Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Employee Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Van Dorn Demag Corporation Employee Retirement Plan, which comprise the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fifth Third Bank, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules.

(Continued)

Independent Auditors' Report, Continued

Basis for Disclaimer of Opinion (Continued)

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the accompanying table of contents, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

EMPLOYEE RETIREMENT PLAN
Notes to Financial Statements
December 31, 2012 and 2011

1. Description of the Plan

The following description of the Van Dorn Demag Corporation Employee Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, which commenced on April 20, 1993 (the Effective Date), is a noncontributory defined benefit pension plan sponsored by Van Dorn Demag Corporation (the Company) and benefits salaried and hourly employees of the Company employed prior to January 31, 2004 (or terminated but rehired prior to June 30, 2004). The Plan is a continuation of the Van Dorn Company Employee Retirement Plan (the prior plan) as it applies to employees of the Company. Participants in the prior plan became participants as of the Effective Date. All other eligible employees became participants in the Plan on the dates of their respective employment. Years of benefit and vesting service earned under the prior plan are considered in determining vesting and pension benefits under the Plan. Effective, beginning December 31, 2006, the Plan was amended to cease the accrual of benefits to eligible participants, in which years of service will accrue from the date of hire through the participant's termination date or December 31, 2006, whichever date is earlier. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Benefit Eligibility

- (1) Normal - First day of the month following the sixty-fifth birthday.
- (2) Early - First day of any month after age fifty-five and ten years of vesting service.
- (3) Deferred Vested - After completing three years of vesting service.
- (4) Disability - After completing fifteen years of vesting service
- (5) Death - In same manner as for deferred vested.

(c) Pension Benefits

(1) Normal:

Participating salaried employees are entitled to an annual pension benefit, generally provided through monthly installments, beginning at normal retirement (age 65), of one percent of the final average annual compensation (final average annual compensation is defined as the period of five consecutive years of compensation which yields the highest average compensation prior to retirement or termination or December 31, 2006, whichever is earlier) up to their social security covered compensation, multiplied by years of benefit service up to a maximum of 30 years (years of benefit service is defined as the amount equal to the period of time, computed to the nearest 1/12th year, commencing on the date on which one hour of completed service is attained, and terminating on the severance date or December 31, 2006, whichever is earlier, subject to certain provisions regarding breaks in service) plus one and one half percent of final average annual compensation in excess of social security covered compensation, multiplied by years of benefit service up to a maximum of 30 years.

Participating hourly employees at the Company's Strongsville, Ohio location (SH employees) are entitled to a monthly benefit determined by multiplying the years of benefit service (not limited) earned through the date of retirement or termination or December 31, 2006, whichever is earlier, by the applicable rate at either the retirement or termination date or December 31, 2006, whichever is earlier. Effective January 17, 2005 through December 31, 2006 the applicable rate was \$33.50. From January 1, 2001 to January 16, 2005 the applicable rate was \$29. The applicable rate prior to January 1, 2001 was the rate in effect at the time of termination.

Former employees of the Company's now closed facilities, Fountain Inn and Duncan, South Carolina and Brunswick and Mohawk Drive, Strongsville, Ohio (FDB employees), are entitled to a monthly benefit equal to the applicable rate in effect at the time of retirement or termination, multiplied by the number of years of participation (not limited). Years of participation was defined as each plan year in which at least 1,800 hours of service was attained, with 1/12th of a year of participation credited for each 150 hours of service. Partial years of service were recognized.

(2) Early:

The Plan permits early retirement, provided the participant has reached age 55 and has completed at least ten years of vesting service for salaried and SH employees or ten years of service for FDB employees, as defined under the Plan.

The early retirement benefit to which a salaried, SH, or FDB participant is entitled is determined in the same manner as for normal retirement but is reduced by the early retirement factor of one third of one percent per month for each month prior to the retiree's normal retirement date.

(3) Deferred Vested:

In the event of a participant's termination of service prior to reaching normal or early retirement age, the Plan provides a pension benefit determined in the same manner as for normal retirement, provided the participant has met the minimum vesting requirements under the Plan. Benefits may commence on the first day that the participant would have been eligible to receive an early retirement benefit, subject to the early retirement factor, or delayed to date of normal retirement.

