INDEPENDENT AUDITORS' REPORT

Administrative Committee of the
KS Industries, LP 401(k) Plan
Bakersfield, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of KS Industries, LP 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2012, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

KS INDUSTRIES, LP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the KS Industries, LP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution safe harbor plan sponsored by KS Industries, LP covering all full-time employees of Ken Small Construction of Wyoming, Inc., KSI Engineering, Inc., KS Industries, LP, KS Fabrication & Machine, Inc., and KS Industries, LLC (the "Companies") who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Companies' Administrative Committee (the "Committee"), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Companies' Board of Trustees.

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participant contributions cannot exceed $17,000 for the calendar year ending December 31, 2012. Under the catch-up provisions, eligible participants who have attained age 50 by year-end can contribute an additional $5,500 for the calendar year ending December 31, 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Companies contribute safe harbor matching contributions of 100% of the first 3% of base compensation and 50% of the next 2% of base compensation that a participant contributes to the Plan. Additional discretionary contributions may be contributed at the option of the Companies. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently has 22 mutual funds and a guaranteed interest account as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions, the Companies' match, and allocations of the Companies' discretionary contributions, and plan earnings, and is charged with an allocation of administrative expenses. Allocations of the Companies' discretionary contributions are based on participant compensation. Allocations of plan earnings and administrative expenses are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants' contributions and safe harbor matching contributions plus actual earnings are 100% vested immediately. The Companies' discretionary contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	25%
2	50%
3	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at the Prime Rate on the date of the loan plus 1%. Loan payments are made through payroll deductions, and must be paid back within five years unless the loan is used for the purchase of a principal residence.

Payment of benefits - Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over the life of the participant, participant and spouse, or designated beneficiary. Upon termination due to death, a participant's vested account balance will be distributed to the participant's beneficiary as soon as practicable. If the value of a participant's vested benefit is $5,000 or less, a lump-sum payment will be made to the participant.

Forfeited accounts - Any portion of a participant's account, which is not vested upon separation from service, is forfeited. The Plan has elected to first use forfeitures to reduce employer contributions and then to pay plan expenses. At December 31, 2012 and 2011, forfeited nonvested accounts totaled to $0 and $1, respectively. The Plan used forfeitures in the amount of $534 and $13,111 to reduce employer contributions for the years ended December 31, 2012 and 2011, respectively.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(2) Summary of significant accounting policies (continued)

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncements - The following new accounting pronouncements were adopted during year ended December 31, 2012:

Fair value measurements - In May 2011, the Financial Accounting Standards Board ("FASB") issued guidance which amends Accounting Standards Codification ("ASC") 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Companies' Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Companies and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

(2) Summary of significant accounting policies (continued)

Recordkeeping services are allocated to participants' accounts and are also included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Reclassification - Certain items from the 2011 financial statements have been reclassified to conform with the 2012 presentation.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2012	2011
BlackRock Lifepath Index 2020 K Fund	$ 2,893,330	$ *

During the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years Ended December 31,	
	2012	2011
Mutual funds	$ 1,775,681	$ (518,222)
Guaranteed interest account	(132,446)	(15,690)
	$ 1,643,235	$ (533,912)

(4) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying

(4) Information prepared and certified by the trustee (continued)

financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments in mutual funds at fair value
- Investment in guaranteed investment contract at contract value
- Investment in guaranteed investment contract at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(5) Fair value measurements (continued)

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest account: Valued at fair value, which is the discontinuation value of the contract. Discontinuation value is the contract value less a withdrawal surcharge of 5%. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Administrative Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). See Note 6.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

The amount of total losses for the year included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at year end	$ (132,446)	$ (15,690)

Gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

(5) Fair value measurements (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Description	Fair Value	Principal Valuation Techniques	Unobservable Inputs	Range of Significant Input Values
Guaranteed Interest Account	$2,516,482	Discontinuation Value	Composite Crediting Rate	2.10%-2.65%
			Surrender Charge	5%

(6) Guaranteed investment contract with insurance company

The Plan has a benefit-responsive guaranteed investment contract with Principal Trust Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $2,516,482 and $2,214,877, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) termination of the Plan, (2) any transfer of all of the Covered Funds of the Plan which causes the amounts to cease to be Covered Funds, (3) partial plan termination, a spin-off, or a combination or series of such partial plan terminations or spin-offs, or any other action or changes with regard to the Plan that causes a significant withdrawal from the Plan, or (4) termination of any recordkeeping arrangement, service agreement, or other contractual arrangements between or with regard to the Plan and Principal or one of their affiliates or subsidiaries. The Plan

(6) Guaranteed investment contract with insurance company (continued)

administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date:

	December 31,	
	2012	2011
Fair Value	$ 2,516,484	$ 2,214,877
Average yield	1.45%	2.22%
Crediting interest rate	1.45%	2.00%

(7) Related party transactions

Certain Plan investments are shares of mutual funds managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing rather than a direct payment. As described in Note 2, the Plan made direct payments for administrative and recordkeeping services provided by Principal Life Insurance Company which amounted to $134,747 and $85,197 for the years ended December 31, 2012 and 2011, respectively. The companies directly pay any other fees related to the Plan's operations.

(8) Plan termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employers' contributions.

(9) Tax status

The Internal Revenue Service has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC") and informed Principal Trust Company of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

(9) Tax status (continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(11) Subsequent events

In accordance with ASC 855, Subsequent Events, the Plan has evaluated events that have occurred subsequent to the year ended December 31, 2012 through October 11, 2013, which is the date the financial statements were available to be issued and noted the following item for disclosure:

On June 4, 2013, the Plan changed their plan custodian, third party administrator, and record keeper from Principal Trust Company ("Principal") to Great West Trust Company, LLC ("Great West"). Substantially all plan assets transferred from Principal to Great West during June 2013, with the exception of the Guaranteed Investment Contract, which was transferred in September 2013.
