RUMSEY ELECTRIC COMPANY
401(K) SAVINGS PLAN
Notes to Financial Statements
December 31, 2012 and 2011

NOTE 1 - Description of Plan

The following description of the Rumsey Electric Company's 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document, as amended, for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution plan with an I.R.C. Sec 401(k) provision covering all employees of Rumsey Electric Company (the "Company") who meet the eligibility requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan including monitoring of investment performance and determining appropriate investment offerings. Charles Schwab Retirement Plan Services, Inc. is the Plan's trustee and manages all investments.

B. Eligibility- Each employee who is not governed by a collective bargaining agreement is eligible to elect salary deferrals when they have attained the age of eighteen. Each employee who is not governed by a collective bargaining agreement is eligible to receive the employer contribution when they have attained the age of eighteen and completed one year of service.

C. Employee Contributions - Eligible employees may make a voluntary tax-deferred contribution of 1% to 100% of their pre-tax annual compensation up to $17,000 and $16,500, which is the maximum dollar limit, set by law for the years ending December 31, 2012 and 2011, respectively. The Plan includes an auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions are invested in the Schwab Managed Retirement Fund based on the participant's age.

Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up contributions." For the years ending December 31, 2012 and 2011, the maximum catch-up contributions were $5,500.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

D. Employer Contributions - The Company may make a discretionary matching contribution of the participant elective deferrals. For the years ending December 31, 2012 and 2011, the Company elected to match employee salary deferrals at a rate of 50% of each employee's tax-deferred contributions up to the first 5%. Matching contributions for outside commissioned salesmen, however, are limited to eligible compensation of up to $70,000 and $66,000 for the years ended December 31, 2012 and 2011, respectively.

The Company can elect to make an additional non-elective contribution in such amounts as may be determined by its Board of Directors. The Board of Directors elected not to contribute a non-elective contribution for the years ended December 31, 2012 and 2011. Contributions are allocated to individual participant accounts based on the ratio of each

NOTE 1 - Description of Plan (Continued)

participant's annual compensation to the total Plan participants' compensation. Non-elective contributions are allocated to investments as directed by participants.

E. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the employer's contributions, plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specified participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

F. Vesting - All employee and employer matching contributions are fully (100%) vested and nonforfeitable. Participants become fully (100%) vested in the non-elective contribution upon the occurrence of death, total or permanent disability, or normal or early retirement.

Other than as stated above, non-elective contributions vest based upon the following:

Years of Service	Percentage
Less than 2 years	0%
After 2 years but less than 3	20%
After 3 years but less than 4	40%
After 4 years but less than 5	60%
After 5 years but less than 6	80%
After 6 years	100%

A participant's vested benefit is determined as of the date of termination of employment or retirement.

G. Payment of Benefits - A participant will receive a lump sum amount equal to the value of the individual's account upon termination of service due to death, disability, or upon attaining a Normal Retirement age or an early Retirement benefit may be elected by individuals who meet specified age and service requirements. For terminated participants with vested balances less than $1,000, the administrator shall pay the participant in one simple lump sum payment as soon as possible after termination. Vested balances that exceed $1,000, no distribution is made from the Plan without consent of the participant.

H. Income Tax Status - The Plan obtained its latest determination letter on May 23, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Accounting Principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax

NOTE 1 - Description of Plan (Continued)

periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

l. Forfeitures - Any participant who terminates employment without being fully (100%) vested in their non-elective contribution account forfeits their unvested portion of the non-elective contribution. At December 31, 2012 and 2011 forfeited nonvested accounts totaled $20 and $114, respectively. These accounts are first to be used to reduce future plan administrative expenses, and then any remaining amount can be used to offset the employer contribution. During 2012 and 2011, the administrative expenses were reduced by $114 and $139, respectively, from forfeited nonvested accounts.

NOTE 2 - Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representation of the Plan's management, who is responsible for their integrity and objectivity. The accounting policies described below conform to accounting principles generally accepted in the United States of America and have been applied consistently in the preparation of the financial statements.

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates - The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and charges therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent Events - Subsequent events were evaluated through October 7, 2013, which is the date the financial statements were available to be issued.

NOTE 3 - Trustee Certification

The December 31, 2012 and 2011 information summarized below was certified by Charles Schwab Trust Company. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

	2012	2011
Investments - At Fair Value	$ 22,631,462	$ 20,228,082
Notes Receivable from Participants	478,645	451,743
Investment Income (Loss)	2,084,371	(685,057)
Interest Income - Notes Receivable from Participants	17,989	19,539

NOTE 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Shares of Registered Investment Companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The shares of Registered Investment Companies held by the Plan are deemed to be actively traded.

Common Collective Investment Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective investment trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table set forth, by level within fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

The Plan's policy is to recognize transfers into and out of level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2012 and 2011, there were no significant transfers into or out of level 3.

NOTE 5 - Investments

NOTE 6 - Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. No allowance for credit losses have been recorded as of December 31, 2012 and 2011. If a participant ceases to make a loan repayment and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Participants may borrow from their fund accounts a minimum of $1,000 up to maximum equal to the lesser of $50,000 or 50 percent of their nonforfeitable account balance, whichever is less. Loan transactions are treated as transfers between the investment fund and the Participant Loan Fund. Loan terms range from one to five years, except for loans for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan's administrator. Principal and interest is paid ratably through weekly or semi-monthly payroll deductions. Balances outstanding at December 31, 2012 and 2011 were $478,645 and $451,743, respectively.

NOTE 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 9 - Related Party Transactions

Certain plan investments are shares of registered investment companies managed by Charles Schwab Trust Company. Charles Schwab Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.