(4) Disability:

In the event of a participant's termination of service prior to reaching normal retirement age due to a permanent and total disability (as defined by the Plan), the Plan provides a disability benefit determined in the same manner as for normal retirement, provided the participant has met the minimum vesting requirements under the Plan. Benefits may commence the first day of the month following the month in which the participant becomes eligible for the disability benefit.

(5) Death:

In the event of a participant's death or unless elected otherwise, the Plan provides for a life annuity to the participant's surviving spouse (or beneficiary) equal to 50% of the reduced monthly benefit amount to which the participant was entitled at the time of death or December 31, 2006, whichever is earlier. Benefits may commence on the first day that the participant would have been eligible to receive an early retirement benefit, subject to the early retirement factor, or delayed to date of normal retirement.

(d) Vesting

Participants under the Plan are vested following the completion of three years of vesting service.

A non-FDB employee shall be credited with years of vesting service in the same manner as determined for crediting years of benefit service.

An FDB employee shall be credited with a year of vesting service for each plan year in which the employee earns 1000 hours of service, or if less than 1000 hours, 1/12th of a year for each 83 hours of service.

(e) Methods of Payment

An employee who becomes eligible to receive a normal, early, or deferred vested retirement benefit under the Plan, may elect a benefit payment in accordance with any one of the following options:

- (1) A reduced monthly benefit for the lifetime of the employee, with an equal monthly, lifetime benefit payable following death to the surviving spouse or beneficiary.
- (2) A reduced monthly benefit for the lifetime of the employee, with a continuing monthly, lifetime payment to the surviving spouse or beneficiary equal to one-half of the employee's monthly benefit.

(3) A reduced monthly benefit for the lifetime of the employee, with a remaining equal term-certain benefit of ten years following death of the employee to a deemed beneficiary, or if following the death of the deemed beneficiary, the remaining unpaid amounts to the estate of the survivor.

(4) A monthly benefit amount payable to the employee for the employee's lifetime only.

(f) Payment of Small Benefits

Former participants in the Plan regardless of age, who have an actuarially determined present value life-time retirement benefit of less than \$1,000, will receive a single lump sum involuntary cash-out payment in lieu of any other benefits under the Plan. Upon attaining normal retirement age, should the actuarially determined present value life-time retirement benefit be greater than \$1,000 but not exceed \$5,000, a single lump sum involuntary cash-out payment will be made in lieu of any other benefits under the Plan.

Former participants who have not reached normal retirement age who have an actuarially determined present value life-time retirement benefit greater than \$1,000 but not exceeding \$5,000 may elect to receive a single lump sum payment in lieu of any other benefits under the Plan.

(g) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding Plan termination.

- (2) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- (3) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (4) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

(d) Funding Policy

The Plan is funded solely by contributions made by the Company.

Contributions are determined annually by actuarial valuations of the Plan by an independent consulting actuary. The actuary determines the maximum amount permitted by law or regulation as a federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA.

2. Summary of Significant Accounting Policies, Continued

(d) Funding Policy, Continued

The funding method used was the unit credit actuarial cost method. Under this method, the actuarial accrued liability is equal to the present value of benefits accrued to the valuation date.

The asset valuation method used to develop the actuarial value of assets for the January 1, 2012 and 2011 valuation was the two-year smoothed market value. Under this method, a market value gain or loss is determined each year, and 50% of the gain or loss is recognized for that year and for the following year.

The Company contributed \$2,468,000 and \$2,600,822 to the Plan for the years ended December 31, 2012 and 2011, respectively. The minimum funding contribution determined by actuarial valuation for the years ended December 31, 2012 and 2011 was \$1,969,198 and \$2,467,567, respectively. Certain funding contributions for each of the years ended December 31, 2012 and 2011 were paid in the subsequent year, as allowed under the Internal Revenue Code. Quarterly payments towards the minimum funding contribution were required for both years. The minimum funding requirement under ERISA was met for the years ended December 31, 2012 and 2011.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth under ERISA.

