MARIN SANITARY SERVICE
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

NOTE 1 – SUMMARY OF PLAN PROVISIONS

The following description of the Marin Sanitary Service 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and is exempt from federal income tax under Section 501(a) of the Code, and from applicable state tax, as state law conforms to the Code. The Plan operates under a prototype plan of its administrator, Unified Trust Company, which has received a favorable opinion letter dated August 7, 2001. The Plan has been amended since receiving the opinion letter, including amendments effective during 2009 to conform the Plan to recent legislation. The Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is a defined contribution plan covering non-union employees of the Company. The Plan allows for participation upon hire. There is a one year eligibility requirement to apply for participation in profit sharing plan contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Unified Trust Company, the custodian, holds the Plan's assets, together with the income therefrom, in accordance with an agreement. An administrative committee appointed by the Board of Directors of the Company administers the Plan.

Contributions – Under the 401(k) portion of the Plan, eligible employees may contribute up to statutorily permitted amounts of pretax annual compensation as defined in the Plan per Internal Revenue Code section 402(g). The maximum deferral was $17,000 and $16,500 for 2012 and 2011, respectively. Individuals reaching the age of 50 during the year may defer an additional $5,500 as a "catch-up" contribution ($5,500 for 2011). Participants may also rollover distributions from other qualified defined benefit or contribution plans. Each year the Company contributes a matching contribution which for 2012 and 2011 was 100% of an employee's deferral up to 5% of their eligible wages. These contributions are

NOTE 1 – SUMMARY OF PLAN PROVISIONS (CONT.)

Contributions (Cont.) – allocated to participants based on their elective salary deferrals to the 401(k) plan. The Company, at its discretion, may also make profit sharing contributions each year that are allocated to participants based on their proportionate share of total compensation paid during the Plan year to all participants in the Plan. For 2012 and 2011, the profit sharing contribution was 5% of the employees' eligible wages.

Participant Accounts – Participants may direct contributions and any related earnings into 15 investment options in 1 percent increments. Participants may change their investment allocation as often as they wish.

Forfeiture Accounts – Forfeitures attributable to matching and profit sharing contributions are used to reduce employer contributions and plan administration fees. Unallocated forfeiture balances as of December 31, 2012 and 2011 were $3,962 and $1,338, respectively. In 2012 and 2011, the employer contributions were reduced by $0 and $7,447 from forfeitures. In 2012, plan administration fees were reduced by $9,707 from forfeitures ($39,139 in 2011).

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service.

A participant vests according to the following schedule:

Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years	100%

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of the Plan's income and any related administrative expenses.

NOTE 1 – SUMMARY OF PLAN PROVISIONS (CONT.)

Vesting (Cont.) – Allocations of income and expense are based on the proportion that each participant's account balance bears to the total of all participants' account balances. The Company pays other expenses related to administering the Plan.

Payment of Benefits – Upon retirement, termination of employment, death, or disability, vested benefits are paid to participants or their beneficiaries in a lump sum. If a participant is terminated for any reason other than death, total disability, or normal retirement, the vested portion of the participant's account balance becomes payable at the earliest administratively feasible date following separation from service. In addition, hardship distributions are permitted if certain criteria are met.

Notes Receivable from Participants – The Plan has a provision that allows a participant to borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at prime plus 1 percent. Interest rates ranged from 4.25% to 9.25% at December 31, 2012 and 2011, and principal and interest payments are made through payroll deductions. The Plan charges the participant's account a processing fee of $75 when the loan is funded and an annual fee of $75 to defray the cost of record keeping.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Contracts – Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB ASC 962-325, *Plan Accounting – Defined Contribution Pension Plans*, the Statement of

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Investment Contracts (Cont.) – Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Other Investments – Common trusts, registered investment companies, and stocks are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year-end.

Income Recognition – Interest and dividend income are recorded as earned on the accrual basis.

Net Appreciation or Depreciation in Fair Value of Investments – Net realized and unrealized appreciation or depreciation are recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation or depreciation in fair value of investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Income Taxes – Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's Trustees to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Payment of Benefits – Benefits are recorded when paid.

Reclassification – In order to conform to current year presentation certain amounts have been reclassified.

NOTE 3 – CONCENTRATIONS

The Plan has cash in money market participant directed investment accounts with a brokerage firm located in Omaha, Nebraska. These accounts are not insured against loss of principal. The total uninsured cash balances as of December 31, 2012 and 2011 were $360,371 and $510,260, respectively.

