Aurora Salary Deferred Savings Plan

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of the Plan

Established October 1, 2003, the Aurora Salary Deferred Savings Plan (the Plan) is a defined contribution 401(k) profit sharing plan covering all eligible employees of Aurora Cares, LLC d/b/a Tara Cares and entities affiliated by common ownership, (the Company) and is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, when applicable.

Information about the plan agreement and the vesting and benefit provisions, beyond the information provided below, is contained in the Plan Document and Summary Plan Description. Copies of these documents are available from the plan administrator. The plan administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Participation

All employees who have attained the age of 18 and have completed three months of entry service are eligible to participate in the Plan.

Contributions

Employees who are eligible to participate in the Plan may elect to contribute up to 50% of their eligible pay to the Plan, subject to certain limitations. Employees who are age 50 or older by the end of the calendar year are allowed to make an additional "catch-up" contribution. This contribution was limited to $5,500 for 2012 and 2011. The "catch-up" contribution is not eligible for the employer discretionary matching contribution.

The Company may make discretionary matching contributions as determined periodically by the Company. There were no discretionary matching contributions for the years ended December 31, 2012 and 2011. During the year ended December 31, 2012, the Company made a qualified, non-elective employer contribution in the amount of $963 related to the self-correction program that was entered into ($4,516 – 2011).

All contributions are invested, at the option of the participant, in one or more of the available funds. Contributions may be invested 100% in one of the available funds, or in more than one fund.

1. Description of the Plan (continued)

Vesting

All participants are 100% vested in their contributions and allocated earnings and they become 100% vested in the Company contributions after completion of three years of service, as defined in the Plan Document.

Withdrawals of Participants

Participating employees may make financial hardship withdrawals up to the value of their vested employee contributions including rollover contributions.

Notes Receivable from Participants

Participating employees who have a balance in their Plan account are eligible to borrow funds from their Plan account. Participants may borrow a minimum of $1,000 per loan up to a maximum equal to the lesser of 50% of their account balance or $50,000. The number of loans outstanding is limited to one per participant. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, involuntary or voluntary termination, or retirement, a participant or their beneficiaries will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Normal retirement age is age 65. Participating employees who attain age 59½ may withdraw all or any part of their vested account balance.

Forfeited Accounts

These accounts may first be used for the restoration of participant's forfeitures, then to offset plan expenses, and then to reduce the Company's discretionary matching contribution. At December 31, 2012 and 2011, there were no forfeited non-vested accounts.

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution and (b) an allocation of the plan's earnings and expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain (loss) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefit payments to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of note receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments

At December 31, 2012 and 2011 the following investments comprised 5% or more of the Plan's net assets:

	2012	2011
Stable Pooled Fund	**$ 1,188,416**	$ 1,118,898
Intermediate/Long Horizon Asset Allocation Fund	**$ 1,055,660**	$ 787,056
Intermediate Horizon Asset Allocation Fund	**$ 583,335**	$ 475,662
Long Horizon Asset Allocation Fund	**$ 530,102**	$ 426,545
Stock Index Fund	**$ 436,874**	$ 332,251

The contract value for the Stable Pooled Fund is $1,155,692 for the year ended December 31, 2012 ($1,091,640 – 2011).

During the year ended December 31, 2012, the Plan's investments (including gains and losses bought and sold, as well as held during the year) appreciated in value by $474,207 as follows:

Registered investment companies	$ 462,100
Common collective trust	12,107
	$ 474,207

4. Fair Value Measurements

Financial Accounting Standards Board's Accounting Standards Codification (ASC) 820: *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

4. Fair Value Measurements (continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common collective trust: Valued at the net asset value (NAV) of units of the collective trust. The NAV, as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities as reported by the trustee using the audited financial statements of the fund at year end. The common collective trust is classified as a level 2 investment. The common collective trust fund seeks to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit.

The common collective trust fund does not have any unfunded commitments relating to its investments, nor any significant restrictions or redemptions. Participant directed redemptions can be made on any business day and do not have a redemption notice period. Certain events, such as a change in law, regulation, administrative ruling or employer-initiated termination of the Plan, may limit the ability of the Plan to transact the common collective trust fund at contract value with the issuer. The Plan's management does not believe that the occurrence of any such events is probable.

Shares of registered investment companies: Valued at the NAV of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investment.

4. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

5. Financial Certification

The following financial information relating to the Plan's assets at December 31, 2012 and 2011, as well as the income and transactions for the years then ended have been derived from information provided by State Street Bank and Trust Company and Massachusetts Fidelity Trust Company, the trustees of the Plan, and have been certified by them as complete and accurate to the best of their knowledge. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent auditors.

	2012	2011
Investments at fair value:		
Investment in common collective trust	$ **1,155,692***	$ 1,091,640 *
Investments in registered investment companies	$ **5,963,159**	$ 4,662,781
Notes receivable from participants	$ **262,447**	$ 294,395
Transactions for the years ended:		
Net investment gain (loss) from investments	$ **474,207**	$ (77,631)
Interest and dividends	$ **114,051**	$ 77,596

* These amounts are certified at contract value.

6. Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 10, 2011, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax-exempt.

6. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Transaction with Parties in Interest

Certain legal and accounting services were provided at the expense of the plan sponsor. Fees paid from plan assets during the year for other services rendered by parties in interest were based on customary and reasonable rates for such services. Fees paid by the Plan for such services amounted to $22,092 for the year ended December 31, 2012 ($20,409 – 2011).

Plan investments consist of shares of registered investment companies managed by Transamerica Partners Funds Group, an affiliate of Diversified Investment Managers (Diversified). Diversified is the third party administrator and, therefore, these transactions qualify as party-in-interest. Net investment gains on these investments and participant loans amount to $588,258 for the year ended December 31, 2012 (losses of $35 – 2011).

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, to Form 5500:

	2012	2011
Net assets available for plan benefits per the financial statements	**$ 7,381,298**	$ 6,048,816
Differences in:		
Investments	**262,447**	294,395
Notes receivable from participants	**(262,447)**	(294,395)
Net assets available for plan benefits per the Form 5500	**$ 7,381,298**	$ 6,048,816

10. Subsequent Events

Effective January 2, 2013, the plan's third party administrator, Diversified Retirement Corporation, changed its name to Transamerica Retirement Solutions.

Effective June 1, 2013 the plan sponsor purchased North Hill Nursing and Rehabilitation Center, LLC. Effective June 19, 2013 the plan sponsor purchased Elba Nursing and Rehabilitation Center, LLC. Employees of both facilities are eligible to participate in the plan.

These financial statements have not been updated for subsequent events occurring after October 14, 2013 which is the date these financial statements were available to be issued.
