NOTE 1 - DESCRIPTION OF PLAN

The following description of the Karl Knauz Motors, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. The company match is discretionary and during 2012, the Company contributed 50 percent of the first 6 percent of annual base compensation that a participant contributed to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors and are invested in the participant-directed investments. The 2012 profit sharing contribution totaled $50,000. Contributions are subject to certain limitations and to IRS limits.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) the Plan's earnings and (c) charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Investment Options: Participating employees may select the investment funds in which contributions to their accounts are invested and may choose to allocate and reallocate amounts credited to their accounts among all or any combination of the investment funds. Earnings on the investment funds are allocated among the accounts of the participants that have elected to invest in each such fund.

Retirement, Death, and Disability: A participant is entitled to 100 percent of his or her vested account balance upon retirement, death, or disability.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service per a graded scale.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Benefits will be paid as soon as administratively feasible following the date on which a distribution is requested or otherwise payable.

Forfeitures: Forfeitures are used to pay plan expenses or are allocated to the remaining participants in the same manner as employer contributions. During 2012, there were no forfeited balances were reallocated to remaining participants. The remaining balances of forfeitures available to allocate as of December 31, 2012 and 2011 were $17,285 and $6,643, respectively.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100 percent vested in their employer contributions.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. The underlying investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers of the collective trusts as reported in the audited financial statement of the fund (level 2 inputs). The fund invests in synthetic guaranteed investment contracts and short term securities with investment objective to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers. The fund provides for daily redemptions by Plan participants at reported net unit value with no advanced notification requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100 percent vested in their employer contributions and earnings thereon.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A. and Fascore Recordkeeping (Agent) of JPMorgan Chase Bank, N.A., the trustee of the Plan. The fair value of the Invesco Stable Value Trust has not been certified; however, the contract value was certified. This certified information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5 percent of more of the Plan's net assets available for benefits.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

During the year ended December 31, 2012, the Plan's investments (including gains and losses in investments bought and sold, and held during the year) appreciated in value by $1,280,585 as follows:

Collective trust fund	$ (65)
Mutual funds	1,280,650
	$ 1,280,585

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds shares of mutual funds and a collective trust fund managed by JPMorgan and Invesco National Trust, respectively. Invesco National Trust and JPMorgan are affiliates of JPMorgan Chase Bank, N.A., the Plan trustee. JPMorgan Chase Bank, N.A. is the Plan trustee and, therefore, these transactions and the Plan's payment of trustee fees and investment management fees to JPMorgan Chase Bank, N.A. qualify as party-in-interest transactions.

Notes receivable from participants also qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 7 - SUBSEQUENT EVENTS

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 3, 2013, which is the date the financial statements were available to be issued.
