Note 1 - Description of the Plan

The following description of the SIMCO Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1981 by SIMCO Electronics (the Company) to provide retirement benefits for its employees. The Plan is a defined contribution plan covering all eligible employees who are not members of a union subject to a collective bargaining agreement or leased employees or employees who are paid cash in lieu of benefits in accordance with a United States Department of Labor Wage Determination which has been issued as a requirement of the Service Contract Act of 1965, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant contributions

Participants may voluntarily contribute up to 90% of pretax compensation limited to the maximum allowable under the provisions of the Internal Revenue Code (IRC). Participants who are age 50 and over may make additional catch-up contributions. New participants who do not affirmatively elect salary deferral contributions at the time of Plan entry are automatically enrolled at a 6% salary deferral contribution (which they may affirmatively rescind at any time thereafter). A participant may increase or decrease the amount of contributions at any time. Contributions withheld are invested in accordance with the participant's directions and are allocated to funds in 1% increments.

Participants may also make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions

The Plan allows for discretionary employer matching contributions. The Plan also allows for an additional annual employer discretionary profit sharing contribution, in an amount determined by the Company, to participants who are eligible to share in the contributions for the Plan year. Discretionary matching contributions at 50% of participant deferral contributions to a total of 4% of compensation were reinstated effective June 1, 2011, and were $217,375 and $107,755 for the years ended December 31, 2012 and 2011, respectively. Effective in January 2013, the Company will reduce the discretionary matching contributions to 50% of participant deferral contributions to a total of 2% of compensation.

Note 1 - Description of the Plan (continued)

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) Plan investment earnings or losses. Allocations of the Company's contributions are based on participant contributions or eligible participants' compensation, as defined in the Plan agreement. Allocations of Plan investment earnings are based on participant account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the vested balance of the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's matching contributions and discretionary profit sharing contributions is based on the participant's years of vesting service. Participants who complete 1,000 hours of service for each Plan year receive one year of vesting service. Participants are vested 100% in discretionary profit sharing contributions after completing two years of service. The vesting schedule for the Company's matching contributions is as follows:

Years of Vesting Service	Vesting Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Investment options

Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various mutual funds available through State Street Bank and Trust Company or into a self-directed brokerage account. As of December 31, 2012, no participants held self-directed brokerage investments.

Payment of benefits

Upon termination of service, death, disability or retirement, a participant may receive a lump-sum distribution or a direct rollover distribution into a qualified plan. Upon termination of service, if a participant's account balance is in excess of $5,000, the participant may delay receipt of the distributions. Additionally, if a terminated participant's account does not exceed $1,000, it will be distributed by means of a lump-sum amount only. If a terminated participant's account balance is between $1,000 and $5,000 and the Plan does not receive distribution instructions, the account will be rolled over into an individual retirement plan account, as determined by the Plan administrator, on behalf of the participant. However, for all participants, minimum required distributions must be made by April 1st following the year in which the participant retires or reaches the age of 70½. A participant may also elect to receive a pre-retirement distribution if the participant is 100% vested in the amount being distributed and has reached 59½ years of age.

Note 1 - Description of the Plan (continued)

Forfeited accounts

The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts are applied to reduce employer contributions and may be used to pay Plan expenses. For the years ended December 31, 2012 and 2011, respectively, forfeited non-vested accounts amounted to $87,830 and $70,156. Total Plan forfeitures remaining in the Plan, including earnings, are insignificant at December 31, 2012 and 2011.

Administrative expenses

The Company has elected to pay all Plan administrative costs other than those associated with certain participant-directed transactions.

Plan termination

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund, which will remain in existence until the Company requests the discontinuance of the trust agreement.

Note 2 - Summary of significant accounting policies

Basis of accounting

The Plan prepares its financial statements under the accrual basis of accounting, in conformity with U.S. generally accepted accounting principles.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Significant estimates used in preparing these financial statements include the fair value of the Plan's investment assets. Actual results may differ from those estimates.

Income taxes

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the IRC. A favorable opinion letter from the Internal Revenue Service was issued on March 31, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan are based. The Plan has been amended since adoption of the prototype plan; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Note 2 - Summary of significant accounting policies (continued)

Income taxes (continued)

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the various taxing authorities and government agencies. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, no uncertain positions have been taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, currently no audits are in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

Investment valuation and income recognition

Investments, except for fully benefit-responsive investment contracts, are stated at fair value as determined by quoted market prices as reported by the trustee (see Note 3), and for mutual funds represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net unrealized appreciation or depreciation in the fair value of investments for each year is reflected in the Statements of Net Assets Available for Benefits and in the Statements of Changes in Net Assets Available for Benefits.

