Note 1 - Description of Plan

The following description of the Greenman-Pedersen, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Greenman-Pedersen, Inc. (the "Company") established the Plan, effective as of October 1, 1984, for the benefit of its eligible employees. The Plan was amended and restated effective November 1, 2002.

The Plan is a defined contribution plan covering all full-time employees of the Company who have attained the age of 21, and are not otherwise specifically excluded as defined in the Plan document. The Plan provides growth in savings through contributions and income from investments.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a certain amount of pre-tax annual compensation, as defined in the Plan, not to exceed limitations set forth by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common collective trust as investment options for participants. Participants may increase, decrease or terminate their percentage at any time. The Company may, at its discretion, make a profit sharing and/or matching contribution to eligible participants' accounts. The Company made matching contributions of 50% of the participant's contribution with a cap equal to 3% of employee's compensation for the year ended December 31, 2012. There were no profit sharing contributions made during the year ended December 31, 2012. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, allocation of discretionary contributions and investment earnings, and charged with an allocation of administrative expenses. Allocations are based on a participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Investment gains and losses are allocated to participants' accounts quarterly based on the ratio of the balance of each participant's account to the total balance of all such accounts as of the last day of the quarter-end.

Note 1 - Description of Plan (cont'd.)

Vesting

A Plan participant is 100% vested at all times in all employee and employer contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant accounts. If a loan was taken in the previous 12 months, the amount of the highest outstanding loan balance is deducted from the amount the participant may borrow. Loans will be subject to interest charges equal to the annual effective prime rate plus 1%. In the event of default, the participant's loan will be applied against their respective Plan account balance.

Loans must normally be repaid within such period as agreed to between the participant and the Plan, up to a maximum of five years. However, if the loan is made for the purchase or construction of a principal place of residence, the repayment period may be over twenty years. Repayment will normally be made through payroll deductions. Any outstanding loans must be fully repaid when employment terminates. At December 31, 2012 and 2011, interest rates range from 4.25% to 9.5% per annum, with loans having various maturity dates.

Plan Benefits and Distributions

Withdrawals of all of the net value of funds contributed by the participant under the Plan may be made after the participant attains the age of 59-1/2.

Under the provisions of the Plan, withdrawals of funds other than at retirement, death, disability, or other termination will be permitted subject to certain limitations. In the event of financial hardship, participants under the age of 59-1/2 may obtain all or a portion of the balance to their credit, exclusive of funds attributable to investment gains.

Distributions due to termination of employment, retirement, death or disability may be made in a lump sum, in equal installment payments over a period of up to ten years, or through the purchase of a retirement annuity if the value of the participant's account exceeds $5,000. If the value of the vested account upon termination is $5,000 or less, it will automatically be paid in a lump sum.

Forfeitures

Pursuant to the Plan document, forfeitures are used to reduce future employer contributions with any excess forfeitures reallocated to participant accounts. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $1,251 and $119, respectively, and during the year ended December 31, 2012, there was $17,253 of forfeitures used to offset employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Guaranteed investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan Administration

The Plan is administered by a committee appointed by the Company. All investments of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries under the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Administrative Expenses

The Company may, at its discretion, pay all or part of the expenses of maintaining the Plan. For 2012, the Company paid all except $1,584 of the expenses for maintaining the Plan.

Note 3 - Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by Vanguard Fiduciary Trust Company ("Vanguard"), the trustee, at December 31, 2012 and 2011 and for the year ended December 31, 2012. This information has not been audited by the independent auditors.

	2012	2011
Investments:		
Common collective trusts, at contract value	$ 14,399,345	$ 14,022,119
Mutual funds, at fair value	66,259,060	54,320,625
	$ 80,658,405	$ 68,342,744
Investment income:		
Dividend income	$ 2,100,126	
Interest income on notes receivable from participants	$ 72,035	
Net appreciation in fair value of investments in:		
Mutual funds	$ 4,773,373	

Note 4 - Investments

At December 31, 2012 and 2011, investments that represent 5% or more of the Plan's net assets available for benefits consisted of the following:

	2012	2011
Mutual Funds:		
Perkins Mid Cap Value Fund	$ *	$ 4,114,196
Perkins Small Cap Value Fund	5,499,606	6,270,616
Vanguard IT Treasury Inv	*	3,789,011
Vanguard Mid-Cap Index Fd Inv	4,585,754	3,804,000
Common / Collective Accounts:		
Vanguard Retirement Savings Trust	14,399,345	14,022,119

* Fund balance was not greater than 5% of net assets at December 31, 2012.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $4,773,373 related to mutual funds and appreciated by $340,950 related to common collective trusts.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

The Level 1 inputs relate to mutual funds whose underlying assets are valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The Level 2 inputs relate to common collective trusts whose underlying asset is a Stable Asset Fund which invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the Stable Asset Fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The Stable Asset Fund is recorded in the accompanying financial statements at fair value. Fair value represents quoted market prices for synthetic GICs, while the fair value of conventional GICs is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate at December 31, 2012 and 2011.

Note 5 - Fair Value Measurements (cont'd.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012 and 2011:

	Assets at Fair Value at December 31, 2012

Note 6 - Investment Contract with Insurance Company

The Plan entered into an investment contract with the Vanguard Retirement Savings Trust. Each account is credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value as reported to the Plan by Vanguard. Contract values represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events initiated by the Plan limit its ability to transact at contract value with the issuer. Such events include, but are not limited to, (1) total or partial plan termination, (2) mergers, (3) spin-offs, (4) lay-offs, (5) early retirement incentive programs, (6) sales or closings of all or part of a participating plan sponsor's operations, (7) bankruptcy or (8) receivership. The Plan's management believes that the possibility of any of the above listed events occurring is remote.

The average yield and crediting interest rates for 2012 and 2011 are as follows:

	2012	2011
Average yield	2.37%	3.31%
Crediting interest rate	2.37%	3.31%

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a daily basis for resetting. There is no minimum crediting interest rate.

Note 7 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Vanguard. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to $1,584 for the year ended December 31, 2012.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Tax Status

The Plan obtained its latest determination on May 9, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9 - Tax Status (cont'd.)

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the Internal Revenue Service.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Then Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

Note 11 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to the Form 5500:

Net assets available for benefits per the Form 5500	$ 84,950,734	$ 72,233,714

Note 11 - Reconciliation of Financial Statements to Form 5500 (cont'd.)

During this period, there were no material subsequent events requiring disclosure.
