Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Blue Circle Aggregates Inc. Hourly Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Northern Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the Trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the Trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

BLUE CIRCLE AGGREGATES INC. HOURLY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Note 1 – Description of plan

The following description of the Blue Circle Aggregates Inc. Hourly Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan was adopted effective August 29, 1989 by Lafarge Aggregates Southeast Inc. (the Company), was amended and restated effective January 1, 2008, and most recently amended effective January 1, 2011. The Company is an indirect subsidiary of Lafarge S.A. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits to certain hourly compensated employees. An eligible participant becomes vested for normal retirement benefits upon the attainment of age 65. Early retirement benefits vest to any employee upon the attainment of age 55 and ten years of credited service. Any employee becomes vested in a deferred pension upon completing five years of credited service. The Plan also provides for benefits to participants with at least 15 years of credited service who meet certain disability requirements. If a vested participant dies before electing to retire, his or her surviving spouse may be eligible to receive benefits. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 1996, benefits under the Plan were frozen. As a result, no participant accrues any additional benefits, and no service or period of employment after that date counts as credited service. No new participants are eligible to participate in the Plan after December 31, 1996. Effective January 1, 2002, all employees of the Company transferred employment to Lafarge North America, Inc. and all participants became fully vested because of the partial termination of the Plan.

Employees who were at least 20 ½ years of age and completed six months of continuous service were eligible for participation in the Plan.

Benefit payments are based upon the monthly pension factor established in the Plan and the number of years of credited service determined in accordance with the Plan guidelines. Participants receive benefits in monthly installments or in lump sum payments if the vested benefit is less than \$1,000. Benefits payable under the Plan may be reduced by the benefits payable by an offsetting plan. Offsetting plans are other defined benefit pension plans or retirement plans funded by the Company.

The assets of the Plan and certain other pension plans of the Company are held in the Blue Circle America Inc. Master Trust (Master Trust). At December 31, 2012 and 2011, assets in the Master Trust were held by The Northern Trust Company (the Trustee). Upon the order of the Company, the Trustee pays amounts to specified Plan beneficiaries. SEI Investments Company (SEI) currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA. In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at the time of termination. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Administrative Expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the plans based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

BLUE CIRCLE AGGREGATES INC. HOURLY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Note 2 – Significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Cash and Cash Equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 5), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Investments – Investments are stated at fair value. Investment transactions are recorded at the trade date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the Trustee. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Master Trust at year-end. Investments in cash and cash equivalents are valued at cost, which approximates fair values. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the Trustee among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties – The Master Trust invests in various securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Employer Contributions and Benefit Payments – Employer contributions and benefit payments to participants are specifically identified by the Plan Administrator with respect to each plan, as reflected in the accompanying statements of changes in net assets available for benefits. Benefit payments to participants are recorded upon distribution.

Accumulated Plan Benefits – Accumulated plan benefits (see Note 3) are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to December 31, 1996. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits for active, retired or terminated participants or their beneficiaries are based on (a) the monthly pension factor established in the Plan and (b) the employee's number of years of credited service as of December 31, 1996. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to participant service rendered to December 31, 1996.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Note 2 – Significant accounting policies (continued)

Fair Value Measurement – Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Cash and cash equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified within level 1 of the valuation hierarchy.

Note 3 – Actuarial present value of accumulated plan benefits

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2012. Employer contributions to the Plan are calculated in accordance with the Company's policy of funding an amount within the minimum required and the maximum allowable contributions as calculated each year in accordance with ERISA regulations. The Company's contributions for 2012 and 2011 exceeded the minimum funding requirements of ERISA.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Note 3 – Actuarial present value of accumulated plan benefits (continued)

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (PPA). As of January 1, 2012, significant assumptions underlying the actuarial computations include an effective interest rate of 7.00%, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at various ages, ranging from 55 to over 65. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings. Additionally, the funding interest rate changed from IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date.

Actuarial assumptions that changed since the prior year include the retirement and termination rates, the marital percentage assumption, the form of payment election assumption, and assumed benefit commencement date for the deferred vested benefit.

The actuarial present value of accumulated plan benefits as of January 1, 2012 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 321,247
Other participants	<u>461,397</u>
Total vested benefits	<u>782,644</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 782,644</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2012:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 858,762
(Decrease) increase during the year attributable to:	
Benefits accumulated & non-investment experience	(111,262)
Increase for interest due to decrease in discount period	58,616
Benefits paid	(43,525)
Assumption changes	<u>20,053</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 782,644</u>

Certain actuarial assumptions changed during 2012; the segment interest rates used to calculate the funding target and target normal cost, the required mortality table, and administrative expense assumptions were updated.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

DECEMBER 31, 2012 AND 2011

Note 4 – Income tax status

The Plan has received its latest determination letter from the Internal Revenue Service (IRS) dated April 23, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2009.

