Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by John Hancock Life Insurance Company (USA), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1. Description of Plan and Summary of Significant Accounting Policies - Continued

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

As described in Financial Accounting Standards Board (FASB) Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined contribution plan are required to be reported at fair value. SOP 94-4-1 was incorporated in the FASB Accounting Standards Codification as ASC 325. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 325, the Statement of Net Assets Available for Benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of the shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Note 2. Tax Exempt Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Non-Standardized Profit Sharing Plan with CODA, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be 100% vested in their accounts.

Note 4. Related Party Transactions

Investments of the Plan include shares of mutual funds managed by the Custodian, guaranteed investment contracts issued by the Custodian and participant loans. Therefore, these transactions qualify as party-in-interest transactions.

Note 5. Risks and Uncertainties

The Plan permits participants to invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 6. ERISA Bond Requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be the lesser of 10% of the plan's assets at the beginning of the plan year or \$500,000. At December 31, 2012 and 2011, the Plan's sponsor maintained adequate bond coverage for the Plan.

Note 9. Fair Value of Assets and Liabilities

Effective January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), which provides a framework for measuring fair value under GAAP. SFAS 157 was subsequently incorporated in the FASB codification as ASC 820. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quote prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 9. Fair Value of Assets and Liabilities - Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets and liabilities itemized below were measured at fair value during the years ended December 31, 2012 and 2011 using the market and income approaches. The market approach and income flow approach was used for Level 1 and Level 3, respectively.

		<u>Assets at Fair Value as of December 31, 2012</u>

Note 10. Income Taxes

In June 2006, the Financial Accounting Board (FASB) issued FIN 48, "Accounting for Uncertainty in Income Taxes," an interpretation of FASB Statement No. 109, that clarifies the accounting and recognition for income tax positions taken or expected to be taken in the Plan's income tax returns. FIN 48 was incorporated in the FASB codification as ASC 740-10. The Plan's income tax filings are subject to audit by various taxing authorities. The Plan has evaluated its tax positions and interpretations, and believes its positions are appropriate based on current facts and circumstances.

Note 11. Plan Amendments

Effective January 1, 2009, the Plan was amended to reflect the provisions of the Pension Protection Act and HEART Act. Effective December 15, 2010, the Plan was amended to reflect additional provisions of the HEART Act and WRERA Act.

Note 12. Guaranteed Interest Accounts

Contributions under a group annuity contract can be allocated to guaranteed interest accounts (referred to as “guaranteed accounts”), which are not, by definition, an investment contract, but rather an investment option offered under the John Hancock group annuity contract. Such contributions are held in the John Hancock general account. Guaranteed accounts guarantee the return of principal plus compound interest earned over a defined 3, 5, or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guaranteed period.

Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. This is called the “new money” regular rate. For other types of contributions, interest rates may differ and may change during the month.

At the end of each reporting year, a “composite rate” of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to that guaranteed account during that reporting year for that participant. Contributions continue to earn the calculated composite interest rate for the duration of the guarantee term.

For each reporting year in which a participant makes a contribution to a guaranteed account, a new account is established for all contributions made during that reporting year and a new composite interest rate is established at the end of the contract year which applies to the remainder of the guarantee term for that account. As a result, participants may have multiple guaranteed accounts earning different composite interest rates, each maturing at a different contract year-end.

At the end of a guarantee period (i.e. at maturity), contributions and interest earned from a guaranteed account may be invested into any of the investment options available under the group annuity contract. However, if written instructions are not received at least 30 days before maturity date, specifying the participant’s choice of investment option(s) for the maturing amount, it will be automatically reinvested in a guaranteed account of the same term at the current new money rate.

The fair value of the investment contract at December 31, 2012 and 2011 was \$1,179,438 and \$934,110 respectively.

Average Yields:	2012	2011
Based on actual earnings	0.52%	0.77%
Based on interest rate credited to participants	0.52%	0.77%
