1 - DESCRIPTION OF PLAN

The following description of the Blair Medical Associates (the "Company") Employees' 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed six (6) months of service and are age twenty-one (21) or older, as defined. The Plan is administered by a written trust agreement and the trustees of that agreement control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently has fourteen (14) mutual funds as investment options for participants. The Company may make discretionary employer contributions, which are determined annually. Contributions are subject to certain limitations.

Participants who have completed 1,000 hours of service and are employed on the last day of the Plan year are entitled to share in the allocation of employer contributions.

The employer contributions are allocated based upon group classifications as follows: Groups A, B, C, D, E, and F consist of physicians. Group G consists of all non-physician employees who have attained five (5) years of service under the Plan, as of the allocation date. Group H consists of all other non-physician employees. The employer designates the amount of contribution to each group annually. The contribution is allocated by the compensation within each group. Total compensation is limited in accordance with IRC rules and regulations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based upon years of continuous service. Participants are 100% vested after six (6) years of service.

1 - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable - Participants

The Plan does not currently provide for loans to participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value in the participant's vested interest in his or her account, or annual installments over a specified period, as defined.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled approximately $16,000 and $6,000, respectively. These accounts are to be used to reduce future Company contributions.

Investment Options

The Plan allows participants to make their investments under a self-directed program. Under this program, participants invest their account balances in anyone of fourteen (14) investment options currently offered by the Plan. Participants may transfer funds between investments and make changes in the allocation of future contributions among funds at any time be either calling or by accessing their accounts with the custodians of the Plan assets.

2 - SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and are prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

FASB ASC topic on Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Using these provisions, the Plan has characterized its investments in securities, based on the priority of the inputs used to value the investments, into the three-level fair value hierarchy. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the investment fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the investment.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Valuations based on unadjusted quoted prices available in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2: Valuations based on quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The following is a description of the valuation methodologies used for assets measured. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Investments are initially recorded at their acquisition cost (if they were purchased) and at fair value (if they were received as a contribution). Subsequent to acquisition, investments are reported at their fair value. The net change in the difference between fair value and the cost of investments is included in the accompanying statements of changes in net assets available for benefits under the caption "Net Appreciation (Depreciation) in Fair Value of Investments".

The net realized gain (loss) on investments is the difference between the proceeds received and the carrying value of the investments sold. The cost of the investments includes earnings that are reinvested. Realized gains and losses on investments are accounted for on an individual security basis. Investment income is recorded on the accrual basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain amounts in the 2011 financial statements have been reclassified to conform to the 2012 presentation.

Subsequent Events

The accompanying financial statements include an evaluation of events or transactions that have occurred after December 31, 2012 and through October 7, 2013, the date the financial statements were available to be issued.

3 - INVESTMENTS

The Plan's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with the FASB ASC 820 topic on Fair Value Measurements and Disclosures.

The following table summarizes the valuation of the Plan's investments by fair value hierarchy as described above as of:

	Level 1	Level 2	Level 3	Total
December 31, 2012:

4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan will be allocated to participant accounts and distributed in such manner as the Company may determine.

5 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as to complete and accurate by The Reliance Trust Company, the custodian of the Plan.

a. Investments by fund group, at fair value;
b. Dividend and interest income, cash basis;
c. Net appreciation (depreciation) in fair value of investments;
d. Reportable transactions;
e. Realized/unrealized gains (losses) on investments; and
f. Administrative expenses.

6 - ADMINISTRATIVE EXPENSES

Plan administrative expenses consisted of service and asset charges of approximately $24,000 in 2012 and $22,000 in 2011, respectively. Investment related expenses are included in net appreciation (depreciation) in market value of investments. Remaining operating and administrative expenses are paid by the Plan sponsor.

7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 9, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC.

The Plan follows the guidance of the FASB ASC topic on Income Taxes. No amounts have been recognized within the financial statements for taxes, interest, or penalties relating to uncertain tax positions. In addition, the Plan does not anticipate any changes to its tax positions within the next twelve months. In general, the Plan's tax positions for open tax years remain subject to examination by the tax authorities in the jurisdiction in which the Plan operates.

8 - RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the participant's account balances and the amounts reported in the statements of net assets available for benefits.

9 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and investment contracts managed by Reliance Trust Company which is the custodian under the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in value of the investment, as they are paid through revenue sharing, rather than a direct payment.

10 - SEPARATED PARTICIPANTS

At December 31, 2012, participants separated from service for which distributions have not been remitted was approximately $269,000.