(e) Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. The Company retains the right to determine, on an annual basis, the source of payment of such costs, either from the Plan's assets or from the Company. In addition, certain investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

(f) Payment of Benefits

Benefit payments to participants are recorded when paid.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries;
- (b) Beneficiaries of employees who have died; and
- (c) Present employees or their beneficiaries.

Benefits under the Plan are accumulated based on either a percentage of final average annual compensation (salaried participants) or eligible years of service (hourly participants). The accumulated plan benefits for active employees are based on eligible years of service prior to the valuation date. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to eligible employee service rendered and eligible compensation received.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, Buck Consultants, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

3. Actuarial Present Value of Accumulated Plan Benefits, Continued

The following is a summary of changes in actuarial assumptions from the previous year's actuarial valuation:

(a) The mortality tables were updated as required by the Pension Protection Act (PPA).

The significant actuarial assumptions used in the valuations as of December 31, 2012 and 2011 (valuation dates January 1, 2012 and 2011, respectively) are as follows:

Assumed interest rates:	
Funding	Segment rates with four-month lookback and adjusted for MAP-21, effective interest rate 7.01% and 6.27% for 2012 and 2011, respectively.
FAS 35 Discount Rate	7.25% for 2012 and 2011
Mortality Basis (healthy) for Purposes of Funding Target Liability	The Mortality Table as specified by IRS Reg. 1.430(h)(3)-1, annuitants and non-annuitants for 2012 and 2011
Disabled members	The post-1994 disable mortality rates for males and females per Revenue Ruling 96-7 for 2012 and 2011
Retirement	Later of age 65 or current age
Salary increase rate	N/A (plan benefits frozen)
Increase in Social Security Wage Base	N/A (plan benefits frozen)
Plan benefits not considered	None for 2012 and 2011

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

(Continued)

VAN DORN DEMAG CORPORATION
EMPLOYEE RETIREMENT PLAN
Notes to Financial Statements, Continued
December 31, 2012 and 2011

5. Fair Value Measurements, Continued

- | | |
|---------|--|
| Level 2 | Inputs to the valuation methodology include <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
|---------|--|

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market fund: Valued using amortized cost which approximates fair value.

Common and preferred stocks: Valued at the closing price reported on the active market in which the individual securities are traded.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

6. Related-Party and Party in Interest Transactions

As described in Note 2(c), the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Tax Status

The Plan obtained its latest determination letter on December 10, 2008, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Retirement Benefits:

a. Normal Retirement

Salaried Employees:

The greater of (1) and (2), plus (3), below:

- (1) 1% of final average compensation, plus 0.5% of the excess, if any, of final average compensation over covered compensation, multiplied by benefit service rendered after December 31, 1988 to maximum of 30 years, divided by 12 to be expressed in terms of a monthly benefit.
- (2) \$13.50 multiplied by benefit service rendered after December 31, 1989; this amount is expressed in terms of a monthly benefit.
- (3) \$4.00 multiplied by benefit service rendered prior to January 1, 1989; this amount is expressed in terms of a monthly benefit.

Hourly (Strongsville) Employees:

Effective February 1, 2005, the monthly benefit equals \$33.50, multiplied by benefit service. Prior to February 1, 2005, the monthly benefit was \$29.00, multiplied by benefit service. Prior to January 1, 2001, the monthly benefit was \$28.00, multiplied by benefit service.

Satellite Employees:

Effective February 1, 2005 the monthly benefit equals \$33.50 multiplied by benefit service. Prior to February 1, 2005, the monthly benefit was \$19.50, multiplied by benefit service. Prior to January 1, 2001, the monthly benefit was \$18.50, multiplied by benefit service.