Investments in common/collective trust funds are valued at their last reported net asset value. The underlying investments in the common/collective trust funds consist of common stocks, fixed income securities, short-term investments and shares of a combination of underlying funds, which are stated at fair market value. Investments in underlying funds are valued at the net asset value per share of each underlying fund. Investments in common stocks for which market quotations are available are valued at the last sale price on the stock's principal exchange or closing bid price if no sale has occurred. Fixed income securities are valued on the basis of the closing bid price. Short-term investments are valued at amortized cost, which approximates fair value. All other underlying investments in the common/collective trust funds are stated at fair value as determined pursuant to procedures established by the Board of Trustees of the funds.

The Plan's investment in the Invesco Stable Asset Trust represents investments in fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As such, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The adjustment in the value of the fully benefit-responsive investment contracts is reported in the Statements of Changes in Net Assets Available for Benefits on a contract value basis.

Contract value represents contributions made to the Stable Value Funds, plus interest at specified rates under the underlying investment contracts, less participant distributions and administrative expenses. The interest crediting rate, which approximates the average yield earned on the investments and was 0.86% and 0.93% for the years ended December 31, 2012 and 2011, respectively, is determined daily and averaged 1.62% and 1.72% for years ended December 31, 2012 and 2011, respectively. The funds are managed such that it is unlikely that the interest crediting rate would ever be below zero.

Note 2 - Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

Certain "non-qualified withdrawals", including termination of the Invesco Stable Asset Trust as an investment option or termination of the Plan, may require up to 12 months to effect the distribution at contract value. The Plan administrator does not believe that the occurrence of any such valuation event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Payments of benefits

Plan benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through October 10, 2013, which is the date these financial statements were available for issuance. All subsequent events requiring recognition as of December 31, 2012 and 2011 have been incorporated into these financial statements.

Note 3 - Investments - Information certified by trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was prepared and certified as complete and accurate by State Street Bank and Trust Company as of and for the years ended December 31, 2012 and 2011, and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying Statements of Net Assets Available for Benefits of $12,619,312 and $12,046,961 (adjusted by $100,317and $55,353 to contract value for the Stable Value Funds) as of December 31, 2012 and 2011, respectively.

b. Total investment income (loss) as shown in the accompanying Statements of Changes in Net Assets Available for Benefits of $1,441,867 and ($366,307) for the years ended December 31, 2012 and 2011, respectively.

c. Investment balances as shown in the Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2012.

Note 3 - Investments - Information certified by trustee (continued)

Accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority, consisting of significant unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements - The fair values of short-term money market, registered investment companies and corporate common stocks are based on quoted market prices, when available. In addition, the Stable Value Funds in 2012 and a substantial portion of the Stable Value Funds in 2011, a common/collective trust, is based on quoted market prices.

Level 2 Fair Value Measurements - The fair values of common/collective trust funds, except the Stable Value Funds, are based on the investment's net asset value per unit, considering quoted market prices for similar securities, interest rates, foreign exchange rates, prepayments speeds, credit risk and other inputs.

Level 3 Fair Value Measurements - The fair value of a portion of the Stable Value Funds in 2011 is determined primarily from the replacement costs of insurance investment contracts held by the Stable Value Funds, and the changes in the fund balance during the year ended December 31, 2011 is attributable to changes in unrealized appreciation (depreciation) in the investments.

The fair values of individual investments that represent five percent or more of the Plan's net assets as of December 31 are as follows:

	2012	2011
Invesco Stable Asset Trust	$ 3,143,898	$ 2,670,535
T. Rowe Price Mid-Cap Value Fund	1,548,801	1,594,617
Franklin Rising Dividends Fund	922,973	-

DWS High Income Plus Fund	-	800,520
Fidelity Advisor Leveraged Company Stock	-	764,213
SSGA Life Solutions Balanced Fund	-	761,584

The Stable Value Funds are reported at contract value rather than fair value, as follows:

Fair value	$ 3,143,898	$ 2,670,535
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(100,317)	(55,353)
Contract value	$ 3,043,581	$ 2,615,182

Note 4 - Terminated employee accounts

At December 31, 2012 and 2011, 65 and 40 participants, respectively, had terminated employment. Their vested account balances included in net assets available for benefits were $2,860,155 and $1,505,818, respectively, as of those dates. None of the terminated participants remaining in the Plan at December 31, 2012 and 2011, respectively, had requested to withdraw from the Plan as of those dates.

Note 5 - Risks and uncertainties

The Plan provides for various investment options in any combination from among the funds sponsored by State Street Bank and Trust Company or in self-directed brokerage accounts. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in investment value in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Through June 30, 2013, individual fund returns ranged from a loss of 3.64% to a gain of 19.68% and averaged a net gain of 8.50% since December 31, 2012.
