POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 1 - Description of the Plan

The following description of the Pokemon USA Retirement Savings Plan (the Plan) provides general information only. Participants should refer to the plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan that was established for the benefit of employees of The Pokémon Company International (the Company). All employees are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Participants may contribute to the Plan through voluntary deferrals of earned compensation. Eligible employees may contribute from 1% to 60% of their compensation to the Plan and a participant who is age 50 or older on or before the last day of the plan year is eligible to make catch-up contributions. Participants may also make rollover contributions to their accounts from other qualified plans.

The Company makes a nondiscretionary matching contribution equal to 100% of each contributing participant's elective deferral, not to exceed 2% of eligible compensation on a per pay period basis. Contributions are subject to certain limitations.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Participants may change their investment elections and make transfers between investment options daily. Each participant's account is credited with any contributions made to their account and allocations of (i) plan net earnings or losses and (ii) applicable fees related to their account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's matching contribution is based on years of service as follows:

<u><i>Years of Service</i></u>	<u><i>Percentage</i></u>
1	0%
2	0%
3	100%

Notes Receivable from Participants - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000. The minimum amount required to be borrowed is \$1,000. Loan terms range from one to five years unless it is used to acquire a principal residence. The interest rate is determined by the plan administrator based on prevailing market conditions. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, death, disability, attainment of age 59½, or retirement, a participant may elect to receive a distribution of their vested account balance. The distribution may be in the form of a lump-sum payment only. The Plan provides for hardship withdrawals in accordance with provisions specified in the plan document.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 1 - Continued

Forfeitures - Forfeitures of terminated participants' nonvested accounts are to be used to pay for plan expenses, reduce the Company's matching contribution to the Plan, or to reinstate rehired employees prior forfeiture amounts. During 2012, the Company used \$12,513 of forfeitures to reduce matching contributions to the Plan. Unallocated forfeitures as of December 31, 2012 and 2011, totaled \$10,252 and \$6,054, respectively.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid. No amounts had been allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2012 and 2011.

Investment Fees and Administrative Expenses - Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance. Transaction based fees for loans are charged directly to participant accounts. All other administrative expenses related to the Plan, including recordkeeping and investment advisory fees, are either paid out of forfeitures or paid by the Company.

Subsequent Events - The Plan's management has evaluated subsequent events through October 9, 2013, the date on which the Plan's financial statements were available to be issued.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements For the Year Ended December 31, 2012

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money Market Fund - Valued at cost plus accrued interest, which approximates fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- Investment income for the year ended December 31, 2012; and
- Investment transactions for the year ended December 31, 2012.

Note 6 - Party-In-Interest Transactions

The Plan invests in shares of mutual funds and a money market fund managed by an affiliate of Fidelity. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments, qualify as party-in-interest transactions, which are exempt from the rules governing prohibited transactions under ERISA.

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their respective account balances.

Note 8 - Federal Income Taxes

The Plan uses a volume submitter plan document sponsored by Fidelity. Fidelity received an opinion letter dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the Internal Revenue Service (IRS). However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan's investments are invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Delinquent Participant Contributions

The Department of Labor (DOL) performed an investigation of the Plan's practices for remitting employee contributions for the periods 2007 through 2011. The DOL identified \$2,042,612 of delinquent contributions during those periods and determined \$5,192 of lost earnings was owed to the Plan. Delinquent contributions constitute prohibited transactions under ERISA. The Company deposited \$5,192 of lost earnings to the Plan in August 2012.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 1 - Description of the Plan

The following description of the Pokemon USA Retirement Savings Plan (the Plan) provides general information only. Participants should refer to the plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan that was established for the benefit of employees of The Pokémon Company International (the Company). All employees are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Participants may contribute to the Plan through voluntary deferrals of earned compensation. Eligible employees may contribute from 1% to 60% of their compensation to the Plan and a participant who is age 50 or older on or before the last day of the plan year is eligible to make catch-up contributions. Participants may also make rollover contributions to their accounts from other qualified plans.

The Company makes a nondiscretionary matching contribution equal to 100% of each contributing participant's elective deferral, not to exceed 2% of eligible compensation on a per pay period basis. Contributions are subject to certain limitations.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Participants may change their investment elections and make transfers between investment options daily. Each participant's account is credited with any contributions made to their account and allocations of (i) plan net earnings or losses and (ii) applicable fees related to their account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's matching contribution is based on years of service as follows:

<u><i>Years of Service</i></u>	<u><i>Percentage</i></u>
1	0%
2	0%
3	100%

Notes Receivable from Participants - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000. The minimum amount required to be borrowed is \$1,000. Loan terms range from one to five years unless it is used to acquire a principal residence. The interest rate is determined by the plan administrator based on prevailing market conditions. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, death, disability, attainment of age 59½, or retirement, a participant may elect to receive a distribution of their vested account balance. The distribution may be in the form of a lump-sum payment only. The Plan provides for hardship withdrawals in accordance with provisions specified in the plan document.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 1 - Continued

Forfeitures - Forfeitures of terminated participants' nonvested accounts are to be used to pay for plan expenses, reduce the Company's matching contribution to the Plan, or to reinstate rehired employees prior forfeiture amounts. During 2012, the Company used \$12,513 of forfeitures to reduce matching contributions to the Plan. Unallocated forfeitures as of December 31, 2012 and 2011, totaled \$10,252 and \$6,054, respectively.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid. No amounts had been allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2012 and 2011.

Investment Fees and Administrative Expenses - Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance. Transaction based fees for loans are charged directly to participant accounts. All other administrative expenses related to the Plan, including recordkeeping and investment advisory fees, are either paid out of forfeitures or paid by the Company.

Subsequent Events - The Plan's management has evaluated subsequent events through October 9, 2013, the date on which the Plan's financial statements were available to be issued.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements For the Year Ended December 31, 2012

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money Market Fund - Valued at cost plus accrued interest, which approximates fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fidelity Diversified International	310,731	239,937

* Does not represent 5% of the Plan's net assets for the respective plan year.

Note 5 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audit. The plan administrator obtained a certification from Fidelity Management Trust Company (Fidelity), that the following information provided by Fidelity and included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of December 31, 2012 and 2011;
- Investment income for the year ended December 31, 2012; and
- Investment transactions for the year ended December 31, 2012.

Note 6 - Party-In-Interest Transactions

The Plan invests in shares of mutual funds and a money market fund managed by an affiliate of Fidelity. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments, qualify as party-in-interest transactions, which are exempt from the rules governing prohibited transactions under ERISA.

POKEMON USA RETIREMENT SAVINGS PLAN

Notes to Financial Statements

For the Year Ended December 31, 2012

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their respective account balances.

Note 8 - Federal Income Taxes

The Plan uses a volume submitter plan document sponsored by Fidelity. Fidelity received an opinion letter dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the Internal Revenue Service (IRS). However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan's investments are invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Delinquent Participant Contributions

The Department of Labor (DOL) performed an investigation of the Plan's practices for remitting employee contributions for the periods 2007 through 2011. The DOL identified \$2,042,612 of delinquent contributions during those periods and determined \$5,192 of lost earnings was owed to the Plan. Delinquent contributions constitute prohibited transactions under ERISA. The Company deposited \$5,192 of lost earnings to the Plan in August 2012.
