J.R. CARLSON LABORATORIES, INC. 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE A - DESCRIPTION OF PLAN

The following description of the J.R. Carlson Laboratories, Inc. ("Company") 401(k) Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan Adoption Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who complete one year of service and are age twenty-one or older. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. The Board of Trustees also determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to the maximum allowable amount of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option of making matching contributions on behalf of participants. For 2012, the Company made a matching contribution of 20% of 401(k) deferrals up to 4% of eligible compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. For the year ended December 31, 2012, the Company made a $287,103 profit sharing contribution to the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at prime plus 1 percent. Principal and interest is paid ratably through biweekly payroll deductions.

NOTE A - DESCRIPTION OF PLAN - continued

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2012 and 2011 forfeited non-vested accounts totaled $0 and $1,515, respectively. These accounts are used to reduce future employer contributions or pay future administrative expenses.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment custodians. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

*less than 5%

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $322,930, as follows.

Pooled separate accounts	$ 166,385
Common/collective trusts	83,165
Mutual funds	73,380

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE D - FAIR VALUE MEASUREMENTS - continued

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include
--quoted prices for similar assets or liabilities in active markets;
--quoted prices for identical or similar assets or liabilities in inactive markets;
--inputs other than quoted prices that are observable for the asset or liability;
--inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the current participant-unit value.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE D - FAIR VALUE MEASUREMENTS - continued

Insurance contract (Principal Fixed Income Guaranteed Option): This is a fully benefit-responsive investment contract and, therefore, contract value is the relevant measurement attributable for the contract. It is a single group annuity contract with a fixed rate or interest. Under the terms of the contract, the composite crediting rate is reset on a semi-annual basis and will never be less than the guaranteed minimum interest rate. Contract value, as reported to the Plan by Principal, represents participant contributions and earnings, less withdrawals and administrative expenses. The insurance contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Fair value is the amount a plan sponsor would receive if they were to withdraw or transfer funds prior to maturity. This event is not probable to occur. The fair value represents the discontinuation value or 95% of the contract value. The 5% surrender face is described in the contract.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Common/collective trusts	-	$ 1,322,201	-	$ 1,322,201

Insurance contract	-	-	$ 689,594	689,594
Total investments at fair value	$ 2,346,045	$ 1,322,201	$ 689,594	$ 4,357,840

	Assets at Fair Value as of December 31, 2011

Total investments at fair value	$ 3,361,938	-	$220,510	$ 3,582,448

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure fair value of these financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Principal Fixed Income Guaranteed Option	$689,594	Discontinuation Value	Composite Crediting Rate Surrender Charge	2.65% 1/1/12-5/31/12 2.40% 6/1/12-11/30/12 2.10% 12/1/12-12/31/12 1.44% actual interest rate 5%

NOTE E - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal Trust Company and ING Life Insurance and Annuity Company. These companies are the custodians of the Plan's assets and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE G - TAX STATUS

The Plan adopted the DATAIR Mass-Submitter Prototype Non-Standardized Cash or Deferred Profit Sharing Plan effective January 1, 1999. The Plan has been amended since the adoption. The Internal Revenue Service has determined and informed the Company by a letter dated April 16, 2010, that the Plan amendments to the date are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed, and is being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified, and the related trust is tax-exempt.

NOTE G - TAX STATUS - continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for year prior to 2010.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORMS 5500

Differences between the financial statements and Form 5500 can arise due to the accounting for benefits paid to participants. For financial statement purposes, benefits are recorded when they are paid to the participants. For Form 5500 purposes, however, amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31st, but not yet paid as of that date.

There were no such differences in the benefit amounts for 2012 or 2011. Therefore, the benefits paid to participants for 2012 totaled $456,175 for both financial statement and Form 5500 purposes. Also, the net assets available for benefits at December 31, 2012 ($4,752,721) and 2011 ($3,933,381) were the same for financial statement and Form 5500 purposes.

NOTE J - INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information in the accompanying financial statements and supplemental schedules has been certified by the investment custodians that the information is complete and accurate.
