary prior to his date of death, the death benefit will be paid as under the qualified joint and survivor option. In the event that an employee rejected the qualified joint and survivor option or if he was not married on his date of death, no death benefit shall be paid to or for him unless he elected an optional form of payment.

Death Benefit After Deferred Vested Retirement Before Commencement of Payments

If an employee terminates with a deferred vested benefit and subsequently dies prior to commencement of benefits, the surviving spouse of such employee shall be eligible to receive a monthly annuity determined as though the employee had survived to the earliest date his pension could commence and elected to receive the qualified joint and survivor option, with his death occurring on the day after commencement.

Return of Contributions with Interest

If a participant terminates before being eligible for a pension, a benefit is payable equal to the Contribution Accumulation. This amount is the participant's contributions to the Plan, plus interest credited at the rate of 4% per annum through 1975, 5% per annum from 1975 through 1987 and 120% of the Federal mid-term rate to date of refund.

If, upon payment of all benefits to a participant and his beneficiary, the total of the benefits paid is less than the Contribution Accumulation, then the excess is paid to the beneficiary or the estate.

If a participant terminates while eligible for a Deferred Vested pension, he may receive his Contribution Accumulation, and any subsequent benefit will be reduced.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies consistently used in the preparation of the Plan's financial statements.

Method of Accounting

The financial statements are prepared under the modified cash basis of accounting. Accordingly, income and the related assets, except for employer contributions, are recognized when received rather than when earned and expenses, including benefit payments, are recognized when paid rather than when the obligation is incurred.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchase and sales of securities are recorded on the trade date. Gains or losses on sales of securities are based upon the average cost of securities. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Long Bond Fund ("LBF") is a common collective trust fund with underlying investments in bond funds and is valued at fair value and then adjusted by the issuer to contract value. The investment objective of the LBF is to maximize total return through investment in a diversified portfolio of long duration fixed income securities. Fair value of the LBF is determined by the last available bid price on the bonds held as determined by an independent pricing service. Individual participant accounts invested in the LBF are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the LBF but have an interest therein represented by units valued daily. Participants may withdraw from the fund at the stated unit value at the close of business on any business day. Issuances and redemptions of units are made on such days based upon the net asset value per unit. The LBF earns interest income which is automatically reinvested in additional units. Fees are charged by the LBF based on 0.45% of daily net assets and this fee is accounted for within the net asset value. Generally, contributions to and withdrawal payments from the LBF are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

The Real Estate Fund ("REF") is a collective trust fund with underlying investments in real estate investment trusts and is valued at fair value and then adjusted by the issuer to contract value. The investment objective of the REF is to maximize total return through investment in public real estate securities with a combination of above average income and long term growth of capital. Investment in the REF involves certain unique risks as valuations are dependent upon management skills, are not diversified and are subject to heavy cash flow dependency, default by borrowers and self-liquidation. The REF is also subject to interest rate risks.

Fair value of the REF is determined by the value of the individual investments as follows:

- Equity securities are valued at the official closing price or the last sales price on the exchange on which they are primarily traded or the last quoted bid price for securities in which there were no sales during the day.
- Securities listed on the NASDAQ National Market and NASDAQ Small Cap Market for which reliable market quotations are available are valued at the official closing price, or if there is no official closing price on that day, at the last sales price.
- Investments in open-end investment companies are valued at such investment company's current day closing net asset value per share and may be redeemed daily. When valuations are not readily available, securities will be valued at their fair market value as determined by the advisor.

Individual participant accounts invested in the REF are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the REF but have an interest therein represented by units valued daily. Participants may withdraw from the fund at the stated unit value at the close of business on any business day. Issuances and redemptions of units are made on such days based upon the net asset value per unit. Fees are charged by the REF based on 0.75% (for unbundled units) to 1.35% (for bundled units) of daily net assets and this fee is accounted for within the net asset value. Generally, contributions to and withdrawal payments from the REF are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

All other collective funds held (the “funds”) are common collective trust fund with underlying investments in equity securities and are valued at fair value. The investment objective of the funds is shown by the individual fund names and the funds are designed to maximize total return through investment in a diversified portfolio of equity securities. Fair value of the funds are determined by the valuations of the investments in equity securities which are valued at the official closing price or the last sales price on the exchange on which they are primarily traded or the last quoted bid price for securities in which there were no sales during the day. Individual participant accounts invested in the funds are maintained on a unit value basis.

