Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2012 AND 2011

INDEPENDENT AUDITORS' REPORT

The Plan Administrator and Participants of Hourly Employees Retirement Plan
of Bradken-Atchison/St. Joseph, Inc.
Atchison, Kansas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Hourly Employees Retirement Plan of Bradken-Atchison/St. Joseph, Inc. (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by BMO Retirement Services, a division of BMO Harris Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets and supplemental Schedule of Reportable Transactions, which are the responsibility of plan management, are presented for the purpose of additional analysis and are

not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

HOURLY EMPLOYEES RETIREMENT PLAN OF BRADKEN-ATCHISON/ST. JOSEPH, INC.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF THE PLAN

The following description of the Hourly Employees Retirement Plan of Bradken-Atchison/St. Joseph, Inc. (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – Bradken-Atchison/St. Joseph, Inc. (the "Plan Sponsor" or "Company") is a wholly owned subsidiary of Bradken, Inc. The Plan is a noncontributory, defined benefit plan for certain hourly employees of the Plan Sponsor. As of May 10, 1993, the Plan was closed to new participants. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor also acts as the plan administrator. BMO Harris Bank, N.A., serves as the trustee and custodian for the Plan, and Rice, Hall, James & Associates manages the Plan's investment assets.

Pension Benefits – The Plan provides for normal retirement benefits upon reaching age 65 and has provisions for early retirement and disability benefits. The Plan also provides for benefits upon meeting certain other preconditions. Benefits under the Plan are determined based upon years of credited service, as defined in the Plan, multiplied by a benefit unit. Benefits are payable in the form of a joint and survivor annuity, or other optional forms. Employees with five years of vesting service, as defined by the Plan, are entitled to pension benefits upon retirement. There is no partial vesting of benefits.

The Plan was amended February 18, 2005, so that the benefit of any employee who transfers to non-covered employment, as defined by the Plan, and who terminates on or after January 1, 2005, will be based on the benefit level in effect at their termination of employment. Previously, benefits were based on the benefit level in effect at the date of transfer to non-covered employment.

Death and Disability Benefits – Beneficiaries of participants who die before retirement may receive death benefits based upon the participant's status at death. Death benefits are payable in monthly installments. Active employees who become disabled may be entitled to disability benefits payable to age 65 reduced by any benefits paid under workers' compensation. Upon retirement at age 65, these benefits are redetermined based upon the formulas for normal retirement benefits.

Expenses – Administrative expenses incurred by the Plan are paid by the Plan Sponsor, while administrative expenses incurred in connection with transactions relating to acquisition or disposition of Plan investment, or related to the Trustee, are paid by the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan should be terminated, all participants become 100% vested in benefits earned as of the termination date. In the event that the Plan should be terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

The Pension Benefit Guaranty Corporation ("PBGC") insures certain benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement

benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Funding Policy – The Sponsor's funding policy is to contribute a determined amount to the Plan in order to maintain the Plan on a sound actuarial basis and meet the minimum funding regulations. The amount of such contributions is limited to the amount that is deductible for federal tax purposes under Section 404 of the Internal Revenue Code (the "IRC"). Contributions totaled \$1,411,644 in 2012. The Company's contributions for 2012 met the minimum funding requirements of ERISA.

Payment of Benefits – Benefit payments are reported in the year paid.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Accumulated benefits under all circumstances (retirement, death, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by a consulting actuary, The Cottonwood Group, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial assumptions below are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. In particular, in the event of a plan termination, the use of a discount rate reflecting current settlement rates would have the effect of increasing the present value of accumulated plan benefits.

The more significant assumptions underlying the most recent actuarial computations are as follows:

Assumed rate of return on investment and discount rate	7.0% per annum, compounded annually
Mortality basis	<i>IRS 2012 Static Mortality Table</i>
Normal retirement age	65

Date of Management's Review – Subsequent events have been evaluated through October 14, 2013, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes used in the methodologies used at December 31, 2012 and 2011:

Common stocks, mutual fund and money market fund – Valued at the closing price or the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.

US Government obligations and corporate bonds – Valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the security is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields on similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2012 and 2011:

4. INVESTMENTS

The following represents fair value of investments that represent 5% or more of net assets available for plan benefits at December 31:

	2012	2011
BMO Prime Money Market	\$ 5,947,908	\$ 4,552,952

The plan's investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in value for the year ended December 31, 2012, as follows:

Common stocks	\$ 341,140
US Government obligations	(22,805)
Corporate bonds	(17,369)
Mutual fund	94,534
	<u>\$ 395,500</u>

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BMO Retirement Services, a division of the BMO Harris Bank, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments as of December 31, 2012 and 2011, and for the year ended December 31, 2012:

- Investments, at fair value
- Accrued investment income
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of Assets (Held at End of Year)
- Schedule of Reportable Transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. TAX STATUS

The Plan has received a determination letter dated March 24, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and operating in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in these financial statements. The Plan Sponsor has applied for a new determination letter, however, as of the report date, no letter has been issued.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability

(or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of a money market fund managed by BMO Financial Group. BMO Harris Bank, N.A., is the trustee as defined by the Plan and part of the BMO Financial Group, therefore, these transactions qualify as party-in-interest.