Note 5 – Investment in the Master Trust

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2012 and 2011 and net investment income in the Master Trust for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At December 31, 2012 and 2011, the Plan's interest in the investments of the Master Trust was approximately 1.71% and 1.77%, respectively.

The following table presents the fair values of investments in the Master Trust:

	December 31,	
	2012	2011
Investments at fair value:		
Mutual funds	\$ 56,813,274	\$ 50,795,377
Cash and cash equivalents	540,574	409,253
	<u>\$ 57,353,848</u>	<u>\$ 51,204,630</u>

Investment income for the Master Trust was as follows:

	Year ended December 31,	
	2012	2011
Net appreciation in fair value of investments	\$ 5,337,250	\$ 3,097,145
Interest and dividends	1,562,158	1,749,610
	<u>\$ 6,899,408</u>	<u>\$ 4,846,755</u>

Note 5 – Investment in the Master Trust (continued)

During the years ended December 31, 2012 and 2011, substantially all of the net appreciation in fair value of investments is attributable to mutual funds

The fair value of individual investments that represent 5% or more of the Master Trust's net assets are as follows:

	December 31,	
	2012	2011
SEI Instl Invts Tr Large Cap Disciplined Equity Fund	\$ 11,537,289	\$ 9,989,675

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2011 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All significant benefits described in the Plan Provisions section of this report were valued except plant shutdown and other "unpredictable contingent event benefits" which are not valued until and unless the triggering event occurs (unless otherwise noted). Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2010 to September 2011 and to reflect the provisions of MAP-21.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The administrative expense assumption was updated.</p>
Data sources	Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data and the dates and amounts of the contributions that were paid in 2012. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Blue Circle Aggregates Inc. Hourly Pension Plan Plan Provisions

Effective Date	The original effective date of the Hall Plan was January 1, 1981 and the original effective date of the Douglasville Plan was January 1, 1973.
Covered Employees	Any person employed at the company's Hall or Douglasville facilities on an hourly or piecework basis is a participating employee. No new employees will become participants after December 31, 1996.
Participation Date	A participating employee will attain eligibility in the plan on the January 1st or July 1st immediately following attainment of age 20 1/2 and completion of 6 months of service or completion of 1,000 or more hours of service in a calendar year of employment.
Definitions	
Eligibility service	One year of eligibility service is accrued for each plan year during which 1,000 or more hours of service are completed. A partial year of service is credited for less than 1,000 hours of service in a plan year. Periods of employment with Lafarge North America after December 31, 2001 will be considered for the purposes of determining benefit eligibility.
Credited service	One year of credited service is accrued for each plan year during which 2,080 or more hours of service are completed. A partial year of credited service is accrued for less than 2,080 hours of service in a plan year. Service prior to October 1, 1980 is not included. No further credited service will accrue after December 31, 1996.
Normal retirement date (NRD)	First day of the month coinciding with or next following the attainment of age 65.
Monthly pension benefit	The accrued benefit for an employee is equal to \$10.00 multiplied by credited service
Monthly preretirement death benefit	50% of the accrued monthly pension benefit as of the date of death, reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.
Eligibility for Benefits	
Normal retirement	Retirement on NRD
Early retirement	The first day of the month coinciding with or next following the attainment of age 55 with 10 years of eligibility service.
Postponed retirement	Retirement after NRD

Vested termination	Termination for reason other than death or retirement after completing 5 years of eligibility service.
Disability retirement	A participant with 15 years eligibility service who is unable to obtain gainful employment by reason of total and permanent disability is eligible for disability.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit actuarially reduced if payments commence prior to age 65.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit is equal to the accrued normal retirement benefit as of the date of termination and is payable at the normal retirement date. Early payment available upon completion of 10 or more years of eligibility service. If the benefit starts before normal retirement date, the benefit will be reduced using early retirement benefit reduction factors.
Disability retirement	The monthly disability benefit, which commences on the first of the month following disability, is equal to the accrued benefit as of the date of disability.
Preretirement death	Monthly preretirement death benefits on behalf of both active and terminated vested employees are reduced as described above.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent joint and 50% survivor annuity, or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms:
------------------	--

- ▶ Joint and 75% survivor annuity
- ▶ 120 month certain and continuous annuity

Actuarial equivalence for optional form conversion:

- ▶ Participant mortality: GAM 1971 male
- ▶ Beneficiary mortality: GAM 1971 male set back 6 years
- ▶ Interest rate: 7.50%