Participants do not have beneficial ownership in specific underlying securities or other assets in the funds but have an interest therein represented by units valued daily. Participants may withdraw from the fund at the stated unit value at the close of business on any business day. Issuances and redemptions of units are made on such days based upon the net asset value per unit. The funds earn dividend and interest income which is automatically reinvested in additional units. Fees are charged by the funds are based on a range of 0.30% to 0.90% of daily net assets and this fee is accounted for within the net asset value. Generally, contributions to and withdrawal payments from the funds are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants’ accounts are charged or credited with the number of units properly attributable to each participant.

All investment funds are included in the statements of net assets available for benefits at fair value, which is considered to materially approximate contract value.

Net Appreciation/Depreciation in Fair Value of Investments

Net appreciation /depreciation in fair value of investments include realized and unrealized investment gains and losses.

Brokerage fees, if any, are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Administration

Under the terms of the trust agreements between the Trustee and the Company, the Trustee manages a trust fund on behalf of the Plan. Accordingly, the Trustee has been granted certain discretionary authority concerning investment and management powers.

Use of Estimates

In preparing financial statements under the basis of accounting used by the plan, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

3. FUNDING POLICY

As of January 1, 1992, employees are not required nor permitted to make contributions under this Plan. There were no employees' accumulated contributions at January 1, 2012 and 2011. Contributions to the Plan are made by the Company to the Trustee in amounts, as determined by consulting actuaries using the entry age actuarial cost method, sufficient to pay all benefits under the Plan. The Company made contributions of \$538,571 and \$479,317 for the years ended December 31, 2012 and 2011, respectively, which was in compliance with the minimum funding requirements of ERISA.

4. PLAN TERMINATION

The Plan was amended and restated effective January 1, 1992. Benefits under the Plan as it existed prior to its amendment and restatement were frozen as of December 31, 1991. As a result of the July 31, 2005 amendment, no further credit for service years is available to Participants after July 31, 2005. Benefits under the amended and restated Plan are now funded solely through Company contributions as determined from time to time by the Company, based on actuarial advice. Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2012 and 2011, that monthly ceiling, which is adjusted periodically, was \$4,653 and \$4,500, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For young annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits after payment of administration, termination, and liquidation expenses in the order indicated:

- a) Benefits attributable to employee contributions.
- b) Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or those employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan, subject to certain limitations.
- c) Other vested benefits insured by the PBGC up to the applicable limitations.
- d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- e) All non-vested benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

5. INCOME TAX STATUS

The Company has received a favorable determination letter from the United States Internal Revenue Service ("IRS") dated December 7, 1993 stating that the Plan is qualified under the provision of Section 401(a) of the United States Internal Revenue Code (the "Code") and therefore is exempt from taxation. The Plan has been amended subsequent to receiving this determination letter however the Plan Committee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

5. INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. ACTUARIAL ASSUMPTIONS AND CALCULATIONS

The significant actuarial assumptions used in the valuations of the Plan as of and for the years ended December 31, 2012 and 2011 are as follows:

- Life expectancy of active participants and nondisabled pensioners - life expectancy of active participants: applicable mortality table as set forth in Revenue Ruling 2001-62 and 1983 Group Annuity Mortality Table for 2012 and 2011, respectively;
- Disabled pensioners - 1965 Disabled Railway Employees Select Mortality Table (after July 31, 2005 this is no longer applicable);
- Retirement - Age 65, or present age if greater.

	At January 1, 2012	At January 1, 2011
Investment return (per annum, compounded annually)	8.00%	8.00%
Discount rate	3.90%	4.50%

Employee turnover and disability assumptions (at graduated rates) and an earnings progression assumption are also used for the valuation.

