BHP NEW MEXICO COAL 401K PERSONAL SAVINGS PLAN
Notes to Financial Statements
December 31, 2012 and 2011

1. Description of Plan

The following description of the BHP New Mexico Coal 401K Personal Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective December 1, 1998, under Sections 401(k) and 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. In connection with an internal reorganization of BHP Billiton Limited's energy coal business, effective July 1, 2012, the Plan is sponsored by BHP Billiton New Mexico Coal Inc. (the Company). The Plan sponsor for the period from January 1, 2011 through June 30, 2012 was Broken Hill Proprietary (USA) Inc. The Plan covers hourly employees who are subject to a collective bargaining agreement between the Company and the International Union of Operating Engineers, Local No. 953. The Plan does not have an age or service requirement. The Plan was amended and restated, effective January 1, 2008, to incorporate all previous amendments. The Plan has been amended as necessary to revise certain Plan provisions and to comply with recent tax law changes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Vanguard Fiduciary Trust Company (Vanguard) serves as trustee for the Plan, and Vanguard Group, Inc. serves as recordkeeper for the Plan. The Company serves as the Plan administrator. Certain duties, on behalf of the Plan's sponsor, are carried out by the BHP USA Retirement Advisory Committee.

Contributions

All new employees are automatically enrolled in the Plan based on a pre-tax contribution rate of 6% unless the employee elects to waive immediate automatic enrollment.

Each year, participants may make contributions to the Plan on a pre-tax basis through payroll withholding of any whole percentage up to 50% of his or her base pay and/or any whole percentage up to 100% of his or her bonus pay, not to exceed the limitation (\$17,000 in 2012 and \$16,500 in 2011) set forth in Section 402(g) of the IRC. Each participant may also elect to make after-tax contributions to the Plan equal to any whole percentage up to 44% of his or her base pay if his or her pre-tax contributions continue at a rate not less than 6% of base pay. The total of pre-tax and after-tax contributions may not exceed 50% of base pay. Participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. A participant's total catch-up contribution was limited to a maximum of \$5,500 during both 2012 and 2011. Such catch-up contributions are also eligible for matching. Participants may also make rollover contributions from other qualified plans.

1. Description of Plan, continued

Contributions, continued

Company Matching Contributions are made on behalf of all participants who are production or maintenance employees of the San Juan Coal Company Underground Mine (Underground Operations) and on behalf of participants who are employed in BHP's surface mining operations (Surface Operations), in an amount equal to the lesser of 4.5% of the total of base pay and bonus pay and 75% of pre-tax deferrals for the year. Catch-up contributions are subject to the same matching provisions. Total Company Matching Contributions amounted to \$2,126,765 and \$2,016,463 in 2012 and 2011, respectively.

The Company shall also make an Employer Funded Contribution to the Plan on behalf of all eligible participants. Eligible participants of Surface Operations are those who are first employed, rehired or transferred to Surface Operations after June 30, 2004. Effective January 1, 2005, eligible Surface Operations participants include employees who made a one-time election to receive the Employer Funded Contribution in lieu of participation in the Navajo Mine Retirement Plan, a defined benefit plan sponsored by the Company. Eligible participants of Underground Operations are those who were hired after May 1, 2006, or who made a one-time election, for service after May 1, 2006, to receive the Employer Funded Contribution in lieu of participation in the Navajo Mine Retirement Plan. The Company shall make an Employer Funded Contribution of \$3,500 and \$3,000 per year, pro-rated weekly, for each eligible participant of the Surface Operations and Underground Operations, respectively. Total Employer Funded Contributions for both groups amounted to \$1,096,685 and \$997,343 in 2012 and 2011, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company Matching and Employer Funded Contributions, and an allocation of investment income (loss), net of administrative expenses. Investment income (loss) allocations are based on the performance of the funds in which the participant has directed his or her accounts to be invested. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account. Participants are 100% vested in all amounts allocated to their participant accounts.

Investment Options

The Plan offers mutual funds and a common collective trust fund as investment options to participants. Participants may change their investment options at any time.

Vesting

Participants are vested immediately in their contributions and Company Matching Contributions, plus earnings thereon. Each participant vests in his Employer Funded Contribution account (if any) upon completion of three years of vesting service or attainment of age 65 as an employee, whichever occurs first.

