THE AEGIS TECHNOLOGIES GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE A - DESCRIPTION OF THE PLAN

The following description of The AEgis Technologies Group, Inc. 401(k) Plan (the Plan) provides only general information. For a more complete description of the Plan's provisions, refer to the Plan agreement.

General

The Plan was established November 30, 1989, to provide retirement benefits for the eligible employees of The AEgis Technologies Group, Inc. (the Company). The Plan is a defined contribution plan covering all full-time salaried employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 15, 2012, the Plan was amended to remove two existing investment options and introduce four new investment options to the Plan. For a more complete description of the Plan amendment, refer to the Summary Plan Description.

Contributions

Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan agreement, up to ERISA limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common/collective trust fund as investment options for participants. The Company's regular matching contribution is equal to seven percent of the employee's regular gross pay. Contributions are subject to certain limitations. The Company also does a safe harbor nonelective contribution equal to three percent of the employee's regular gross pay. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and (c) forfeitures and reduced for charges related to participant withdrawals and participant loan disbursements. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are vested immediately in both their voluntary contributions and employer nonelective contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service as outlined below:

Years of Service	Vesting Percentage
Less than 1	0%
1 but less than 2	0%
2 but less than 3	50%
3 but less than 4	65%
4 but less than 5	80%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 7.75 percent, which is commensurate with local prevailing rates as determined by the plan administrator. Participants may only have one outstanding note at any time. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of services due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account or installments equal to the net value of the participant's account. For termination of services due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or defer the distributions until retirement age.

NOTE A - DESCRIPTION OF THE PLAN – Continued

Forfeitures

At December 31, 2012, forfeited nonvested accounts totaled $1,748. Forfeitures of terminated participants' nonvested accounts are used to reduce future employer contributions. Employer contributions were reduced from forfeited nonvested amounts by $91,906 in 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting.

Certain provisions of the Accounting Standards Codification (ASC) require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative expenses have been paid by the Plan. Certain other administrative expenses, including legal and accounting fees, are paid by the Company.

Uncertain Tax Positions
The Plan follows the provisions of the ASC relating to uncertainty in income taxes. The guidance requires entities to assess their tax positions for the likelihood that they would be overturned upon Internal Revenue Service (IRS) examination. In accordance with the guidance, the Plan has determined that it does not have any positions at December 31, 2012 and 2011that it would be unable to substantiate.

The Plan has filed Form 5500, which is the annual return for employee benefit plans, for all years through December 31, 2011. Years ended December 31, 2009, and subsequent remain subject to audit by taxing authorities.

Subsequent Events
Management has evaluated subsequent events and their potential effects on these financial statements through the date which these financial statements were available to be issued, October 10, 2013.

NOTE C – INVESTMENTS

NOTE C – INVESTMENTS – Continued

During 2012, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated as follows:

Mutual funds	$2,406,626

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the NAV of shares held by the Plan at year end, as determined by the trustee.

Common/collective trust fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC Topic 820. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value As of December 31, 2012 Using

NOTE E - COMMON/COLLECTIVE TRUST FUND

The Plan has entered into a benefit-responsive investment contract with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common/collective trust fund is included in the financial statements at contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The common/collective trust fund issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note B, because the common/collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trust fund.

NOTE E - COMMON/COLLECTIVE TRUST FUND - Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $2,886,511 and $2,197,353, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to, the following: (a) the complete or partial termination of the Plan; (b) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average Yields	2012	2011
Average yield earned by the Plan	1.70%	1.92%
Average interest rate credited to participants	1.05%	1.39%

NOTE F - TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds and a common/collective trust fund managed by Fidelity Management Trust Company, the trustee, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees during the year for accounting, actuarial and other services rendered by the party-in-interest were based on customary and reasonable rates for such services.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J - RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2012, to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$30,187,779