NOTE 4 – INFORMATION CERTIFIED BY PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplementary schedule is complete and accurate.

Investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets available for benefits had a value of at least $559,472 and $526,874, respectively.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The guaranteed investment contract is known as the UTC Stable Value Trust (the Fund) which maintains contributions in a pooled account. The contract is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by UTC. The principal and accrued interest are guaranteed based on credited interest rates for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The rate resets quarterly and the minimum credited rate is 0%. The rate is reset by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts.

The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by UTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. If the Plan were to withdraw from the contract either by terminating the Plan or terminating the investment, transactions would be executed at fair value. The Plan sponsor has not

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONT.)

expressed any intent to do either. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The fair value of the investment contract at December 31, 2012 and 2011 was $3,612,276 and $3,667,123, respectively. The market value adjustment was ($244,325) for 2012 and ($198,081) for 2011. For the years ended December 31, 2012 and 2011, the average yield earned was 4.66% and 6.06%, respectively, and the average yield credited to participants was 2.53% (2.78% for 2011). The average yield and crediting interest rates are updated quarterly and were approximately 4.19% and 4.33%, since inception, as of December 31, 2012 and 2011, respectively. See Note 4.

NOTE 6 – PARTICIPANT CONTRIBUTIONS

Contributions received from participants are net of payments of $5,804 and $1,571 made in 2013 and 2012, respectively, to certain active participants to return excess deferral contributions to them as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2012 and December 31, 2011.

NOTE 7 – RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Unified Trust Company is the Trustee and, therefore, transactions of the plan in investments of a guaranteed investment contract, which is managed by Unified Trust Company, qualify as party-in-interest. Fees of approximately $64,017 and $61,917 were paid by the Plan to the Trustee for the administration of the Plan during the years ended December 31, 2012 and 2011, respectively. Investment management

NOTE 7 – RELATED PARTY TRANSACTIONS (CONT.)

fees and operating expenses charged to the Plan for investments are deducted from income earned on investments and are not separately reflected.

Consequently, investment management fees and operating expenses paid to parties-in-interest are reflected as a reduction of investment return for such investments. In addition, loans receivable from participants also reflect party-in-interest transactions.

NOTE 9 – FAIR VALUE MEASUREMENTS

The Plan applies the provisions of FASB ASC 820-10, *Fair value Measurements and Disclosures*, which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and has the highest priority; Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable either directly or indirectly; Level 3 inputs consist of unobservable inputs in which there is little, if any, market activity for the asset at the measurement date, and are the lowest priority. The Plan measures fair value using Level 1, Level 2 and Level 3 inputs based on which input they deem provides the most reliable evidence of fair value.

During 2012, the investment contract with an insurance company balance of $3,612,276 was transferred from a level 2 input investment into a level 3 input investment because it was determined that some of the inputs, such as the swap yield rates, used to determine the fair value of the investment contract with an insurance company are unobservable inputs.

The Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Guaranteed investment contract: The contract consists of the units of the insurance company's separate accounts and an insurance wrapper that guarantees plan participants can transact at contract value in perpetuity. The fair value of the contract, for financial statement reporting purposes, is estimated to be the sum of the fair value of the separate accounts owned by the insurance company and the fair

NOTE 9 – FAIR VALUE MEASUREMENTS (CONT.)

value of the insurance wrapper. The separate accounts, which are invested in a variety of fixed income investments, are unitized and given a net asset value by the insurance company using the observable market values of the securities comprising the separate accounts. The wrapper fair value is provided by the insurance company and calculated through discounting the required cash flows to maintain the wrapper guarantee using LIBOR swap rates over five years which are substantiated through available market data (for example, the swap curve rate).

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended

Level 3 Assets
Year Ended December 31, 2012

	Guaranteed Investment Contract
Balance, beginning of year	$ -
Unrealized gains/(losses) relating to instruments still held at the reporting date	132,382
Purchases	1,193,060
Sales	(1,380,289)

Balance, end of year	$ 3,612,276
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 132,382

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	$ 3,612,276	Discounted Cash Flow	Swap Yield Rates Duration	0.85% to 2.38% 5 years

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated and reviewed subsequent events that would impact the financial statements for the year ended December 31, 2012 through the issuance date of the financial statements of October 14, 2013. Management has determined that there are no disclosures of subsequent events that would be required for the financial statements to be in conformity with generally accepted accounting principles.