1. Description of Plan, continued

Forfeitures

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the full vested value of his or her account (or his/her designated beneficiary in the event of death). Forfeitures are applied (i) first to reinstate any Plan benefits that are required to be reinstated, (ii) any remaining forfeitures are used to pay administrative expenses of the Plan, and (iii) thereafter, to offset future employer contributions. At December 31, 2012 and 2011, forfeited nonvested amounts available totaled \$79,096 and \$113,199, respectively. Forfeited amounts of \$32,384 and \$21,154 were used to pay administrative expenses and to offset employer contributions, respectively, during 2012. Forfeited amount of \$2,850 and \$5,694 were used to pay administrative expenses and to offset employer contributions, respectively, during 2011.

In-Service Withdrawals

A participant may take an in-service withdrawal of all or any portion of the balance in his or her after-tax account and or rollover account.

Participant Notes Receivable

Participants may borrow from the vested portions of their account balances a minimum of \$1,000 up to a maximum equal to the lesser of 1) 50% of the participant's vested account balance, 2) 100% of the participant's pre-tax, after-tax and rollover accounts, or 3) \$50,000, reduced by the excess of the highest outstanding balance of loans during the 12-month period ending on the day before the date the loan is made. Loan terms range from 6 months to 5 years unless used for the purchase of a primary residence, which cannot exceed 10 years. The loans are secured by a portion of the participant's account, not to exceed 50%, and bear interest at a fixed rate equal to one percentage point above the published prime rate at the date of the loan. Interest rates on outstanding loans ranged from 4.25% to 8.75% and 4.25% to 9.25% at December 31, 2012 and 2011, respectively. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon retirement or other termination of employment, the participant (or his or her beneficiary in the event of death) will receive the value of the vested interest in his or her account according to the following four distribution options: (i) a single, lump-sum distribution in cash, (ii) two or more installments over such period of time as the participant or beneficiary elects, but not extending beyond the life expectancy of the participant and his or her surviving spouse or designated beneficiary, (iii) two or more partial withdrawals at the election of the participant or beneficiary, or (iv) a combination of the methods specified in (i), (ii) and (iii). If a participant's account balance is greater than \$5,000, the participant is paid at any time following termination upon request of the participant, as long as distribution occurs by April 1 of the calendar year following the year in which the participant turns 70 1/2 years of age or retires, whichever occurs later. If the participant's vested balance is between \$1,000 and \$4,999, the Trustee will roll the account balance into an Individual Retirement Account in the participant's name. For balances less than \$1,000, the Trustee will make a lump-sum distribution as soon as practicable.

Administrative Expenses

Expenses related to the administration of the Plan may be paid by the Company or by the Plan. The Company paid certain administrative fees on behalf of the Plan during 2012 and 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Vanguard Retirement Savings Trust, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This ASU requires for Level 3 fair value measurements, to disclose quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivities of the measurements. The guidance was effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material impact on the Plan's financial statements.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, security and commodity prices and general market conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is accrued as earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

4. Fair Value Measurements

FASB ASC Topic 820 (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses two different approaches (the market approach and the income approach) depending on the nature of the assets and liabilities. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts such as cash flows or earnings to a single present amount, with the measurement based on the value indicated by current market expectations about those future amounts.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. (Market approach)

Common collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. (Income approach)

4. Fair Value Measurements, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's administrators believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

4. Fair Value Measurements, continued

During the year ended December 31, 2012, Plan management determined through additional analysis of the inputs related to the fair value measurements of the Vanguard Retirement Savings Trust (a common collective trust), that the inputs were observable as they were based on published crediting rates by the investment issuer. As a result of this additional analysis, the Vanguard Retirement Savings Trust has been reflected as a Level 2 investment for the years ended December 31, 2012 and 2011.

5. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. 6. Party-in-Interest Transactions

The Plan invests in mutual funds and a common collective trust fund, which are managed and distributed by Vanguard, the trustee, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC.

The Plan has been amended since receiving the determination letter; however, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, accordingly, that the trust maintained in connection with the Plan is tax exempt.

The Plan has not performed the required annual compliance testing as of the date of financial statement issuance; however, the Plan expects to complete the required testing by December 31, 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

9. Reconciliation of Plan Financial Statements to Form 5500