The actuarial present values of accumulated plan benefits at January 1 are as follows:

	2012	2011
Vested benefits:		
Active participants	\$ 2,266,629	\$ 2,387,951
Participants with deferred benefits	1,845,777	1,685,845
Participants receiving benefits	<u>3,235,167</u>	<u>3,039,025</u>
	7,347,573	7,109,821
Non-vested benefits	-	-
Total actuarial present value of accumulated plan benefits	<u>\$ 7,347,573</u>	<u>\$ 7,109,821</u>
Actuarial present value of accumulated plan benefits at beginning of year	\$ 7,109,821	\$ 7,011,214
Increase for interest due to decrease in discount period	551,224	543,122
Change in actuarial assumptions (change in mortality tables)	13,453	13,587
Benefits accrued and actuarial experience	120,739	(4,996)
Benefits paid	<u>(447,664)</u>	<u>(453,106)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 7,347,573</u>	<u>\$ 7,109,821</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Pollock Retirement Plan

7. INVESTMENTS

Individual investments in common collective trusts that are 5% or more of the fair value of net assets available for plan benefits are as follows as of December 31,:

	2012	2011
High quality bond fund	\$ 474,165	\$ 450,868
High yield bond fund	761,468	660,744
Core bond fund	792,936	732,688
Long bond fund	1,277,401	1,274,019
International equity fund	984,055	549,965
Large cap value fund	952,560	904,785
Large cap growth fund	886,419	860,346
Real estate fund	406,758	352,596

During the years ended December 31, the Plan's investments appreciated in value as follows:

	2012	2011
Bond funds	\$ 278,696	\$ 309,382
Equity funds	500,622	(108,219)
Real estate fund	53,913	30,774
	<u>\$ 833,231</u>	<u>\$ 231,937</u>

8. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate as of and for the years ended December 31,:

	2012	2011
Investments at fair value:		
Bond funds	\$ 3,305,970	\$ 3,118,319
Equity funds	3,638,792	3,038,267
Real estate fund	406,758	352,596
Total investments	<u>\$ 7,351,520</u>	<u>\$ 6,509,182</u>
Investment income:		
Net appreciation in fair value of investments	<u>\$ 833,231</u>	<u>\$ 231,937</u>

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedules.

9. FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Pollock Retirement Plan
NOTES TO FINANCIAL STATEMENTS

9. FAIR VALUE OF INVESTMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Common collective trusts: Valued at the net asset value of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31,:

10. REPORTABLE TRANSACTIONS

There were no investments purchased and sold in the year, no leases in default or classified as uncollectable or non-exempt transactions during the years ended December 31, 2012 and 2011 that require disclosure under DOL's Rules and Regulations.

11. NEW ACCOUNTING PRONOUNCEMENTS

In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in GAAP and IFRSs (ASU 2011-04). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan's management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements. The adoption of this guidance did not have a significant impact on the Plan.

12. SUBSEQUENT EVENTS

The Pension Committee has evaluated subsequent events through on October 8, 2013, the date the financial statements were available to be issued.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

<u>Effective Date</u>	January 1, 1972.
<u>Eligibility</u>	January 1 st or July 1 st coinciding with or following attainment of age 21 and 6 months of eligibility service. No new participants will enter the plan after July 31, 2005.
<u>Eligibility Service</u>	A year of Eligibility Service is credited for each computation period with at least one hour of service. The initial computation period is the 12-month period beginning with date of hire. Thereafter, the computation period is the Plan Year.
<u>Benefit Service</u>	<p>Benefit Service is calculated using elapsed time. All years of benefit service are taken into account while an eligible employee except service prior to January 1, 1972.</p> <p>No Benefit Service will be earned after July 31, 2005.</p>
<u>Vesting Service</u>	Vesting Service is calculated using elapsed time.
<u>Base Compensation</u>	The monthly compensation payable to an employee is based on total W-2 pay, excluding bonus payments. No compensation earned after July 31, 2005 shall be considered in the determination of benefits.
<u>Average Base Compensation</u>	The highest average Base Compensation of any five consecutive plan years preceding termination.
<u>Deferred Retirement Benefit</u>	The greater of (i) the actuarial equivalent of the normal retirement benefit, or (ii) the monthly benefit based on the normal retirement benefit formula using benefit service and compensation through late retirement date.
<u>Early Retirement Benefit</u>	Eligible at age 55 with 10 years of Vesting Service. The Early Retirement Benefit is the accrued Normal Retirement Benefit reduced 1/180th for each of the first 60 months and 1/360th for each additional month that commencement precedes age 65.
<u>Disability Benefit</u>	Effective July 31, 2005, any benefit accruals under the disability provisions of the plan were eliminated.