Note: Satellite participants transferred to Hourly (Strongsville) begin to earn future benefits under the Hourly formula as of their date of transfer.

b. Early Retirement

The accrued benefit as determined above, reduced by 1/3 of 1% for each month that the benefit commencement date precedes the participant's normal retirement date.

c. Disability

The accrued benefit determined at date of disability is payable without reduction for early commencement.

d. Deferred Vested

Accrued normal retirement benefit based on benefit service to termination date. Benefit is payable on normal retirement date.

e. Pre-retirement Surviving Spouse Benefit

Should an active, married participant die prior to normal retirement date and after age 55 and 5 years of vesting service, the surviving spouse will be entitled to a lifetime benefit equal to 50% of the actuarially reduced vested benefit the participant would have received had he/she retired early and elected the 50% Joint and Survivor benefit before his death.

If a vested participant is not eligible for early retirement at his date of death, benefit payments to the spouse are deferred until the earliest date the participant would have attained early retirement eligibility.

Final Average Earnings:

The average of the highest consecutive five years of compensation during the last 10 plan years prior to retirement or termination. Compensation earned during the year of termination is included if it is beneficial to the participant.

Employee Contributions:

There are no employee contributions required.

Cost-of-Living Adjustments:

None.

Normal Form of Benefit:

Single Life Annuity for non-married participants; 50% Qualified Joint and Survivor Annuity for married participants.

Recent Changes:

The plan was amended to freeze benefit accruals effective December 31, 2006.

Changes from prior year:

None

Schedule SB, Part V - Summary of Plan Provisions

Retirement Benefits:

a. Normal Retirement

Salaried Employees:

The greater of (1) and (2), plus (3), below:

- (1) 1% of final average compensation, plus 0.5% of the excess, if any, of final average compensation over covered compensation, multiplied by benefit service rendered after December 31, 1988 to maximum of 30 years, divided by 12 to be expressed in terms of a monthly benefit.
- (2) \$13.50 multiplied by benefit service rendered after December 31, 1989; this amount is expressed in terms of a monthly benefit.
- (3) \$4.00 multiplied by benefit service rendered prior to January 1, 1989; this amount is expressed in terms of a monthly benefit.

Hourly (Strongsville) Employees:

Effective February 1, 2005, the monthly benefit equals \$33.50, multiplied by benefit service. Prior to February 1, 2005, the monthly benefit was \$29.00, multiplied by benefit service. Prior to January 1, 2001, the monthly benefit was \$28.00, multiplied by benefit service.

Satellite Employees:

Effective February 1, 2005 the monthly benefit equals \$33.50 multiplied by benefit service. Prior to February 1, 2005, the monthly benefit was \$19.50, multiplied by benefit service. Prior to January 1, 2001, the monthly benefit was \$18.50, multiplied by benefit service.

Note: Satellite participants transferred to Hourly (Strongsville) begin to earn future benefits under the Hourly formula as of their date of transfer.

Schedule SB, Part V - Summary of Plan Provisions

b. Early Retirement

The accrued benefit as determined above, reduced by 1/3 of 1% for each month that the benefit commencement date precedes the participant's normal retirement date.

c. Disability

The accrued benefit determined at date of disability is payable without reduction for early commencement.

d. Deferred Vested

Accrued normal retirement benefit based on benefit service to termination date. Benefit is payable on normal retirement date.

e. Pre-retirement Surviving Spouse Benefit

Should an active, married participant die prior to normal retirement date and after age 55 and 5 years of vesting service, the surviving spouse will be entitled to a lifetime benefit equal to 50% of the actuarially reduced vested benefit the participant would have received had he/she retired early and elected the 50% Joint and Survivor benefit before his death.

If a vested participant is not eligible for early retirement at his date of death, benefit payments to the spouse are deferred until the earliest date the participant would have attained early retirement eligibility.

Final Average Earnings:

The average of the highest consecutive five years of compensation during the last 10 plan years prior to retirement or termination. Compensation earned during the year of termination is included if it is beneficial to the participant.

Employee Contributions:

There are no employee contributions required.

Cost-of-Living Adjustments:

None.

Normal Form of Benefit:

Single Life Annuity for non-married participants; 50% Qualified Joint and Survivor Annuity for married participants.

Recent Changes:

The plan was amended to freeze benefit accruals effective December 31, 2006.

Changes from prior year:

None