Certain Plan investments are shares of a mutual fund managed by Rice, Hall, James & Associates. Rice, Hall, James & Associates is the investment adviser to the Plan, and therefore, these transactions qualify as party-in-interest.

8. RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility due to the level of risk associated with certain investment securities. It is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

c. Change in Actuarial Assumptions

All actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates and mortality tables.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

For funding purposes, the actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

For pension expense purposes, the actuarial value of assets is defined as the market value of Plan assets.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Summary of Plan Provisions

1. **Effective Date**

The Plan was effective January 1, 1969. The plan was adopted by Bradken-Atchison/St. Joseph, Inc. (the "Company:"), effective December 23, 2003. The most recent plan amendment reflected in this valuation was effective January 1, 2008.

2. **Plan Year**

The Plan Year is the calendar year.

3. **Eligibility**

All hourly employees of the Company employed at the Atchison, Kansas plant prior to May 10, 1993, except nonresident aliens receiving no earned income from the company.

4. **Retirement Date**

The Normal Retirement Date is the first day of the calendar month coincident with or immediately following the participant's 65th birthday. Early Retirement may be elected after attaining age 55 and the completion of 5 years of Vesting Service.

5. **Credited Service**

One year of Credited Service is earned in each calendar year in which a participant completes 1,000 hours of service. If a participant works less than 1,000 hours, one-twelfth of a year of Credited Service is earned for each 84 hours of service, rounded to the nearest twelfth.

6. **Vesting Service**

One year of Vesting Service is earned in each calendar year in which a participant completes 1,000 hours of service. If a participant works less than 1,000 hours, one twelfth of a year of Vesting Service is earned for each 84 hours of service, rounded to the nearest twelfth.

Summary of Plan Provisions

7. Normal Retirement Benefit

A monthly benefit payable for life at Normal Retirement Date, equal to the participant's years of Credited Service multiplied by the benefit rate in effect when the participant terminates employment. Recent and future benefit rates are:

Effective 5/12/03	\$20.00
Effective 5/12/04	21.00
Effective 7/01/06	21.50
Effective 7/01/08	22.00
Effective 11/21/08	22.75
Effective 2/01/00	23.25
Effective 2/01/11	23.75

8. Accrued Benefit

The annual Accrued Benefit shall be determined at any time using the Normal Retirement Benefit formula. Credited Service shall be computed at the date of determination.

9. Early Retirement Benefit

The Accrued Benefit, unreduced if the employee has attained age 62 prior to termination of employment; otherwise, the Accrued Benefit is reduced by:

- (a) 6.0% for each of the first 5 years that benefit commencement precedes Normal Retirement Date, plus
- (b) 4.0% for each of the next 5 years early.

10. Normal Form of Benefits

If a participant is married for at least 12 months on the date his retirement benefits are to commence, the retirement benefits will be paid in the form of a 50% joint-and-survivor pension. Such benefits are the actuarial equivalent of the benefits which would have been payable on the life only basis. If a participant is not married or has been married less than 12 months at the date his retirement benefits are to commence, the benefits will be paid on the basis of a life only benefit.

11. Optional Forms of Payment

- (a) Life annuity
- (b) Joint and survivor annuities (50%, 75%, 100%).

Summary of Plan Provisions

12. **Death Benefits**

If a participant dies after eligibility for Early Retirement, the surviving spouse will receive a monthly benefit equal to 50% of the amount that would have been payable if the participant had elected Early Retirement on the day preceding his death and began receiving benefits under a 50% qualified joint-and-survivor annuity.

If a participant dies before eligibility for Early Retirement, but after becoming vested, the surviving spouse shall be entitled to a benefit beginning at the time the participant would have been eligible for Early Retirement. The benefit shall be equal to 50% of the benefit determined as if the participant had terminated employment just prior to death, survived to Early Retirement, and retired with a 50% qualified joint-and-survivor annuity.

13. **Termination of Employment**

The Accrued Benefit vests according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or More	100%

The benefit paid is the Accrued Benefit, with early-retirement reduction if applicable (as described above), except that the unreduced-at-62 provision does not apply.

