Note 1. Description of Plan

The following description of the Clinical Research Advantage Holdings, LLC 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution savings plan established for the benefit of substantially all employees of Clinical Research Advantage, Inc. and Heartland Health Therapy, Inc. (collectively, the "Company"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility:

Employees of the Company who have reached at least twenty-one years of age are eligible to contribute to the Plan immediately following their eligibility date. Employees are eligible to receive matching and profit sharing contributions after one year of service. Any employee who was an active participant in the Plan at any time during the pay period subsequent to meeting the service requirement shall receive a safe harbor matching contribution from the Company for that pay period. In addition, any employee of Clinical Research Advantage, Inc. who was an active participant in the Plan at any time during the pay period subsequent to meeting the service requirement shall receive a discretionary matching contribution in addition to the safe harbor contribution for that pay period.

Contributions:

Participants may make salary deferral contributions up to 90% of total compensation, as defined by the Plan, not to exceed $17,000 for 2012.

The Plan qualifies as a safe harbor plan as described by IRC sections 401(k)(12) and 401(m)(11). Each pay period, the Company must make safe harbor matching contributions of 100% of participants' salary deferral contributions up to 4% of the participants' compensation, as defined by the Plan. In addition, each year, Clinical Research Advantage, Inc. may elect to make discretionary matching contributions and/or discretionary profit sharing contributions. Clinical Research Advantage, Inc. elected a discretionary matching contribution of 100% of participants' salary deferral contributions in excess of the safe harbor matching contributions up to 6% of the participants' compensation, as defined by the Plan, for the year ended December 31, 2012. No discretionary profit sharing contributions were made during the year ended December 31, 2012.

Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

All contributions are subject to certain limitations.

Note 1. Description of Plan (Continued)

Participant accounts:

Each participant's account is credited with the participant's salary deferral contribution and allocations of the Company's contributions, if applicable, and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options:

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time.

Vesting:

Participants are immediately vested in their salary deferral contributions and Company safe harbor matching contributions plus actual earnings. The portion of the participants' accounts attributable to Clinical Research Advantage, Inc.'s discretionary contributions plus the actual earnings become 20% vested after one year of credited service, as defined by the Plan, and continues to vest at the rate of 20% for each successive year of service until 100% vested after five years of service.

Forfeitures:

Non-vested account balances are forfeited by the Plan participant upon termination, as defined in the Plan. In addition, forfeited accounts shall be used first to pay Plan expenses and then to reduce the Company's contributions. At December 31, 2012 and 2011, the balance of forfeited non-vested accounts totaled $10. During the year ended December 31, 2012, the value of forfeited non-vested accounts used to pay Plan expenses or reduce the Company's contributions was $4,327. Participants who become re-employed by the Company and fulfill certain requirements, as defined in the Plan, shall become eligible to have a previously forfeited account balance reinstated.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which is commensurate with local prevailing rates. Loan terms are up to five years or thirty years if used to purchase a principal residence. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of Plan (Continued)

Payment of benefits:

On termination of service due to death, retirement, or employment termination, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment or annuity payments. If the total benefit is $1,000 or less and the participant does not make an election, the entire amount may be paid in a lump-sum distribution at the discretion of the Plan Administrator. If the total benefit is between $1,000 and $5,000 and the participant does not make an election, the entire amount may be automatically rolled into IRA at the discretion of the Plan Administrator. In addition, participants may elect to receive benefits in the event of financial hardship or at any time after attainment of their retirement age, as defined by the Plan.

Administrative expenses:

Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its discretionary contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their entire account.

Note 2. Summary of Significant Accounting Policies and Use of Estimates

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies and Use of Estimates (Continued)

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 3. Investments

The following table presents the fair value of the participant-directed investments representing more than 5% of the Plan's net assets as of December 31:

Description of Investment	2012	2011
MainStay Large Cap Growth Fund – Class I	$ **895,634**	$ 674,567
BlackRock Equity Dividend Fund – Institutional Class	**514,246**	417,474
Thornburg International Value Fund – Class R4	**420,089**	310,311
Franklin Mutual Global Discovery Fund – Class Z	**322,363**	240,796
Janus Balanced Fund – Class I	**268,851**	205,877
American Century One Choice 2035 Portfolio – Institutional Class	**211,341**	*

* Investment individually represents less than five percent of net assets.

The Plan's mutual fund investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by $248,169 during the year ended December 31, 2012.

Note 4. Information Certified and Provided by the Trustee

The financial statements and supplemental schedule include a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that was prepared by or derived from information provided by the trustee, State Street Bank and Trust Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the assets.

The trustee also certified to the completeness and accuracy of $248,169 of net appreciation in fair value of investments and $88,146 of dividends for the year ended December 31, 2012.

Note 5. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Common/collective trust: Valued based on the net asset value of shares of the common collective trust held by the Plan at year end. The NAV is based upon the fair value of the underlying investments comprising the trust.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

Note 5. Fair Value Measurements (Continued)

Fair value estimated using net asset value per share:

The following table sets forth additional disclosures of Plan investments whose fair value is estimated by using NAV as a practical expedient as of December 31, 2011:

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust:				
SSgA Cash Series U.S. Government Fund – Class L (a)	$ 89,754	$ -	Daily	None
Total common/collective trust at fair value	$ 89,754	$ -		

(a) The objective of the fund is to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per unit NAV, by investing in U.S. government securities and repurchase agreements collateralized by U.S. government securities.

Note 6. Related Party Transactions

Certain Plan investments at December 31, 2011 are units of common/collective trusts managed by State Street Global Advisors, a division of State Street Bank and Trust Company. State Street Bank and Trust Company is the Plan's trustee and therefore, these transactions qualify as party-in-interest transactions.

Note 7. Tax Status

Effective January 1, 2012, the Plan adopted a prototype plan sponsored by Automatic Data Processing ("ADP"). The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management evaluated tax positions taken by the Plan and concluded that as of December 31, 2012 and 2011, there were no uncertain tax positions that require adjustment to or disclosure in the financial statements. The Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Note 8. Subsequent Event

Plan management has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued. During this period, the Board of Directors of Clinical Research Advantage, Inc., as permitted by the plan document, made the decision to merge Radiant Research, Inc. 401(k) Plan into this Plan effective January 1, 2014. There are not expected to be any significant changes in operation of the Plan.
