LAWRENCE EQUIPMENT INC.
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2012 and 2011

NOTE 1 – DESCRIPTION OF PLAN

The following description of Lawrence Equipment, Inc. ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is referred to as a "Safe Harbor 401(k) Plan" and is a defined contribution plan covering employees of the Company who have completed one year of service and are age 21 or older. Employees employed on the Plan's effective date did not need to satisfy the service requirements or the age requirements as specified above. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company, which is responsible for nonfinancial matters and the financial aspects of the Plan. The Company has an agreement for recordkeeping and custodial services with Great West Retirement Services (the "Custodian") to receive contributions, administer the assets of the Plan and distribute withdrawals pursuant to the Plan.

Contributions - Each year participants may contribute up to the lesser of 100% of compensation or the maximum permitted by law of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other plans and certain IRA's. The plan sponsor has a Safe-Harbor match provision. The formula includes 100% of employee deferrals up to the first 3% of included compensation that a participant contributes to the Plan, plus 50% of deferrals up to the next 2% of included compensation that a participant contributes to the Plan. The maximum Safe-Harbor contribution by the Plan Sponsor is 4% of included compensation. Participants direct the investment of both their contributions and the Company's Safe Harbor matching contribution into various investment options offered by the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participants' Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. They are also immediately 100% vested in the Company's Safe-Harbor match. For other Company contributions, a participant is 100% vested after six years of credited service.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any of 30 investment options, offered through a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West"). Participants may change their investment options quarterly.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. A loan application/processing fee will be charged for each loan processed, and will be collected by debiting the participant's 401(k) account. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant's Notes fund. The loans are secured by the balance in the participant's account and bear interest at the prime rate (as listed in the Wall Street Journal), plus one percentage point. Principal and interest repayments will be made by means of payroll withholding according to the terms of the promissory note, with repayments to be made no less frequently than quarterly. No allowance for credit losses has been recorded as of December 31, 2012 or 2011.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period not to exceed the life expectancy of the participant or the participant's beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Expenses – Certain expenses to maintain the Plan are paid directly by the company and are excluded from these financial statements. The employer absorbs significant costs of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Most administrative expenses are reimbursed by the Company. Administrative and trust expenses paid by the Company not charged to the Plan amounted to $12,000 and $11,500 for the years ended December 31, 2012 and 2011, respectively. Fees related to the administration of notes receivable from participants are charged directly to the participants account and are included in the administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures - The nonvested portion of terminated employees' accounts will be reallocated to remaining participants' accounts. At December 31, 2012 and 2011, there were $200 and $197 in forfeited accounts, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance.

Payment of Benefits - Benefits are recorded when paid.

NOTE 3 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1995, the Plan entered into a group annuity contract with Great-West Life & Annuity Insurance Company who provides enrollment, record keeping, and investment allocation services. The group annuity contract provides the Plan with a funding vehicle that includes a variety of investment options, which are either guaranteed or variable. Guaranteed investments are backed by the general account of Great-West. Variable investments are made through units of Great-West's separate accounts, which invest in mutual funds. Great-West maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

NOTE 3 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The contract is included in the financial statements at contract value, as reported to the Plan by Great-West. Contract value represents contributions made under the contract, plus earnings, and adjustments in value of the underlying assets, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Guaranteed Certificate Fund is a Guaranteed Sub-Account, whereby credited interest rates, are credited to deposits held for varying interest guarantee periods. The credited interest rate on an annual effective basis will be compounded daily and will equal the annual effective rate declared by the insurance company. A deposit to the Guaranteed Certificate Fund until the certificate maturity date will earn a credited interest rate for the certificate's interest guarantee period.

As described in Note 2, because the Guaranteed Certificate Fund is fully benefit-responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Guaranteed Certificate Fund account in the Great-West investment contract at December 31, 2012 and 2011 was $524,368 and $463,888, respectively.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on interest rate credited to participants	**1.45%**	2.03%

NOTE 4 – UNAUDITED INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The December 31, 2012 and 2011 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Plan Custodian in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $3,821,249 and $2,979,171 at December 31, 2012 and 2011, respectively; participant loans of $253,323 and $204,609 at December 31, 2012 and 2011, respectively; and increase in net assets available for benefits of $890,792 before accrual basis decreases of $11,631 for the year ended December 31, 2012. The information certified by Great-West is provided on the cash basis. Data provided by Great-West is prepared on the cash basis.

NOTE 5 – RELATED PARTY TRANSACTIONS

The Plan includes a group annuity contract and participant loans issued and managed by Great-West Life and Annuity Insurance Company and its Subsidiaries. Certain Plan investments are shares of mutual funds managed by Great-West Financial and its subsidiaries. Certain Great-West Financial subsidiaries provide administration and recordkeeping services to the Plan while another serves as plan custodian. Great-West Life & Annuity Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment as they are paid through revenue sharing, rather than direct payment.

The stockholders of the Company and their direct descendants qualify as parties-in-interest when they are participants in the plan. These participants have account balances totaling $2,259,093 and $1,728,492 at December 31, 2012 and 2011, respectively. The outstanding loan balances from stockholders and direct descendants totaled $64,018 and $73,399 at December 31, 2012 and 2011, respectively.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 – BENEFITS PAID TO PARTICIPANTS

Benefits paid during the year ended December 31, 2012 include withdrawals of $23,135. As of December 31, 2012, all participants who have elected to withdraw from the plan have been paid.

NOTE 8 – CONCENTRATIONS OF CREDIT RISK

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – INVESTMENTS

The following presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

Investment	2012	2011
Guaranteed Portfolio Fund	**$ 524,368**	$ 463,888
Great-West Moderate Profile II	**555,987**	463,372
Great-West Aggressive Profile II	**406,868**	296,457
Lord Abbett Value Opportunities A		151,477
Great-West American Century Growth Portfolio	**358,854**	270,511
Great-West S & P 500 Index Fund I	**218,584**	163,300

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $357,018.

NOTE 10 – FAIR VALUE MEASUREMENTS

U.S. generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ACS 820 are described as follows:

NOTE 10 – FAIR VALUE MEASUREMENTS (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Variable Annuities: Prices/unit values for Variable Annuity investment options are calculated daily by the annuity provider according to the methods described in the annuity contract. The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund NAV calculation: dividing the net assets by the number of units outstanding. Any discrepancies between the two unit values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

Fixed Annuities: The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider. The Plan sponsor evaluates the general financial condition of the issuer of the annuity contract as a component of validating whether the calculated contract value of the guaranteed contract is an accurate value. All of the inputs are generally considered obtainable/observable through the review of the existing contracts and readily available financial information on the issuing financial institutions.

NOTE 10 – FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value.

	Assets at Fair Value as of December 31, 2012

NOTE 12 – TAX STATUS

The Plan is a Prototype Standardized Profit Sharing Plan with CODA, and it has been determined by the Internal Revenue Service by a letter dated November 27, 2001 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 13 – SUBSEQUENT EVENTS
