INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of the InfoLogix 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined-contribution savings plan that covers all full-time employees of InfoLogix, Inc. (the "Company"), who attained 21 years of age. Effective upon the close of business on December 31, 2011, the Plan sponsor amended the Plan so that no additional contributions would be made to the Plan, no new participants would be eligible to participate in the Plan, and all participants with account balances that had not incurred a five-year break-in-service became 100% vested. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Prior to December 31, 2011, an employee who had attained 21 years of age became eligible to enter the Plan on the first day of employment. The custodian and recordkeeper of the Plan is Principal Trust Company.

On January 18, 2011, the Company was acquired by Stanley Black & Decker.

[2] Contributions:

Effective upon the close of business on December 31, 2011 contributions are no longer permitted by the Plan. Prior to December 31, 2011, participants could have contributed up to 100% of annual compensation, as defined by the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Elective deferral contributions were limited as needed to meet nondiscrimination tests, and could not exceed statutory limitations. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions to the Plan were discretionary. Participants directed the investment of participant and employer contributions. During 2012, there was a corrective contribution for \$630 that was received into the Plan and is reflected on the Statement of Changes in Net Assets Available for Benefits.

[3] Participant accounts:

During 2012 each participant's account is credited with the Plan earnings, and charged with an allocation of administrative expenses. Prior to December 31, 2011, each participant's account was credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[4] Vesting:

Effective upon the close of business on December 31, 2011, all participants with account balances that had not incurred a five-year break-in-service became 100% vested in employer contributions. Prior to December 31, 2011, participants were immediately fully vested in their elective deferral contributions, rollover contributions and earnings thereon. Participants vested in employer contributions in increments of 20% for each year of service, and became fully vested after five years of service, on their normal retirement date, upon death or total disability.

INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. Each loan is secured by the balance in the participant's account and bears interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rate on outstanding loans ranges from 5.25% to 10% at December 31, 2012 and 2011. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the document.

[6] Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount or life annuity equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant with a vested balance less than \$1,000 will receive a lump-sum payment, and a participant with a vested balance between \$1,000 and \$5,000 will have the balance rolled into an IRA. Hardship withdrawals are available in accordance with Internal Revenue Service guidelines.

[7] Forfeitures:

Forfeited non-vested accounts are used to pay Plan expenses or used to offset employer contributions. During the year ended December 31, 2012, forfeitures of approximately \$27 were used to pay Plan expenses. Forfeited non-vested accounts available at December 31, 2012 and 2011 were approximately \$209 and \$202, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

[2] Subsequent events:

The Plan has evaluated subsequent events through October 10, 2013, the date the financial statements were available to be issued.

[3] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[4] Payment of benefits:

Benefits are recorded when paid.

INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Plan expenses:

Substantially all of the expenses of the Plan are paid by the Plan sponsor. The remaining expenses are paid by the Plan, which include loan and administrative expenses.

[6] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could vary from those estimates.

[7] Accounting changes:

In 2012, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04), effective for Plan years beginning after December 15, 2011. ASU 2011-04 amends Accounting Standards Codification ("ASC") 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRSs"). Adoption of ASU 2011-04 had no material effect on the financial statements.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Principal Trust Company has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the statement of changes in net assets available for benefits for the year ended December 31, 2012, and the supplemental schedule of assets (held at end of year) as of December 31, 2012.

NOTE D - INVESTMENTS

NOTE D - INVESTMENTS (CONTINUED)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts	\$ 397,020
Guaranteed interest account	<u>(22)</u>
	<u>\$ 396,998</u>

NOTE E - FAIR VALUE MEASUREMENTS

The FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts – Valued at the net asset value, as a practical expedient, based on the market value of the underlying investments. The net asset value is not a publically quoted price in an active market. The pooled separate accounts are comprised primarily of balanced and equity mutual funds.

Guaranteed investment accounts – The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, a variety of factors are considered, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

<u>Level 3 Assets for the Year Ended December 31, 2012</u>	
	<u>Guaranteed Investment Account</u>
Beginning balance	\$ 85,426
Unrealized gains relating to assets still held as of December 31, 2012	(22)
Interest credited	641
Purchases	1,576
Sales	<u>(49,997)</u>
Ending balance	<u>\$ 37,624</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE F - GUARANTEED INTEREST ACCOUNTS

The Plan entered into various guaranteed interest account contracts with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The interest rate average ranges from 0.10% to 3.98%, with maturity dates through December 2016 for Plan year ended December 31, 2012. The average rate of return was 1.30% for the year ended December 31, 2012.

INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE F - GUARANTEED INTEREST ACCOUNTS (CONTINUED)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment. However, charges may apply at the participant account level for transfers to other investments and for early withdrawal of account balances. As a result, these guaranteed interest accounts do not meet the definition of fully-benefit responsive investments, and are therefore recorded at fair value. Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. There are no unfunded commitments.

NOTE G - TAX STATUS

On March 31, 2008, the Internal Revenue Service has determined that the prototype adopted by the Plan as then designed is in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE H - RELATED PARTY TRANSACTIONS

Certain Plan investments are pooled separate accounts and a guaranteed investment contract managed by Principal Trust Company. Principal Trust Company is also the custodian for certain investments of the Plan and, therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were \$461 for the year ended December 31, 2012.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risk related to the financial strength of Principal Trust Company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2012, may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

INFOLOGIX 401(k) PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE K - DELINQUENT PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2011, the Company did not remit certain participant contributions to the Plan on a timely basis, as defined by the U.S. Department of Labor's Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. The untimely remittances identified on the schedule of delinquent participant contributions, which totaled \$15,348, are being self-corrected by having the employer make contributions to the Plan in order to compensate participants for lost investment gains that resulted from the delay in depositing the participant contributions.