14. **Disability Benefits**

If a participant becomes totally disabled (eligible for Social Security disability benefits) after attaining age 45 and having at least 15 years of Vesting Service, the benefit payable is the participant's Accrued Benefit, without reduction for Early Retirement. Prior to age 65, the benefit is reduced by Workers' Compensation and other employer-paid disability benefits.

15. **Cost of Plan**

The entire cost of the Plan is paid by the employer.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

c. Change in Actuarial Assumptions

All actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates and mortality tables.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

For funding purposes, the actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

For pension expense purposes, the actuarial value of assets is defined as the market value of Plan assets.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Summary of Plan Provisions

1. **Effective Date**

The Plan was effective January 1, 1969. The plan was adopted by Bradken-Atchison/St. Joseph, Inc. (the "Company"), effective December 23, 2003. The most recent plan amendment reflected in this valuation was effective January 1, 2008.

2. **Plan Year**

The Plan Year is the calendar year.

3. **Eligibility**

All hourly employees of the Company employed at the Atchison, Kansas plant prior to May 10, 1993, except nonresident aliens receiving no earned income from the company.

4. **Retirement Date**

The Normal Retirement Date is the first day of the calendar month coincident with or immediately following the participant's 65th birthday. Early Retirement may be elected after attaining age 55 and the completion of 5 years of Vesting Service.

5. **Credited Service**

One year of Credited Service is earned in each calendar year in which a participant completes 1,000 hours of service. If a participant works less than 1,000 hours, one-twelfth of a year of Credited Service is earned for each 84 hours of service, rounded to the nearest twelfth.

6. **Vesting Service**

One year of Vesting Service is earned in each calendar year in which a participant completes 1,000 hours of service. If a participant works less than 1,000 hours, one twelfth of a year of Vesting Service is earned for each 84 hours of service, rounded to the nearest twelfth.

Summary of Plan Provisions

7. Normal Retirement Benefit

A monthly benefit payable for life at Normal Retirement Date, equal to the participant's years of Credited Service multiplied by the benefit rate in effect when the participant terminates employment. Recent and future benefit rates are:

Effective 5/12/03	\$20.00
Effective 5/12/04	21.00
Effective 7/01/06	21.50
Effective 7/01/08	22.00
Effective 11/21/08	22.75
Effective 2/01/00	23.25
Effective 2/01/11	23.75

8. Accrued Benefit

The annual Accrued Benefit shall be determined at any time using the Normal Retirement Benefit formula. Credited Service shall be computed at the date of determination.

9. Early Retirement Benefit

The Accrued Benefit, unreduced if the employee has attained age 62 prior to termination of employment; otherwise, the Accrued Benefit is reduced by:

- (a) 6.0% for each of the first 5 years that benefit commencement precedes Normal Retirement Date, plus
- (b) 4.0% for each of the next 5 years early.

10. Normal Form of Benefits

If a participant is married for at least 12 months on the date his retirement benefits are to commence, the retirement benefits will be paid in the form of a 50% joint-and-survivor pension. Such benefits are the actuarial equivalent of the benefits which would have been payable on the life only basis. If a participant is not married or has been married less than 12 months at the date his retirement benefits are to commence, the benefits will be paid on the basis of a life only benefit.

11. Optional Forms of Payment

- (a) Life annuity
- (b) Joint and survivor annuities (50%, 75%, 100%).

Summary of Plan Provisions

12. Death Benefits

If a participant dies after eligibility for Early Retirement, the surviving spouse will receive a monthly benefit equal to 50% of the amount that would have been payable if the participant had elected Early Retirement on the day preceding his death and began receiving benefits under a 50% qualified joint-and-survivor annuity.

If a participant dies before eligibility for Early Retirement, but after becoming vested, the surviving spouse shall be entitled to a benefit beginning at the time the participant would have been eligible for Early Retirement. The benefit shall be equal to 50% of the benefit determined as if the participant had terminated employment just prior to death, survived to Early Retirement, and retired with a 50% qualified joint-and-survivor annuity.

13. Termination of Employment

The Accrued Benefit vests according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or More	100%

The benefit paid is the Accrued Benefit, with early-retirement reduction if applicable (as described above), except that the unreduced-at-62 provision does not apply.

14. Disability Benefits

If a participant becomes totally disabled (eligible for Social Security disability benefits) after attaining age 45 and having at least 15 years of Vesting Service, the benefit payable is the participant's Accrued Benefit, without reduction for Early Retirement. Prior to age 65, the benefit is reduced by Workers' Compensation and other employer-paid disability benefits.

15. Cost of Plan

The entire cost of the Plan is paid by the employer.
